

Index

General Theory	1
Static electricity	2
Direct current (DC)	3
Alternating current (AC)	15
Resistors, capacitors and coils	19
Permanent magnets	23
Electromagnetism	25
Fuses and circuit breakers	30
Semiconductors and logic circuits	32
Batteries	44
Types, characteristics and limitations	44
Generation	50
DC generation	52
AC generation	63
Constant speed drive (CSD) and integrated drive generator (IDG) systems	69
Transformers, transformer rectifier units, static inverters	72
Distribution	77
General	77
DC distribution	83
AC distribution	87
Electrical Load Management and Monitoring Sytems	92
Electrical Motors	101
General	101
Operating principle	101
Components	109
Keyword Index	111
