FOREWORD.....	5
Clause	
1 Scope.....	7
2 Normative reference	7
3 Return loss	7
3.1 The relationship between impedance, return loss, reflection coefficient and voltage standing wave ratio (VSWR).....	7
3.2 Method of measurement of return loss	9
3.3 General considerations of the measuring equipment.....	9
3.4 Measuring procedure	11
3.5 Presentation of results	11
3.6 Detail to be specified	13
4 Forward loss and reverse loss.....	13
4.1 Definition and general considerations	13
4.2 Method of measurement	13
4.3 General considerations of the measuring equipment.....	13
4.4 Measuring procedure	15
4.5 Presentation of results	15
5 Phase-shift and group-delay.....	17
5.1 Definition and general considerations	17
5.2 Method of measurement	17
5.3 Presentation of results	19
