| <b>Glossary</b>                 | <b>16</b> |
| <b>Foreword</b>                 | <b>17</b> |
| <b>Acknowledgements</b>         | <b>19</b> |
| <b>Introduction</b>             | <b>21</b> |
| <b>Executive Summary</b>        | <b>25</b> |
| Global Perspectives             | 26        |
| Regional Perspectives           | 31        |
| Conclusions and Recommendations | 32        |

## **PART I – WORLD ENERGY TO 2020** **37**

|          |   |           |
|----------|---|-----------|
| <b>1</b> | <b>The Pattern of Energy Use</b>                      | <b>39</b> |
|          | Current Realities and Policies                        | 41        |
|          | The Role of Population Growth                         | 43        |
|          | Economic Growth and Energy Intensity                  | 47        |
|          | The Structure of Demand                               | 50        |
|          | Pricing   | 58        |
|          | Competition   | 60        |
|          | The Role of Technology                                | 61        |
|          | Technology Transfer and International<br>Co-operation | 66        |
|          | The Developing Countries                              | 68        |
| <b>2</b> | <b>Energy Demand to 2020</b>                          | <b>75</b> |
|          | The Four Energy Cases                                 | 77        |
|          | CO <sub>2</sub> Emissions                             | 82        |
|          | Population  | 83        |
|          | Developing Countries' Energy Intensity                | 83        |
|          | General Trends in Energy Intensity                    | 84        |

|          |   |            |
|----------|---|------------|
| <b>3</b> | <b>Energy Supply to 2020</b>              | <b>87</b>  |
|          | Fossil Fuel Resources                     | 87         |
|          | Non-Fossil Energy Supplies                | 90         |
|          | Constraints on Supply                     | 97         |
|          | The Financing of Future Energy Supplies   | 99         |
|          | The Price of Energy                       | 104        |
|          | Energy Cases – The Supply Assumptions     | 105        |
| <b>4</b> | <b>Energy Efficiency and Conservation</b> | <b>109</b> |
|          | Introduction                              | 109        |
|          | Energy Conversion and Use                 | 111        |
|          | The Shorter-Term Potential                | 115        |
|          | Barriers to Greater Energy Efficiency     | 127        |
|          | Overcoming Barriers to Energy Efficiency  | 129        |
| <b>5</b> | <b>Energy and the Environment</b>         | <b>135</b> |
|          | The Wider Context                         | 135        |
|          | Priorities                                | 137        |
|          | The Commission's Perspective              | 137        |
|          | Environmental Regulation                  | 147        |
|          | Impact on the Various Forms of Energy     | 148        |
| <b>6</b> | <b>The Realities at 2020</b>              | <b>151</b> |

## **PART II – REGIONAL PERCEPTIONS AND PRIORITIES**

**155**

|           |  |            |
|-----------|--|------------|
| <b>7</b>  | <b>Common and Diverse Regional Conclusions</b>                                   | <b>157</b> |
|           | The World Regions  | 158        |
|           | Plurality  | 159        |
|           | Matters of Common Agreement  | 159        |
|           | Matters of Difference Between Regions  | 161        |
|           | Summary of Regional Perceptions  | 163        |
| <b>8</b>  | <b>North America</b>   | <b>165</b> |
| <b>9</b>  | <b>Latin America and the Caribbean</b>   | <b>173</b> |
| <b>10</b> | <b>Western Europe</b>  | <b>179</b> |
| <b>11</b> | <b>Central and Eastern Europe</b>  | <b>187</b> |
| <b>12</b> | <b>The Commonwealth of Independent States,<br/>Georgia and the Baltic States</b> | <b>193</b> |
| <b>13</b> | <b>Middle East and North Africa</b>  | <b>201</b> |
| <b>14</b> | <b>Sub-Saharan Africa</b>  | <b>205</b> |

|    |             |     |
|----|-------------|-----|
| 15 | South Asia  | 211 |
| 16 | The Pacific | 217 |

## **PART III – THE AGENDA FOR ACTION 223**

|    |  |            |
|----|--|------------|
| 17 | <b>The Major Concerns</b>                              | <b>225</b> |
|    | The Reduction of Energy Poverty                        | 225        |
|    | Resource and Geopolitical Constraints –<br>Supply Side | 226        |
|    | Resource and Geopolitical Constraints –<br>Demand Side | 227        |
|    | Tackling Environmental Pollution and<br>Degradation    | 229        |
|    | Institutional Issues                                   | 231        |
| 18 | <b>Conclusions and Recommendations</b>                 | <b>235</b> |
|    | Priorities   | 235        |
|    | Energy Markets   | 236        |
|    | Research and Development                               | 237        |
|    | Environmental Quality                                  | 238        |
|    | Sustainable Energy Development                         | 239        |

## **PART IV – EPILOGUE 241**

|  |  |            |
|--|--|------------|
|  | <b>Epilogue – Beyond 2020</b>  | <b>243</b> |
|  | <b>Bibliography</b>  | <b>247</b> |
|  | <b>Appendix A Regions</b>  | <b>263</b> |
|  | <b>Appendix B Regional Groups</b>  | <b>267</b> |
|  | <b>Appendix C Global and Regional Statistics</b>   | <b>273</b> |
|  | <b>Appendix D Extract from <i>Climate Change<br/>1992: The Supplementary Report to the IPCC<br/>Scientific Assessment</i></b>  | <b>297</b> |
|  | <b>Appendix E Possible Implications of the<br/>WEC Commission's Energy Cases for<br/>Atmospheric CO<sub>2</sub> Concentrations, Global-<br/>Mean Temperature and Sea-Level Rises</b> | <b>303</b> |
|  | <b>Index</b>   | <b>311</b> |
