

Smart Structures and Systems

An International Journal of Mechatronics, Sensors, Monitoring, Control, Diagnosis, & Life Cycle Eng.

Volume 29, Number 1, January 2022

CONTENTS

Preface	i
A modified U-net for crack segmentation by Self-Attention-Self-Adaption neuron and random elastic deformation Jin Zhao, Fangqiao Hu, Weidong Qiao, Weida Zhai, Yang Xu, Yuequan Bao and Hui Li	1
Damaged cable detection with statistical analysis, clustering, and deep learning models Hyesook Son, Chanyoung Yoon, Yejin Kim, Yun Jang, Linh Viet Tran, Seung-Eock Kim, Dong Joo Kim and Jongwoong Park	17
A three-stage deep-learning-based method for crack detection of high-resolution steel box girder image Shiqiao Meng, Zhiyuan Gao, Ying Zhou, Bin He and Qingzhao Kong	29
Unsupervised one-class classification for condition assessment of bridge cables using Bayesian factor analysis Xiaoyou Wang, Lingfang Li, Wei Tian, Yao Du, Rongrong Hou and Yong Xia	41
Data anomaly detection for structural health monitoring using a combination network of GANomaly and CNN Gaoyang Liu, Yanbo Niu, Weijian Zhao, Yuanfeng Duan and Jiangpeng Shu	53
Convolutional neural network-based data anomaly detection considering class imbalance with limited data Yao Du, Ling-fang Li, Rong-rong Hou, Xiao-you Wang, Wei Tian and Yong Xia	63
SHM data anomaly classification using machine learning strategies: A comparative study Jau-Yu Chou, Yuguang Fu, Shieh-Kung Huan and Chia-Ming Chang	77
Data anomaly detection for structural health monitoring of bridges using shapelet transform Monica Arul and Ahsan Karim	93
Condition assessment of stay cables through enhanced time series classification using a deep learning approach Zhiming Zhang, Jin Yan, Liangding Li, Hong Pan and Chuanzhi Dong	105
Data abnormal detection using bidirectional long-short neural network combined with artificial experience Kang Yang, Huachen Jiang, Youliang Ding, Manya Wang and Chunfeng Wan	117
Detection of multi-type data anomaly for structural health monitoring using pattern recognition neural network Ke Gao, Zhi-Dan Chen, Shun Weng, Hong-Ping Zhu and Li-Ying Wu	129
Smartphone-based structural crack detection using pruned fully convolutional networks and edge computing X.W. Ye, Z.X. Li and T. Jin	141
One-step deep learning-based method for pixel-level detection of fine cracks in steel girder images Zhihang Li, Mengqi Huang, Pengxuan Ji, Huamei Zhu and Qianbing Zhang	153
Long-term condition monitoring of cables for in-service cable-stayed bridges using matched vehicle-induced cable tension ratios Zhen Peng, Jun Li and Hong Hao	167
CNN based data anomaly detection using multi-channel imagery for structural health monitoring Shaik Althaf V. Shajahan, Shuo Wang, Guanghao Zhai and Billie F. Spencer Jr.	181
An active learning method with difficulty learning mechanism for crack detection Jiangpeng Shu, Jun Li, Jiawei Zhang, Weijian Zhao, Yuanfeng Duan and Zhicheng Zhang	195
Impacts of label quality on performance of steel fatigue crack recognition using deep learning-based image segmentation Shun-Hsiang Hsu, Ting-Wei Chang and Chia-Ming Chang	207
Crack segmentation in high-resolution images using cascaded deep convolutional neural networks and Bayesian data fusion Wen Tang, Rih-Teng Wu and Mohammad R. Jahanshahi	221
Synthetic data augmentation for pixel-wise steel fatigue crack identification using fully convolutional networks Guanghao Zhai, Yasutaka Narazaki, Shuo Wang, Shaik Althaf V. Shajahan and Billie F. Spencer Jr.	237
A semi-supervised interpretable machine learning framework for sensor fault detection Panagiotis Martakis, Artur Mousessian, Yves Reuland, Sai G.S. Pai, Said Quqa, David Garcia Cava, Dmitri Tchemiak and Eleni Chatzi	251

The Journal is accessible via the Internet at the following address:

Science Citation Index Expanded ; ISI Alerting Services ; Current Contents /Engineering, Computing and Technology ; Shock and Vibration Digest

Cz.	5524
Nr inw.	61637

Smart Structures and Systems

An International Journal of Mechatronics, Sensors, Monitoring, Control, Diagnosis, & Life Cycle Eng.

