1 Basics of Environmental Management Systems	19
1.1. The Development of Environmental Management	19
1.1.1. What is Environmental Management and an Environmental Management System?	19
1.1.2. Why Establish an EMS?	20
1.1.3. Benefits of an EMS	21
1.2 The Economy of EMS	21
1.2.1. Does an EMS Reduce the Cost of Regulation?	21
1.2.2. Potential Costs of an EMS	21
1.3. Implementing EMS in Eastern Europe	22
1.3.1. Why Implement EMSs in the Baltic Sea Region?	22
1.3.2. Consequences for International Trade	22
1.3.3. Barriers for EMS Implementation in Eastern Europe	23
1.4. Principles of an EMS	23
1.4.1. The Deming Cycle as the Main Principle of an EMS	23
1.4.2. Total Quality Management	23
1.5. Risk Management and EMS	24
Study Questions	26
Internet Resources	26
2 Overview of Environmental Standards	27
2.1. Introducing the EMS Standards	27
2.1.1 The ISO 14000 Series, EMAS, and Other International Standards	27
2.1.2 The ISO 14000 Series	27
2.1.3 A Short History of EMS Standards and ISO 14001	28
2.2. The ISO 14000 Series of Standards	28
2.2.1. Organisation-based and Product-based Standards	28
2.2.2 Structure of ISO 14001	28
2.2.3. Environmental Impacts and Legal Requirements	29
2.2.4 Implementation	29
2.2.5. Maintenance of an EMS	30
2.3. EMAS	30
2.3.1. Implementing EMAS	30
2.3.2. Changes in EMAS II	30
2.3.3. EMAS is a Governmental Regulation	31
2.4. Comparison Between EMAS and ISO 14001	32
2.4.1. Similarities and Differences	32
2.4.2. Implementing Both EMAS and ISO 14000	32
2.5. Other International Standards	33
2.5.1. The Occupational Health and Safety Assessment Series OHSAS 18001	33
2.5.2. The British guidance standard BS 8800	33

2.5.3. The Security Certificate Contractors (SCC)	34
2.5.4 Standard on Quality Management ISO 9001:2000.....	34
Study Questions	35
Internet Resources	35
3 Environmental Aspects and Impacts	37
3.1. Environmental Aspects and Impacts.....	37
3.1.1. How to Begin	37
3.1.2. Carrying Out an Initial Review	37
3.2. Identifying Environmental Aspects.....	37
3.2.1. What is an “Aspect”	37
3.2.2. Input-output Analysis; Ecomaps	38
3.2.3. Which Aspects are Significant.....	39
3.3. Identifying Environmental Impacts	39
3.3.1. What is an Impact	39
3.3.2. Impacts Caused by Products	39
3.3.3. Processes in the Organisation	40
3.3.4. Using Environmental Risk Information to Rank Environmental Impacts	41
3.4. Ensuring Compliance with Legal and Other Requirements.....	41
3.4.1. Legal Compliance is Part of an EMS	41
3.4.2. Identifying Legal Requirements.....	41
3.4.3. Ways of Ensuring Legal Compliance.....	42
3.5. Obtain and Update Documents	43
3.5.1. Legal Compliance Reviews.....	43
3.5.2. The Role of Legal Compliance	43
3.5.3. Should External Help be Used?	44
Study Questions	45
Internet Resources	45
4 Planning an Environmental Policy	47
4.1. How to Write an Environmental Policy.....	47
4.1.1. What is an Environmental Policy?	47
4.1.2. What Does ISO 14001 Require?	48
4.1.3. What Does EMAS Require?	49
4.2. Setting Objectives and Targets	49
4.2.1. Policy Objectives	49
4.2.2. How to Establish Objectives for Environmental Management.....	50
4.3. Managing Stakeholders Within an EMS	51
4.3.1. Six Key Steps.....	51
4.3.2. Stakeholder Demands	51
4.4. Project Management for Developing an EMS.....	52
4.4.1. Challenges of EMS Project Management.....	52
4.4.2. EMS in Small Organisations	52
4.4.3. Passive Management Support	53
Study Questions	54
Internet Resources	54

