

Table of Contents

INTRODUCTION

1 THE ATMOSPHERE

- 1.1 Composition of the Atmosphere | 1-1
- 1.2 Properties of the Earth's Atmosphere | 1-2
- 1.3 Description of the Layers | 1-4
- 1.4 Upper Atmospheric Hazards | 1-8
- 1.5 Heating of the Earth and its Atmosphere | 1-9
- 1.6 Methods of Energy Distribution | 1-16
- 1.7 Temperature Near Earth's Surface - Land/Sea Differences | 1-18

2 ATMOSPHERIC PRESSURE

- 2.1 Definition and Pressure Measurement | 2-1
- 2.2 Pressure Reduction to Mean Sea Level and Pressure Systems | 2-4
- 2.3 Vertical Pressure Distribution | 2-6
- 2.4 Atmospheric Density | 2-8

3 ALTIMETRY

3.1 Definitions | 3-1

3.2 The Altimeter | 3-3

3.3 Altimeter Errors | 3-6

3.4 Comparison of QFF and QNH | 3-17

3.5 Pressure Setting | 3-18

3.6 Flying and the Altimeter | 3-22

4 THERMODYNAMICS, ADIABATIC PROCESSES AND STABILITY OF THE ATMOSPHERE

Introduction | 4-1

4.1 Thermodynamics | 4-1

4.2 Adiabatic Processes | 4-10

4.3 Atmospheric Stability | 4-16

5 PRESSURE SYSTEMS

5.1 Introduction | 5-1

5.2 High Pressure Systems | 5-2

5.3 High Pressure Types | 5-5

5.4 Low Pressure Systems | 5-6

5.5 Frontal Depressions | 5-9

5.6 Non-Frontal Depressions | 5-10

5.7 Location of The Principal Pressure Areas | 5-16

6 WIND

6.1 Introduction | 6-1

6.2 Forces Involved in Wind | 6-4

6.3 Wind Above the Friction Layer | 6-6

6.4 Wind Near the Surface | 6-11

6.5 Wind in Mountainous and Hilly Country | 6-15

6.6 Land and Sea Breeze | 6-17

7 UPPER WINDS

7.1 Introduction | 7-1

7.2 Contour Charts | 7-2

7.3 Thermal Winds | 7-5

7.4 Calculation of the Upper Geostrophic Wind | 7-6

7.5 General Character of Upper Winds | 7-7

8 CLOUD, FOG AND OTHER VISIBILITY REDUCING PHENOMENA

8.1 Introduction | 8-1

8.2 Cloud Formation and Description | 8-2

8.3 Influence of Inversions on Cloud Development | 8-8

8.4 Cloud Types and Classifications | 8-9

8.5 Cloud Heights | 8-20

8.6 Fog, Mist, Haze | 8-25

8.7 Solid Visibility Reducers | 8-28

8.8 Cloud Dissipation | 8-31

9 PRECIPITATION

9.1 Precipitation Development | 9-1

9.2 Ice-Crystal Theory | 9-3

9.3 Types of Precipitation | 9-5

10 AIR MASSES

10.1 Definition of an Air Mass | 10-1

10.2 Air Mass Types | 10-3

10.3 Air Mass Characteristics | 10-5

11 FRONTAL SYSTEMS

11.1 Definition | 11-1

11.2 Warm Front | 11-1

11.3 Cold Front | 11-2

11.4 Global Frontal Systems | 11-2

11.5 Classification of Fronts | 11-4

11.6 The Warm Anafront | 11-5

11.7 Warm Katafront | 11-6

11.8 The Cold Anafront | 11-7

11.9 Cold Katafront | 11-8

11.10 Cross-section of a Warm Sector; The Weather, Cloud, Tropopause Heights and Jet Streams | 11-11

11.11 Life Cycle of a Mid-Latitude Frontal Depression | 11-16

11.12 Direction and Speed of Fronts | 11-19

11.13 Direction and Speed of Frontal Depressions | 11-20

11.14 Back-Bent Occlusions | 11-21

11.15 Families of Extra-Tropical Cyclones | 11-21

11.16 Secondary Fronts | 11-23

11.17 Trough Line Weather | 11-23

11.18 Squall Lines | 11-24

11.19 Mountain Effects on a Front | 11-24

12 JET STREAMS

12.1 Introduction | 12-1

12.2 Jet Stream - Definition | 12-1

12.3 Polar Front Westerly | 12-1

12.4 Jet Stream Turbulence (CAT) | 12-4

12.5 Sub-Tropical Westerly Jet | 12-4

12.6 Equatorial Easterly Jet | 12-6

12.7 Jet Stream Summary | 12-8

12.8 World Wide Distribution of Upper Winds | 12-8

13 CLIMATOLOGY

13.1 Introduction | 13-1

13.2 General Circulation | 13-1

13.3 Köppen's Climatic Classification | 13-5

13.4 Tropical Climatology | 13-16

13.5 Surface Winds | 13-22

13.6 Monsoon Climate | 13-27

13.7 Climatology of The North Atlantic, NW Europe and Mediterranean | 13-38

14 AIRCRAFT ICING

14.1 Types of Icing: the Aeronautical Point of View | 14-1

14.2 The Physics of Icing | 14-5

14.3 Reporting Icing | 14-14

14.4 Protection | 14-15

15 TURBULENCE AND WIND SHEAR

15.1 Turbulence and Gustiness | 15-1

15.2 Wake Turbulence | 15-5

15.3 Standing Waves | 15-8

15.4 Wind Shear | 15-9

16 THUNDERSTORMS

16.1 Introduction | 16-1

16.2 Types of Thunderstorms | 16-2

16.3 Cellular Structure of Thunderstorms | 16-2

16.4 Supercell/Self Propagating Thunderstorms | 16-8

16.5 Thunderstorm Hazards | 16-9

16.6 Location and Avoidance of Thunderstorms | 16-17

16.7 Squall Lines | 16-21

17 TROPICAL REVOLVING STORMS

17.1 Properties of Tropical Revolving Storms (TRS) | 17-1

17.2 Weather Associated with a TRS | 17-4

17.3 Easterly Wave | 17-5

17.4 South Atlantic Ocean | 17-7

17.5 The Saffir Simpson Scale | 17-7

18 FLIGHT HAZARDS OVER HIGH GROUND

18.1 Mountain Effect on Fronts | 18-1

18.2 Flying in Mountainous Areas | 18-3

18.3 Clear Air Turbulence Around Mountains (CAT) or Wave Induced Turbulence (WIT) | 18-7

19 WEATHER CHARTS

19.1 Introduction | 19-1

19.2 Forecast Significant Weather and Wind Charts | 19-1

19.3 Upper Level Significant Weather Charts | 19-3

19.4 Lower Wind and Temperature Charts Metform 414 | 19-7

19.5 Upper Wind and Temperature Charts | 19-8

19.6 Medium and High Levels | 19-10

19.7 Synoptic Charts | 19-12

19.8 Analysis | 19-17

20 METEOROLOGICAL INFORMATION

20.1 World Area Forecast System and Meteorological Offices | 20-1

20.2 Aviation Codes: METAR/SPECI/TAF | 20-3

20.3 Aircraft Observations | 20-31

20.4 Warnings | 20-33

20.5 Radio Broadcasts | 20-38

21 SATELLITE INFORMATION

21.1 Introduction | 21-1

21.2 Geostationary Satellites | 21-1

21.3 The Field of View | 21-2

21.4 Polar Orbiting Satellites | 21-3

21.5 Satellite Imagery | 21-5

21.6 Infrared (IR) Imagery | 21-5

GLOSSARY

EASA SYLLABUS INDEX
