

Contents

Contributors	vii
Preface	xi
1 Introduction	1
<i>Shirley Coleman, Tony Fouweather and Dave Stewardson</i>	
2 A History of Industrial Statistics	15
<i>Jeroen de Mast</i>	
3 Statistical Consultancy	29
3.I* A Statistician in Industry	29
<i>Ronald J M M Does and Albert Trip</i>	
3.II Black Belt Types	34
<i>Roland Caulcutt</i>	
3.III Statistical Consultancy Units at Universities	41
<i>Ronald J M M Does and András Zempléni</i>	
3.IV Consultancy? ... What's in It for Me?	53
<i>Roland Caulcutt</i>	
4 The Statistical Efficiency Conjecture	61
<i>Ron S Kenett, Anne De Frenne, Xavier Tort-Martorell and Chris McCollin</i>	
5 Management Statistics	97
<i>Irena Ograjenšek and Ron S Kenett</i>	
6 Service Quality	117
<i>Irena Ograjenšek</i>	
7 Design and Analysis of Industrial Experiments	137
<i>Timothy J. Robinson</i>	
8 Data Mining	163
<i>Paola Cerchiello, Silvia Figini and Paolo Giudici</i>	

9	Using Statistical Process Control for Continual Improvement	185
	<i>Donald J Wheeler and Øystein Evandt</i>	
10	Advanced Statistical Process Control	211
	<i>Murat Kulahci and Connie Borror</i>	
11	Measurement System Analysis	239
	<i>Giulio Barbato, Grazia Vicario and Raffaello Levi</i>	
12	Safety and Reliability	307
	12.I* Reliability Engineering: The State of the Art	307
	<i>Chris McCollin</i>	
	12.II Stochastics for the Quality Movement: An Integrated Approach to Reliability and Safety	317
	<i>M. F. Ramalhoto</i>	
13	Multivariate and Multiscale Data Analysis	337
	<i>Marco P Seabra dos Reis and Pedro M Saraiva</i>	
14	Simulation in Industrial Statistics	371
	<i>David Ríos Insua, Jorge Muruzabal, Jesús Palomo, Fabrizio Ruggeri, Julio Holgado and Raúl Moreno</i>	
15	Communication	401
	<i>Tony Greenfield and John Logsdon</i>	
	Index	429

*Roman numerals are used to identify sub-chapters, of chapters 3 and 12, to indicate different authors within the chapter.
