ATPL Book 11 Radio Navigation

Properties of Radio Waves

1. Properties of Radio Waves	1
2. Radio Propagation Theory	17
3. Modulation	41
4. Antennae	53
5. Doppler Radar Systems	65
6. VHF Direction Finder (VDF)	73
7. Automatic Direction Finder (ADF)	83
8. VHF Omni-directional Range (VOR)	109
9. Instrument Landing System (ILS)	145
10. Microwave Landing System (MLS)	169
11. Radar Principles	181
12. Ground Radar	197
13. Airborne Weather Radar	205
14. Secondary Surveillance Radar (SSR)	225
15. Distance Measuring Equipment (DME)	241
16. Area Navigation Systems (RNAV)	259
17. Electronic Flight Information System (EFIS)	283
18. Global Navigation Satellite System (GNSS)	303
19. Performance-based Navigation (PBN)	329
20. Revision Questions	369
21. Index	421