5 Developing an EMS	55
5.1. Developing an Environmental Management Programme	55
5.1.1. Developing an EMS	55
5.1.2. Structure and Responsibility	57
5.1.3. Training, Awareness and Competence	58
5.1.4. Training Programmes	59
5.2. Communication	59
5.2.1. Internal and External Communication	59
5.2.2. Communication Systems	60
5.2.3. Stakeholders or Who is the Audience?	60
5.3. EMS Documentation	60
5.3.1. What Constitutes EMS Documentation?	60
5.3.2. The EMS Manual	61
5.3.3. How to Develop Documentation – Four Steps	61
5.3.4. Document Control	62
5.4. Operational Control	62
5.4.1. Identify Existing Controls	62
5.4.2. How to Identify Procedures to be Controlled	63
5.5. Emergency Preparedness and Response	63
5.6. Checking and Corrective Action	64
5.6.1. Performing Environmental Audits	64
5.6.2. The Auditing Teams	65
5.6.3. Traits of a Good Auditor	66
5.6.4. Monitoring, Measurement and Evaluation	66
5.6.5. Management Review	66
5.6.6. Management Review: Questions to Ask	67
5.7. Development of an Environmental Statement	68
5.7.1. What is an Environmental Statement?	68
5.7.2. The Drivers for Environmental Reporting – Stakeholder Demands	68
Study Questions	71
Internet Resources	71
6 How to Get Official Recognition	73
6.1. ISO 14001	73
6.1.1. Registration of Companies and Certification of Products	73
6.1.2. Accredited Registrators	73
6.1.3. Planning for Audit and Evaluation of Implementation	74
6.1.4. Registration and Certification	74
6.2. EMAS	74
6.2.1. Validation and Registration	74
6.2.2. Using the EMAS Logo	75
Study Questions	76
Internet Resources	76
7 Beyond Certification	77
7.1. Regular Audits	77

7.2. Continuous Improvement	78
7.3. Integrated Management Systems, IMS	78
7.3.1. The IMS Approach	78
7.3.2. Process Management as Key Element of IMS	79
7.3.3. Implementing IMS	79
Study Questions	80
Internet Resources	80
8 Strengths and Weaknesses	81
8.1. EMAS	81
8.1.1. Criticism from Industry, Science Sector and NGOs	81
8.1.2. Use of EMAS in Administration	81
8.1.3. The EMAS Logo	82
8.1.4. Positive Aspects of EMAS	82
8.2. Comparing EMAS and ISO 14001	82
8.2.1. Differences Between EMAS and ISO 14001	82
8.2.2. Criticism on ISO 14001	83
8.2.3. EMAS and ISO 14001 Weaknesses	83
Study Questions	84
Internet Resources	84
9 Integrated and Simplified Management Systems	85
9.1 Integrated Management	85
9.1.1 What is, and What is Not, an IMS	85
9.1.2 Why Management Systems Should be Integrated	86
9.1.3 Three Reasons for Introducing an IMS	86
9.2 Elements of Integrated Management Systems	86
9.2.1 A Common Structure of Management Systems	86
9.2.2 Standards for Management Systems	86
9.3 Quality Management According to ISO 9000	87
9.3.1 The ISO 9000 System for Quality Management	87
9.3.2 Use of the System	87
9.3.3 To Introduce a Quality Management System	87
9.4 Occupational Health and Safety Systems	89
9.4.1 Components of an OH&S Management System	89
9.4.2 Hazard Identification, Risk Assessment and Risk Control	90
9.4.3 Working with Risk Management	90
9.5 Experiences of Integrated Policies	91
9.5.1 Social Responsibility based on Safety, Health and Environment	91
9.5.2 Experiences from Using IMS	91
9.6 Simplified Management Systems	91
9.6.1 The Need for Simplified Systems for SMEs	91
9.6.2 Management and Audit Systems for Cities and Towns	92
9.6.2 Management and Audit Systems Related to Environmental Labels	94
Study Questions	94
Internet Resources	94

