

Table of Contents

Chapter 1—INTRODUCTION TO SPC	1
Objectives	1
Program planning and organization	5
Chapter 2—WORKING IN GROUPS	12
Objectives	12
Groups and SPC	12
The group process	12
Stages in group development	15
Productive group roles	16
Counter-productive group roles	18
Management's role	19
Chapter 3—DATA COLLECTION	20
Objectives	20
Why collect data	20
Sources of data	21
Obtaining new data	22
Variables, attributes, and rank-order data	23
Data collection tools	24
Layout of data sheets	25
Location diagrams	27
Check-off sheets	27
Chapter 4—PROBLEM SOLVING TECHNIQUES	28
Objectives	28
Introduction	28
Critical and creative thinking	29
Brainstorming	30
Flowcharting	33
Cause and effect diagrams	34
CEDAC	36
Chapter 5—FUNDAMENTAL SPC CONCEPTS	38
Objectives	38
Distributions	41
Normal distribution	44
Central limit theorem	44
Measures of central tendency	46
Measures of dispersion	49
Prevention versus detection	50
Process control versus meeting requirements	51
Chapter 6—DESCRIPTIVE DATA ANALYSIS	55

Objectives	55
Pareto analysis.....	55
How to perform Pareto analysis	55
Example of Pareto analyses:.....	56
Related techniques.....	57
Pointers for Using Pareto analyses.....	59
Histograms	59
How to construct a histogram	59
Histogram example.....	61
Pointers for using histograms.....	63
Scatter diagrams	65
How to construct a scatter diagram	66
Example of a scatter diagram.....	67
Pointers for using scatter diagrams	69
Chapter 7—RUN CHARTS	71
Objectives	71
Run charts	71
How to prepare and analyze run charts.....	71
Related techniques.....	76
Pointers for using run charts.	77
Pseudo control charts (optional).....	79
Pointers for Using Pseudo Control Charts.....	81
Chapter 8—AVERAGE, RANGE AND SIGMA CHARTS	83
Objectives	83
Average, range and sigma charts	83
How to prepare and analyze $\bar{x}$ and R charts.....	83
Interpretation of control charts	90
Example	91
Sigma charts (s charts)	95
Related techniques.....	100
Pointers for using $\bar{x}$, R, and s charts	100
Chapter 9—CONTROL CHARTS FOR INDIVIDUALS	102
Objectives	102
Control charts for individual values	102
How to prepare and analyze individuals charts	103
Discussion of example.....	107
Related techniques.....	109
Pointers for using X charts.....	109
Chapter 10—CONTROL CHARTS FOR ATTRIBUTES	110
Objectives	110
Introduction.....	110

Terminology	112
np charts for number defective	112
How to prepare and analyze np charts	113
np chart example.....	116
Related techniques.....	120
Pointers for using np charts.....	121
P charts for proportion defective.....	121
How to prepare and analyze p charts.....	124
p chart example.....	128
Related techniques.....	129
Pointers for using p charts	129
C charts for number of occurrences.....	130
How to prepare and analyze c charts	130
c chart example	134
Related techniques.....	138
Pointers for using c charts	139
u charts for occurrences per unit.....	139
How to prepare and analyze u charts.....	142
u chart example	146
Related techniques.....	147
Pointers for using u charts	147
