

ARCHIVES of ACOUSTICS

Politechnika Poznańska
Biblioteka
Czytelnia

QUARTERLY, Vol. 46, No. 1, 2021

Review Paper

- R. De Luca, L. Forzoni, F. Gelli, J. Bamber, *An educational overview of ultrasound probe types and their fields of application* 3

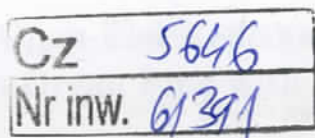

Research Papers

- P. Kielczyński, M. Szalewski, A. Balcerzak, K. Wieja, *New theoretical model for mass sensitivity of Love wave sensors* 17
- A. Balcerzak, P. Kielczyński, M. Szalewski, K. Wieja, *SAW sensor with Langmuir-Blodgett layer for detection of benzene and its derivatives* 25
- N.S. Taghavi, R. Afzalzadeh, *The effect of sonication parameters on the thickness of the produced MoS₂ nano-flakes* 31
- M. Usman, M. Zubair, Z. Ahmad, M. Zaidi, T. Iqyas, M. Parayangat, M. Wajid, M. Shiblee, S.J. Ali, *Heart rate detection and classification from speech spectral features using machine learning* 41
- M. Pourseidrezaei, A. Loghmani, M. Keshmiri, *Development of a sound quality evaluation model based on an optimal analytic wavelet transform and an artificial neural network* 55
- R. Wang, Z. Chen, F. Yin, *Acoustic source localization using kernel-based extreme learning machine in distributed microphone array* 67
- I. Demirel, *Effect analysis of loudspeaker's placement angle and direction on frequency response and sound pressure level in TV applications* 79
- J. Zhao, X. Li, D. Thompson, Y. Wang, W. Wang, L. Zhu, Y. Liu, *Analysis of a geometrical-stiffening membrane acoustic metamaterial with individually tunable multi-frequencies* 87
- A. Szwajcowski, D. Krause, A. Snakowska, *Error analysis of sound source directivity interpolation based on spherical harmonics* 95
- X.T. Dong, M.H. Nguyen, *Experimental study of identifying emission sources of acoustic signals on the cylinder body of a two-stroke marine diesel engine* 105
- P. Błaszczak, S. Berdowska, J. Berdowski, *Analysis of sound field distribution in architecturally diverse temples* 121
- B. Borkowski, K. Suder-Dębska, J. Wiciak, A.M. Szlachta, *Acoustic panels inspired by nature* 135
- M. Misterska, J. Kompala, *Soundscapes of urban parks in cities with populations of over 100,000 in the Silesian Voivodeship* 147
- M. Yadav, B. Tandel, *Structural equation model-based selection and strength co-relation of variables for work performance efficiency under traffic noise exposure* 155
- D. Pleban, J. Radosz, B. Smagowska, *Assessment of occupational risk in the case of the ultrasonic noise exposure* 167

Technical Notes

- M. Vojnović, M. Mijić, D. Šumarac Pavlović, N. Vojnović, *Influence of overpressure breathing on vowel formant frequencies* 177
- X. Huang, Y. Lu, C. Qu, C. Zhu, *Study on sound transmission across a floating floor in a residential building by using SEA* 183

ARCHIVES of ACOUSTICS

QUARTERLY, Vol. 46, No. 2, 2021

Research Papers

- V. Hruška, P. Dłask, *Revisiting the open-end reflection coefficient and turbulent losses in an organ pipe with low Mach number flow* 197
- M. Giouvanakis, C. Sevastiadis, G. Papanikolaou, *Measurement of compound sound sources with adaptive spatial radiation for low-frequency active noise control applications*..... 205
- L. Liu, B. Xie, *Analysis and experiment on the limitations of static and dynamic transaural reproduction with two frontal loudspeakers* 213
- J. Peng, J. Zeng, Y. Zhao, *Relationship between Chinese speech intelligibility of elderly and speech transmission index*..... 229
- E.H. Cherifi, M. Guerti, *Conditional random fields applied to Arabic orthographic-phonetic transcription* 237
- B. Çıldır, S. Tokgoz-Yilmaz, G. Sennaroğlu, *Spatial hearing questionnaire: psychometric properties of Turkish version and correlations with hearing ski*..... 249
- Z. Piątek, M. Kłaczynski, *Acoustic methods in identifying symptoms of emotional states* 259
- L. Smietanka, T. Maka, *Audio feature space analysis for emotion recognition from spoken sentences* 271
- J. Felcyn, A. Preis, M. Praszowski, M. Wrzosek, *Assessment of audio-visual environmental stimuli. Complementarity of comfort and discomfort scales* 279
- B.Y. Lu, M.L. Hsueh, H.D. Wu, *Transmission perspective on the mechanism of coarse and fine crackle sounds*.. 289
- Z. Peng, F. Zhou, J. Fan, B. Wang, H. Wen, *Observation and modelling on the shipping noise in shallow waters with complex islands and reefs of the East China Sea* 301
- T. Hejczyk, J. Wrotniak, M. Magnuski, W. Jakubik, *Experimental and numerical acoustoelectric investigation of the new SAW structure with (RR)-P3HT polymer in DMMP detection*..... 313
- A. Perelomova, *Nonlinear interaction of magnetoacoustic modes in a quasi-isentropic plasma flow*..... 323
- M.-J. Kim, C.-G. Rim, K.-S. Won, *Broadening low-frequency band gap of double-panel structure using locally resonant sonic crystal comprised of slot-type Helmholtz resonators* 335
- L. Fura, W. Dera, C. Dziekoński, M. Świątkiewicz, T. Kujawska, *Experimental assessment of the impact of sonication parameters on necrotic lesions induced in tissues by HIFU ablative device for preclinical studies*.. 341

Technical Notes

- A.K. Sahu, S.K. Nayak, C.R. Mohanty, P.K. Pradhan, *Traffic noise and its impact on wellness of the residents in Sambalpur City – a critical analysis* 353
- M.H.A. Satar, A.Z.A. Mazlan, M.H. Hamdan, M.S.M. Isa, M.A.R. Paiman, M.Z.A. Ghapar, *A lab-scale HVAC hissing-type noise and vibration characterization with vehicle system validation*..... 365
- M.H.A. Satar, A.Z.A. Mazlan, M.H. Hamdan, M.S.M. Isa, M.A.R. Paiman, M.Z.A. Ghapar, *Experimental validation of the HVAC humming-type noise and vibration in model and vehicle system levels*..... 375