Volume 29, Number 2, February 2022

CONTENTS

Bending characteristics of Prestressed High Strength Concrete (PHC) spun pile measured using distributed optical fibre strain sensor Hisham Mohamad, Bun Pin Tee, Mun Fai Chong, Siew Cheng Lee and Krisada Chaiyasarn	267
Theoretical formulations of current and unique Rayleigh waves with impedance boundary condition embedding normal stress Xuan Quynh Nguyen and Dongkyu Lee	279
Post-earthquake fast building safety assessment using smartphone-based interstory drifts measurement Ting Y. Hsu, Cheng Y. Liu, Yo M. Hsieh and Chi T. Weng	287
Corrosion visualization under organic coating using laser ultrasonic propagation imaging Anseob Shin, Jinhwan Park, Heesoo Lee, Yunshil Choi and Jung-Ryul Lee	301
Effect of plastic deformation on the martensitic transformations in TiNi alloy Fedor S. Belyaev, Margarita E. Evard and Aleksandr E. Volkov	311
Developing efficient model updating approaches for different structural complexity - an ensemble learning and uncertainty quantifications Guangwei Lin, Yi Zhang and Qinzhuo Liao	321
Using ANN to predict post-heating mechanical properties of cementitious composites reinforced with multi-scale additives Hashem K. Almashaqbeh, Mohammad R. Irshidat and Yacoub Najjar	337
ISynergistic effects of CNT and CB inclusion on the piezoresistive sensing behaviors of cementitious composites blended with fly ash Daeik Jang, H.N. Yoon, Beomjoo Yang, Joonho Seo, Shah Z. Farooq and H.K. Lee	351
Capturing research trends in structural health monitoring using bibliometric analysis Jaesun Yeom, Seunghoo Jeong, Han-Gyun Woo and Sung-Han Sim	361
Integration of computer-based technology in smart environment in an EFL structures Yan Cao and Zenah M. AlKubaisy	375

Smart Structures and Systems

An International Journal of Mechatronics, Sensors, Monitoring, Control, Diagnosis, & Life Cycle Eng.

Volume 29, Number 3, March 2022

CONTENTS

Dynamic behavior of cracked ceramic reinforced aluminum composite beam Abdellatif Selmi	387
A new hybrid HSDT for bending, free vibration, and buckling analysis of FGM plates (2D & quasi-3D) Y. Belkhodja, D. Ouinas, H. Fekirini, J.A. Viña Olay, B. Achour, M. Touahmia and M. Boukendakdji	395
Crack detection in concrete slabs by graph-based anomalies calculation Weifang Sun, Yuqing Zhou, Jiawei Xiang, Binqiang Chen and Wei Feng	421
Prediction of long-term compressive strength of concrete with admixtures using hybrid swarm-based algorithms Lihua Huang, Wei Jiang, Yuling Wang, Yirong Zhu and Mansour Afzal	433
Modeling and optimization of infill material properties of post-installed steel anchor bolt embedded in concrete subjected to impact loading Muhammad Saleem	445
Experimental study on the effect of EC-TMD on the vibration control of plant structure of PSPPs Tengfei Zhong, Xin Feng, Yu Zhang and Jing Zhou	457
A cable tension identification technology using percussion sound Guowei Wang, Wensheng Lu, Cheng Yuan and Qingzhao Kong	475
Hysteretic model of isolator gap damper system and its equivalent linearization for random earthquake response analysis Hongmei Zhang and Chen Gu	475
Design and experimental characterization of a novel passive magnetic levitating platform R. Alcover-Sánchez, J.M. Soria, J. Pérez-Aracil, E. Pereira and E. Diez-Jimenez	499
Analyzing the bearing capacity of shallow foundations on two-layered soil using two novel cosmology-based optimization techniques Mesut Gör	513

