### CONTENTS

Preface	i
Dynamical models of a suspension bridge driven by vibration data Vincenzo Gattulli, Alvaro Cunha, Elsa Caetano, Francesco Potenza, Andrea Arena and Umberto Di Sabatino	139
Amplitude-dependent model updating of masonry buildings undergoing demolition Panagiotis Martakis, Yves Reuland and Eleni Chatzi	157
Structural identification of the dynamic behavior of floor diaphragms in existing buildings Daniele Sivori, Marco Lepidi and Serena Cattari	173
Non-contact monitoring of the tension in partially submerged, miter-gate diagonals Brian A. Eick, Matthew D. Smith and Billie F. Spencer	193
A new image-quality evaluating and enhancing methodology for bridge inspection using an unmanned aerial vehicle Jin Hwan Lee, Sungsik Yoon, Byunghyun Kim, Gi-Hun Gwon, In-Ho Kim and Hyung-Jo Jung	209
Implementation of video motion magnification technique for non-contact operational modal analysis of light poles Jothi S. Thiagarajan, Dionysius M. Siringoringo, Samten Wangchuk and Yozo Fujino	227
Bridge weigh-in-motion through bidirectional Recurrent Neural Network with long short-term memory and attention mechanism Zhichao Wang and Yang Wang	241
Damage detection of bridge structures under unknown seismic excitations using support vector machine based on transmissibility function and wavelet packet energy Lijun Liu, Jianan Mi, Yixiao Zhang and Ying Lei	257
Response based track profile estimation using observable train models with numerical and experimental validations Jothi Saravanan Thiagarajan, Di Su, Hirofumi Tanaka, Boyu Zhao and Tomonori Nagayama	267
Structural analysis and health monitoring of twentieth-century cultural heritage: the Flaminio Stadium in Rome Paolo Di Re, Egidio Lofrano, Jacopo Ciambella and Francesco Romeo	285
Monitoring an iconic heritage structure with OMA: the Main Spire of the Milan Cathedral Antonello Ruccolo, Carmelo Gentile and Francesco Canali	305
Detecting and localizing anomalies on masonry towers from low-cost vibration monitoring Paolo Borlenghi, Carmelo Gentile and Antonella Saisi	319
On the use of multivariate autoregressive models for vibration-based damage detection and localization Alessandra Achilli, Giacomo Bernagozzi, Raimondo Betti, Pier Paolo Diotallevi, Luca Landi, Said Quqa and Eleonora M. Tronci	335
Clump interpolation error for the identification of damage using decentralized sensor networks Said Quqa, Pier Francesco Giordano, Maria Pina Limongelli, Luca Landi and Pier Paolo Diotallevi	351
Experimental mechanical analysis of traditional in-service glass windows subjected to dynamic tests and hard body impact Lucia Figuli, Daniel Papan, Zuzana Papanova and Chiara Bedon	365
Study of an optimal heating command law for structures with non-negligible thermal inertia in varying outdoor conditions Nicolas Le Touz, Thibaud Toullier and Jean Dumoulin	379
Addition of passive-carriage for increasing workspace of cable robots: automated inspection of surfaces of civil infrastructures Guillermo Rubio-Gómez, Sergio Juárez, David Rodríguez-Rosa, Enrique Bravo, Erika Ottaviano, Antonio González-Rodríguez and Fernando J. Castillo-García	387
Closed loop cable robot for large horizontal workspaces Sergio Juárez-Pérez, Antonio González-Rodríguez, Guillermo Rubio-Gómez, David Rodríguez-Rosa, Erika Ottaviano and Fernando J. Castillo-García	397

## CONTENTS

<b>Cluster analysis and damage identification for FRP/steel-confined RC column using AE technique</b> Fangzhu Du, Dongsheng Li and Dapeng Qiu .....	407
<b>Limit load, shakedown and ratchet analysis of pressurized lateral nozzle</b> Xiaohui Chen, Kunmin Zhuang, Xuanchen Zhu and Haofeng Chen .....	421
<b>Expectation of smart mentality and citizen participation in technology-driven cities</b> Katalin Feher .....	435
<b>Seismic isolation of railway bridges using a self-centering pier</b> Xiushen Xia, Xiyin Zhang, Jun Shi and Jingyao Tang .....	447
<b>A multi-time scale vibration surveillance system for third-party threats on urban pipeline</b> Zelong Liu, Renzhu Peng, Yan Zhang and Suzhen Li .....	457
<b>Seismic behavior of a two-level control system with double vertical shear links in series</b> Mohsen Zare Golmoghany and Seyed Mehdi Zahrai .....	467
<b>Experimental and numerical investigation of the effect of bridge area and its angularities on the failure mechanism of non-persistent crack in concrete-like materials</b> Alireza Bagher Shemirani, M.S. Amini, V. Sarfarazi, K. Shahriar, P. Moarefvand and Hadi Haeri .....	479
<b>An improved algorithm for pile damage localization based on complex continuous wavelet transform</b> Jing-Liang Liu, Cheng-Xu Lin, Xi-Jun Ye, Wen-Ting Zheng and Yong-Peng Luo .....	493
<b>Crack prediction in pipeline using ANN-PSO based on numerical and experimental modal analysis</b> Meriem Seguini, Samir Khatir, Djilali Bouthchicha, Djamel Nedjar and Magd Abdel Wahab .....	507
<b>Analysis and optimization of a typical quasi-zero stiffness vibration isolator</b> Huan Li, Yang Yu, Jianchun Li and Yancheng Li .....	525
<b>Computer vision-based displacement measurement with m-sequence target</b> Yi-ding Hu, Qi Xia, Rong-rong Hou, Yong Xia and Jian-yi Yan .....	537
<b>An efficient approach for optimum shape design of steel shear panel dampers under cyclic loading</b> Mohsen Khatibinia, Aghdas Ahrari, Sadjad Gharehbaghi and Seyyed Reza Sarafrazi .....	547
