

CONTENTS

<i>Małgorzata Cegielka, Bogusław Bagiński, Ray Macdonald, Beata Marciniak-Maliszewska and Marcin Stachowicz</i>	
Ba-Fe titanates in peralkaline granite of the Ilímaussaq Complex, South Greenland.....	1
<i>Andrzej Kozłowski and Witold Matyszczyk</i>	
Fluorite and related fluids in the Karkonosze granitoid pluton, SW Poland	9
<i>Edward Chwieduk</i>	
Lower Carboniferous solitary rugose corals from the Flett Formation of the Liard Basin, northwestern Canada vs. European and Asian Rugosa of the same geological age.	33
<i>Michał Loba and Urszula Radwańska</i>	
Asteroida from the lower Kimmeridgian of Wapienno/Bielawy, Kuyavia region, north-central Poland.....	89
<i>Damian Gerard Lodowski, Andrzej Pszczółkowski, Andrzej Wilamowski and Jacek Grabowski</i>	
The Jurassic–Cretaceous transition in the High-Tatric succession (Giewont Unit, Western Tatra Mts, Poland): integrated stratigraphy and microfacies.....	107
<i>Edyta Jurewicz</i>	
Discussion: Oszczytko, N., Oszczytko-Clowes, M. and Olszewska, B. 2020. Geological setting and lithological inventory of the Czarna Woda conglomerates (Magura Nappe, Polish Outer Carpathians). <i>Acta Geologica Polonica</i> , 70, 397–418.....	137
<i>Nestor Oszczytko, Marta Oszczytko-Clowes and Barbara Olszewska</i>	
Reply to the “Discussion”: Oszczytko, N., Oszczytko-Clowes, M. and Olszewska, B. 2020. Geological setting and lithological inventory of the Czarna Woda conglomerates (Magura Nappe, Polish Outer Carpathians). <i>Acta Geologica Polonica</i> , 70, 397–418.....	141

Address of editorial office:

Faculty of Geology, University of Warsaw, Żwirki i Wigury Str., 93,

<http://journals.pan.pl/agp>

CONTENTS

Adrianna Szaruga, Kevin McCartney and Jakub Witkowski

- A silicoflagellate plexus associated with *Bachmannocena diodon*
subsp. *nodosa* from the Eastern Equatorial Pacific
(Ocean Drilling Program Leg 138)..... 145

*Richard M. Besen, Mareike Achilles, Mauro Alivernini, Thomas Voigt,
Peter Frenzel and Ulrich Struck*

- Stratigraphy and palaeoenvironments in the upper Turonian to
lower Coniacian of the Saxonian Cretaceous Basin (Germany)
– insights from calcareous and agglutinated foraminifers 159

*Romain Jattiot, Jens Lehmann, Benjamin Latutrie, Amane Tajika,
Emmanuelle Vennin, Pauline Vuarin, Arnaud Brayard, Emmanuel Fara
and Vincent Trincal*

- Upper upper Albian (*Mortoniceras rostratum* Zone) cephalopods from
Clansayes (Drôme, south-eastern France)..... 187

*Małgorzata Cegielka, Bogusław Bagiński, Ray Macdonald, Harvey E. Belkin,
Jakub Kotowski and Brian G.J. Upton*

- Zirconium silicates in a peralkaline granite: a record of the interplay
of magmatic and hydrothermal processes (Ilímaussaq complex, Greenland)..... 235

Address of editorial office:

Faculty of Geology, University of Warsaw, Żwirki i Wigury Str., 93,
PL-02-089 Warszawa, Poland. E-mail: agp@uw.edu.pl

CONTENTS

Jerzy Fedorowski

Bashkirian Rugosa (Anthozoa) from the Donets Basin (Ukraine).

Part 12. Concluding considerations 247

*Alfred Uchman, Zurab Lebanidze, Nino Kobakhidze, Tamar Beridze,
Davit Makadze, Koba Lobzhanidze, Sophio Khutsishvili, Rusudan Chagelishvili,
Kakha Koiava and Nino Khundadze*

Unusual echinoid resting trace records change in the position
of the redox boundary (Palaeogene of the Lesser Caucasus in Georgia).....317

Urszula Ciołko and Elżbieta Gaździcka

Calcareous nannofossil biostratigraphy and paleogeographic significance
in the lower Maastrichtian of the Miechów Trough (southern Poland)..... 331

*Mariola Kądziołka-Gaweł, Mateusz Dulski, Maria Czaja, Tomasz Krzykowski
and Magdalena Szubka*

A multi-analytical approach for the analysis of cation distribution
in a aluminoceladonite structure. 353

CONTENTS

<i>Ewa Falkowska, Piotr Łuczyński and Anna Żylińska</i> Seventy years of the Faculty of Geology at the University of Warsaw	I
<i>Jan Dzierżek, Leszek Lindner, Roman Chlebowski, Marcin Szymanek, Andriy Bogucki and Olena Tomeniuk</i> Depositional conditions of the Upper Younger Loess during the Last Glacial Maximum in central and eastern Europe	369
<i>Michał Loba and Urszula Radwańska</i> Ophiuroids from the Upper Jurassic of Kuyavia and the Kraków-Częstochowa Upland, Poland	391
<i>Ray Macdonald and Bogusław Bagiński</i> Hydrothermal alteration of chevkinite: insights from natural rocks and experiments	413
<i>Rafał Siuda and Anna Januszczyńska</i> Recently formed arsenates from an abandoned mine in Radzimowice (SW Poland) and the conditions of their formation	423
<i>Andrzej Kozłowski and Witold Matyszczyk</i> Silver compounds as minerals in the eastern Karkonosze granitoid pluton, Sudetes, Poland	443
<i>Stanisław Speczik, Krzysztof Szamalek, Jan Wierchowicz, Krzysztof Zieliński, Alicja Pietrzela and Tomasz Bieńko</i> The new Northern Copper Belt of south-western Poland: a summary	469
<i>Dariusz Dobrzyński, Marcin Stępień, Marzena Szostakiewicz-Hołownia and Włodzimierz Humnicki</i> Geochemical relationships in CO ₂ -rich therapeutic waters of the Sudetes (Poland)	479
<i>Ewa Krogulec, Tomasz Gruszczyński, Sebastian Kowalczyk, Jerzy J. Małecki, Radosław Mieszkowski, Dorota Porowska, Katarzyna Sawicka, Joanna Trzeciak, Anna Wojdalska, Sebastian Zabłocki and Daniel Zaszewski</i> Causes of groundwater level and chemistry changes in an urban area; a case study of Warsaw, Poland.	495
<i>Piotr Zawrzykraj, Paweł Rydelek, Anna Bąkowska and Krzysztof Cabalski</i> Ettringite as a factor causing structural strengthening of fluvial sand from the Praski terrace (Warsaw, Poland)	519
<i>Paweł Dobak, Dorota Izdebska-Mucha, Piotr Stajszczak, Emilia Wójcik, Kamil Kielbasiński, Ireneusz Gawriliuczenkow, Tomasz Szczepański, Piotr Zawrzykraj and Anna Bąkowska</i> Effects of hydrocarbon contamination on the engineering geological properties of Neogene clays and Pleistocene glacial tills from Central Poland	529