The Journal is accessible via the Internet at the following address:

Smart Structures and Systems

An International Journal of Mechatronics, Sensors, Monitoring, Control, Diagnosis, & Life Cycle Eng.

Volume 29, Number 4, April 2022

CONTENTS

Slope stability analysis using black widow optimization hybridized with artificial neural network Huanlong Hu, Mesut Gör, Hossein Moayedi, Abdolreza Osouli and Loke Kok Foong	523
Effect of brittleness on the micromechanical damage and failure pattern of rock specimens Mehrdad Imani, Hamid Reza Nejati, Kamran Goshtasbi and Amin Nazerigivi	535
Optimum parameters and performance of tuned mass damper-inerter for base-isolated structures Radhey Shyam Jangid	549
Design and implementation of a SHM system for a heritage timber building Qingshan Yang, Juan Wang, Sunjoong Kim, Huihui Chen and Billie F. Spencer Jr.	561
Monitoring and vibration control of a fluid catalytic cracking unit Ronaldo C. Battista, Wendell D. Varela and Igor Braz N. Gonzaga	577
Monitoring moisture content of timber structures using PZT-enabled sensing and machine learning Lin Chen, Haibei Xiong, Yufeng He, Xiuquan Li and Qingzhao Kong	589
A data fusion method for bridge displacement reconstruction based on LSTM networks Da-You Duan, Zuo-Cai Wang, Xiao-Tong Sun and Yu Xin	599
Smart tracking design for aerial system via fuzzy nonlinear criterion Ruei-yuan Wang, Chih Ching Hung and Hsiao-Chi Ling	617
Multiple damage detection of maglev rail joints using time-frequency spectrogram and convolutional neural network Su-Mei Wang, Gao-Feng Jiang, Yi-Qing Ni, Yang Lu, Guo-Bin Lin, Hong-Liang Pan, Jun-Qi Xu and Shuo Hao	625
Compound damping cable system for vibration control of high-rise structures Jianda Yu, Zhouquan Feng, Xiangqi Zhang, Hongxin Sun and Jian Peng	641

The Journal is accessible via the Internet at the following address:

Cz. 5524
Nr inw. 61637

Smart Structures and Systems

An International Journal of Mechatronics, Sensors, Monitoring, Control, Diagnosis, & Life Cycle Eng.

Volume 29, Number 5, May 2022

CONTENTS

Development of exothermic system based on internet of things for preventing damages in winter season and evaluation of applicability to railway vehicles Heonyoung Kim, Donghoon Kang and Chulmin Joo	653
Improvement of the amplification gain for a propulsion drives of an electric vehicle with sensor voltage and mechanical speed control Karim Negadi, Mohamed Boudiaf, Rabah Araria and Lazreg Hadji	661
Metaheuristic-designed systems for simultaneous simulation of thermal loads of building Chang Lin and Junsong Wang	677
LDI NN auxiliary modeling and control design for nonlinear systems Z.Y. Chen, Ruei-Yuan Wang, Rong Jiang and Timothy Chen	693
Dynamic analysis of magnetorheological elastomer sandwich MEMS sensor under magnetic field Hossein Akhavan, Javad Ehyaei and Majid Ghadiri	705
Vision-based Input-Output System identification for pedestrian suspension bridges Jeonghyeok Lim and Hyungchul Yoon	715
Nonlinear structural model updating based on the Deep Belief Network Ye Mo, Zuo-Cai Wang, Genda Chen, Ya-Jie Ding and Bi Ge	729
Hierarchical structure parameters in three dimensional turbulence: She-Leveque model Imtiaz Ahmad, Lamjed Hadj-Taieb, Muzamal Hussain, Mohamed A. Khadimallah, Muhammad Taj and Adil Alshoabi	747

The Journal is accessible via the Internet at the following address:
<http://www.techno-press.org/?journal=sss&subpage=7>

Science Citation Index Expanded ; ISI Alerting Services ; Current Contents/Engineering, Computing and Technology ; Shock and Vibration Digest

Smart Structures and Systems

An International Journal of Mechatronics, Sensors, Monitoring, Control, Diagnosis, & Life Cycle Eng.

