|---------------------------------------------------------------------------------------|---|
| Foreword.....                                                                         | 3 |
| 1 Scope .....                                                                         | 4 |
| 2 Normative references .....                                                          | 4 |
| 3 Terms and definitions .....                                                         | 4 |
| 4 Safety requirements .....                                                           | 5 |
| 4.1 Protection against falling in spatial network .....                               | 5 |
| 4.2 Additional requirements for mesh size in 3-dimensional arranged planar nets ..... | 6 |
| 4.3 Protection against injuries in the falling space .....                            | 7 |
| 4.4 Converging parts .....                                                            | 8 |
| 5 Test reports .....                                                                  | 9 |
| 6 Marking .....                                                                       | 9 |