Glossary of Key Terms	95

A Toolkit	101
------------------	------------

Introduction	103
--------------------	-----

Tool Descriptions	103
-------------------------	-----

Tool 1 Measuring the Importance of Environmental Problems	110
Tool 2 Sample Procedure: Instruction for Environmental Aspects Identification Form	111
Tool 3 Input-Output Sheet	113
Tool 4 Introduction to Process Mapping	115
Tool 5 Checklist: Eco-Mapping	116
Tool 6-00 Eco Mapping: What is Eco-Mapping?	117
Tool 6-01 Mini audit: Environmental "Weather" Map	119
Tool 6-02 Eco Map: Urban Situation	120
Tool 6-03 Eco Map: Nuisances	121
Tool 6-04 Eco Map: Water	122
Tool 6-05 Eco Map: Soil	123
Tool 6-06 Eco Map: Air, Odours, Noise, Dust	124
Tool 6-07 Eco Map: Energy	125
Tool 6-08 Eco Map: Waste	126
Tool 6-09 Eco Map: Risks	127
Tool 6-10 Work Programme	128
Tool 7 Environmental Review Questionnaire	129
Tool 8 Measuring the Environmental Impacts of an Organisation	139
Tool 9 Aspect/Impact Evaluation	140
Tool 10 Inputs: Coverage and Purpose	141
Tool 11 Stock: Coverage and Purpose	142
Tool 12 Outputs: Coverage and Purpose	143
Tool 13 Checklist: Eco-Balances	144
Tool 14 Sample Process Map	149
Tool 15 Environmental Legal Compliance Checklist	150
Tool 16 Checklist: Regulatory Compliance Sample	152
Tool 17 Ways of Ensuring Legal Compliance	153
Tool 18 Checklist: Environmental Legal Compliance	154
Tool 19 Sample Policy	155
Tool 20 Sample Policy	156
Tool 21 Sample Policy	161
Tool 22 Checklist: Environmental Objectives	162
Tool 23 Setting Objectives and Targets	163
Tool 24 Sample: Setting Objectives and Targets	166
Tool 25 Sample Procedure: Setting Objectives and Targets	167
Tool 26 EMS Development Schedule and Resources Worksheet	168
Tool 27 Environmental Programme Worksheet	169
Tool 28 Distributing Responsibilities	170
Tool 29 Environmental Responsibilities Matrix	171
Tool 30 EMS Training Planner	172
Tool 31 Training Plan Operational Control	173
Tool 32 Training and Awareness	174
Tool 33 Training Purposes	175

Tool 34 Training and Workshop Methods	176
Tool 35 Communication Work Plan	178
Tool 36 Identification of Stakeholders	179
Tool 37 Documentation Sheet	180
Tool 38 Operational Control.....	181
Tool 39 Checklist: Emergency and Response	182
Tool 40 Internal Environmental Audit Plan	183
Tool 41 Checklist: Internal Environmental Audit	184
Tool 42 Internal Environmental Audit Procedure Template.....	185
Tool 43 Internal Environmental Audit Report	186
Tool 44 Non-compliance and Correction Report	188
Tool 45 Environmental Statement.....	190
Tool 46 EMS Development and Implementation	191
Tool 47 Environmental Responsibilities Matrix. Blank sheet to Tool 29.	192
Tool 48 Measuring the Environmental Impacts of an Organisation. Blank sheet to Tool 8.	193
Tool 49 Aspect / Impact Evaluation. Blank sheet to Tool 9.....	194
Tool 50 Checklist: Environmental Legal Compliance. Blank sheet to Tool 18.	195
Tool 51 Training Purposes. Blank sheet to Tool 33.....	196
Tool 52 Sample: Setting Objectives and Targets. Blank sheet to Tool 24.....	197
B Case Studies	199
Case Study 1 – Kunda Nordic Tsement Ltd.	
Kunda Nordic Tsement – from environmental disaster to environmental recognition	201
Case Study 2 – Huta Stali Czestochowa	
The Coking Plant of Czestochowa Steelworks, Poland	209
Case Study 3 – Cologne Wastewater Treatment Plants	
Integrated Management System for the Wastewater Treatment Plants of the City of Cologne, Germany	219
Case Study 4 – Gamla Uppsala Buss AB	
The Environmental Management System at the Municipal Bus Company in Uppsala, Sweden	227
Case Study 5 – University of Applied Sciences Zittau/Görlitz	
Implementing and Maintaining an EMS at the University of Applied Sciences Zittau/Görlitz, Germany	233
Case Study 6 – Municipality of Nacka	
An ISO-Certified System for Quality and Environmental Management in the Municipality of Nacka, Sweden.....	241
Case Study 7 – Nina Printhouse	
Introducing Environmental Management in a Small Business, Nina Printhouse, Uppsala, Sweden	251
Index	255
