

Contents

Preface to the Second Edition.....	5
Acknowledgments	6
Introduction.....	7
Combustion Gases in Reciprocating Gas Engines.....	24
Combustion of Gases in Gas Turbines	41
Investigation of Flame Stability and Pollutants Emission at Natural Gases Combustion in Strong Swirl Flow in Model Gas Burners Designed for Gas Turbines.....	71
Papers:	
T. DOBSKI, R. ŚLEFARSKI, R. JANKOWSKI, W. KRUSZEWSKI, J. CHMIELEWSKI, M. KLIMAS, J. WAWRZYNIAK, A. BARCZYNSKI: Utilization of Crude Natural Gases from Local Small Fields as a Method of Lowering Emission of Carbon Dioxide	101
T. DOBSKI, W. KRUSZEWSKI, A. SWIDERSKI, R. SLEFARSKI, R. JANKOWSKI, W. BLASIAK: An Combustion of Low Calorific Natural Gases in Regenerative Gas Burner in Semi-Industrial Combustion Chamber	107
T. DOBSKI, J. WAWRZYNIAK: Combustion of Low Calorific Natural Gases in Gas Engines for Pipeline Gas Transportation Systems	123
T. DOBSKI, D. SZEWCZYK, A. SWIDERSKI, W. KRUSZEWSKI: Combustion of Jets of Low Caloric Natural Gases in Highly Preheated Oxidizers	143
W. KRUSZEWSKI, T. DOBSKI, R. ŚLEFARSKI, R. JANKOWSKI: Low Emission Pollutants Incineration Vapours of Hydrocarbons for Crude Oil Industry at Small Industrial Facility	157
W. BLASIAK , T.DOBSKI, S. LILLE, M. MÖRTBERG, N. RAFIDI: Combustion Tests in a Test Furnace Equipped with High Temperature Air Combustion Mode	167
T. DOBSKI, R. ŚLEFARSKI, R. JANKOWSKI: Combustion Gases in Highly Preheated Air (HiTAC) Technology	179
S. LILLE, T. DOBSKI, W. BLASIAK: Visualization of Fuel Jet in Conditions of Highly Preheated Air Combustion	195
