

IntechOpen

Characteristics:

IntechOpen is a multidisciplinary service making peer-reviewed books available on an Open Access basis. The thematic scope of the database includes, among others: physical sciences, engineering and technology, life sciences, health sciences, social sciences and humanities. The resource of the service currently includes more than 6,000 book items (of which more than 2,700 items in science, engineering and technology).

Search:

Searches in the database can be conducted within subject areas, then be limited to more specific disciplines.

Book Subject Areas

Physical Sciences, Engineering and Technology

- Chemistry, Computer and Information Science,
- Earth and Planetary Sciences,
- Engineering,
- Materials Science,
- Mathematics,
- Nanotechnology and Nanomaterials,
- Physics,
- Robotics,
- Technology

Life Sciences

- Agricultural and Biological Sciences,
- Biochemistry, Genetics and Molecular Biology,
- Environmental Sciences,
- Immunology and Microbiology,
- Neuroscience

Health Sciences

- Medicine,
- Pharmacology, Toxicology and Pharmaceutical Science,
- Veterinary Medicine and Science

Social Sciences and Humanities

- Business, Management and Economics
- Psychology
- Social Sciences
