

Spis treści

Izabela Adamczyk	
Assessment of the damping efficiency of a new type of concrete wall block	7
Karolina Bednarczyk, Paweł Rajczyk	
A method for modifying MMA mix with rubber fines used in asphalt concrete mix plants ...	13
Irina Cheredina, Ekaterina Rybakova	
Libraries in Soviet architecture of the late 1920s-1930s	18
Tadeusz Czarniawski	
Expert opinion on the technical condition of purlins and girders in the roof of a slag storage hall	24
Anna Derlatka	
Assessment of adhesively bonded joints of aluminum sheets for application as the core of composite beams	30
Aleksander Gabryś, Tomasz Dembiczak, Robert Kruzel	
Analysis of the technological parameters of 3D printing on the strength properties of finished MABS and PET products	37
Роман Другомилов, Юрий Мажайский, Наталья Осина	
Функциональная организация архитектурного благоустройства территорий сельских приходских храмов	43
Roman Gąćkowski	
The influence of wind on the work of the structure of columnar elements in reinforced concrete tall buildings	51
Tatiana Goranskaya	
Architectural heritage as the basis for the formation of the modern image of the city	58
Paweł Helbrych	
Assessment of the influence of the shape of steel fibers on the properties of concrete composites	63
Anna Jaskot	
Steel cantilever beam optimization with ANSYS software	69
Damian Jończyk, Marlena Rajczyk	
Review of analytical models for estimating the bearing capacity of wooden beams reinforced with fiber composites	76
Jarosław Kalinowski	
Optimization of the parameters of three-element grinding discs due to the uniformity of concrete surface treatment for a working width smaller than the disc diameter	83
Przemysław Kasza, Piotr Lacki, Anna Derlatka	
Numerical analysis for the beam with composite dowels connector	92
Mariusz Kosiń	
Influence of material characteristics stress-strain on the results of FEM joint connection of cold-formed sections	101
Krzysztof Kubicki	
The analysis of the resistance of tee joint fillet welds according to Eurocode 3	106
Andrzej Kysiak	
Reasons for degradation and methods of repairing concrete surfaces in underground garages and multi-storey car parks	112
Martin Lipowczan, Iva Rozsypalová, Patrik Bayer, Petr Daněk, David Lehký, Pavla Rovnaníková, Zbyněk Keršner	
Mechanical fracture and microstructural parameters of alkali-activated materials with a ceramic precursor	118

Red. Anna Lis	141
Sick building syndrome as a result of poor indoor air quality in educational and residential buildings	
Sek. Wiesław Liszewski	152
Analysis of the harmful influence of parasitic seismic vibrations using the example of a failure in the building structure of a school gymnasium	
Ilya Maltsevich	158
Technological structures in construction during the implementation of the National Strategy for Sustainable Development - 2035	
Red. Sławomir Morel, Małgorzata Skrzyniarz	165
Influence of solar collector surface on its thermal energy efficiency	
Jacek Nawrot	172
An assessment of the load-bearing capacity of the bolted connection of a steel roof girder	
Beata Ordon-Beska	177
Cracking on the surface of concrete multi-storey car parks - causes and repair	
Przemysław Palacz	183
Skeleton tensile structure as a single-family house project	
Witold Paleczek	189
Lowering of the land surface as a function of the immediate compressive strength and the softening coefficient of rocks when modelling rock mass deformation in construction in mining areas	
Marlena Rajczyk	194
Method of sandwich panel calculation with discrete joints	
Paweł Rajczyk	198
The influence of the geometric form of flexible diamond discs on the properties of treated surfaces	
Katarzyna Regulska	204
The northern corridor - economic communication solution in the Częstochowa infrastructure	
Aleksandra Repelewicz	209
Improving the energy efficiency of church buildings	
Zbigniew Respondek	213
Stress and deflection in multi-glazed IGUs of various dimensions	
Olena Savchenko	219
A review of energy saving and energy effective roofings	
Nina Sołkiewicz-Kos	225
Contest of place as a basis for action in urban space. On the example of city squares in Częstochowa	
Nadiia Spodniuk, Oksana Pshenychna	230
Energy saving measures to improve the microclimate in poultry facilities	
Magdalena Stolarska, Piotr Lis	234
Natural ventilation and indoor air quality in multi-family residential buildings - an indication of the problem, case study	
Tadeusz Szymczak, Andrzej Wierzejski, Jacek Górecki	242
Improving the quality of mechanical tests based on experiments with the use of reference objects and inter-laboratory comparisons	
Константин Зборовский, Наталья Лазовская	252
Эволюция детерминант универсального дизайна в условиях новых вызовов современного мира
