Foreword	vii
About the Authors	ix
Introduction	xi

Personal Progress Table

I. Multi-Engine Systems

1. Flight Controls	3
2. Powerplant	13
3. Propeller Systems	37
4. Fuel	47
5. Landing Gear and Hydraulics	59
6. Electrical	75
7. Environmental	91
8. Oxygen	103
9. Flight Instruments, Avionics, and Warning Systems	111

Text	Review

II. Aerodynamics

10. Multi-Engine Aerodynamics and V-Speeds	123
11. Flight Characteristics of Single-Engine Operations	133
12. Single-Engine Aerodynamics and Operations	143

Text	Review

III. Multi-Engine Operations

13. Weight and Balance161

14. Performance Calculations.....175

15. Regulations.....237

Text	Review

Appendices

Appendix 1: Glossary245

Appendix 2: Answers to Review Questions261
