ATPL Book 5 Instrumentation

Flight Instruments

1. Characteristics and General Definitions	1
2. Pitot and Static Sources	11
3. Air Temperature Measurement	23
4. The Airspeed Indicator (ASI)	39
5. The Pressure Altimeter	51
6. The Vertical Speed Indicator	71
7. The Machmeter	81
8. Air Data Computer	95
9. Terrestrial Magnetism	103
10. The Direct Indicating Compass	117
11. Gyroscopes	135
12. Directional Gyro Indicator (DGI)	151
13. The Artificial Horizon	167
14. The Turn and Slip Indicator	183
15. The Turn Co-ordinator	193
16. Aircraft Magnetism	199
17. Remote Indicating Magnetic Compass	209
18. Inertial Navigation Systems	225
19. Inertial Reference System	251
20. Radio Altimeter	261
21. Flight Management System	269
22. Electronic Flight Information Systems	279
23. Basic Computers	305
24. Future Air Navigation Systems (FANS)	315

Automatic Flight and Control Systems

25. Flight Director Systems	333
26. Autopilot	349
27. Autoland	377