Volume 30, Number 1, July 2022

CONTENTS

NNDI decentralized evolved intelligent stabilization of large-scale systems Z.Y. Chen, Ruei-Yuan Wang, Rong Jiang and Timothy Chen	1
Semantic crack-image identification framework for steel structures using atrous convolution-based Deeplabv3+ network Quoc-Bao Ta, Ngoc-Loi Dang, Yoon-Chul Kim, Hyeyon-Dong Kam and Jeong-Tae Kim	17
Digital engineering models for prefabricated bridge piers Duy-Cuong Nguyen, Seong-Jun Park and Chang-Su Shim	35
Study of compressive behavior of triple joints using experimental test and numerical simulation Vahab Sarfarazi, Xiao Wang, Mojtaba Nesari and Erfan Zarrin Ghalam	49
Characterizing the strain transfer on the sensing cable-soil interface based on triaxial testing Guan-Zhong Wu, Dan Zhang, Tai-Song Shan, Bin Shi, Yuan-Jiang Fang and Kang Ren	63
A generalized adaptive variational mode decomposition method for nonstationary signals with mode overlapped components Jing-Liang Liu, Fu-Lian Qiu, Zhi-Ping Lin, Yu-Zu Li and Fei-Yu Liao	75
Optimal design of a viscous inertial mass damper for a taut cable by the fixed-points method Y.F. Duan, S.H. Dong, S.L. Xu and C.B. Yun	89
Modal identification of time-varying vehicle-bridge system using a single sensor Yilin Li, Wen-Yu He, Wei-Xin Ren, Zhiwei Chen and Junfei Li	107

The Journal is accessible via the Internet at the following address:
<http://www.techno-press.org/?journal=sss&subpage=7>

Science Citation Index Expanded ; ISI Alerting Services ; Current Contents/Engineering, Computing and Technology ; Shock and Vibration Digest

Smart Structures and Systems

An International Journal of Mechatronics, Sensors, Monitoring, Control, Diagnosis, & Life Cycle Eng.

Volume 30, Number 2, August 2022

CONTENTS

Free vibration analysis of a sandwich cylindrical shell with an FG core based on the CUF Kamran Foroutan, Habib Ahmadi and Erasmo Carrera	121
Free vibration responses of nonlinear FG-CNT distribution in a polymer matrix Rachid Zerrouki, Ahmed Hamidi, Youcef Tlidi, Abdelkader Karas, Mohamed Zidour and Abdelouahed Tounsi	135
Structural live load surveys by deep learning Yang Li and Jun Chen	145
Rod effects on transferred energy into SPT sampler using smart measurement system Geunwoo Park, Namsun Kim, Won-Taek Hong and Jong-Sub Lee	159
Crack detection method for step-changed non-uniform beams using natural frequencies Jong-Won Lee	173
Thermomechanical and electrical resistance characteristics of superfine NiTi shape memory alloy wires Hui Qian, Boheng Yang, Yonglin Ren and Rende Wang	183
Metaheuristic-reinforced neural network for predicting the compressive strength of concrete Pan Hu, Zohre Moradi, H. Elhosiny Ali and Loke Kok Foong	195
A LSTM-based method for intelligent prediction on mechanical response of precast nodular piles Xiao-Xiao Chen, Chang-Sheng Zhan and Sheng-Liang Lu	209

The Journal is accessible via the Internet at the following address:
