SPIS TREŚCI
CONTENTS

Dorota Michałowska-Maziejuk, Barbara Goszczyńska

Assessment of the early-age compressive strength of concrete 5

Szymon Węgliński

*Capillary water absorption in mixtures of cohesive soils stabilized
with cement and hydrophobic agent* 15

Aneta Biała

*The influence of internal installation solutions in single-family housing on the "EP" factor
in light of the new requirements of WT 2021* 29

Maciej Tomasz Solarczyk

*Influence of effective width of flange on calculation and reinforcement dimensioning
of beam of reinforced concrete frame* 41

Sylwia Anna Borowska, Marta Kosior-Kazberuk

*Application of fracture energy for the assessment of frost degradation
of high-strength concretes* 57

Magdalena Grudzińska

*The influence of sunspaces on the heating demand in living spaces
– comparison of calculation methods according to ISO 13790* 69

Anna Prokop, Piotr Nazarko, Leonard Ziemiański

Digitalization of historic buildings using modern technologies and tools 83

Ewa Jarecka-Bidzińska

Hybrid methodology of multi-sensory research of public space in urban planning 95
