

TABLE OF CONTENTS

Stanisław Kruczyński, Marcin Ślęzak, Piotr Orliński, Dagmara Dmytryszyn: Dimethyl ether as fuel for diesel engines.....	9
Stanisław Kruczyński, Marcin Ślęzak, Piotr Orliński, Dagmara Dmytryszyn, Paweł Kruczyński: Water addition to the combustion chamber of diesel engines – review of issues.....	29
Stanisław Kruczyński, Marcin Ślęzak, Wojciech Kamela: Monitoring the operation of exhaust cleaning systems.....	55
Maciej Gis: The legitimacy of using the mild hybrid system in passenger cars equipped with downsized engines	81
Mieczysław Sikora, Piotr Orliński, Mateusz Bednarski: Design and analysis of catalytic converter using computational fluid dynamics (CFD)	93
Dariusz Kurczyński, Piotr Łagowski, Michał Warianek: Analysis of concentrations of selected components of exhaust gases of a petrol and lpg fuelled engine under simulated conditions of driving on an incline.....	103
Piotr Laskowski, Damian Zasina, Magdalena Zimakowska-Laskowska: Applying of splines in determination of the engines emission characteristics – particulate matter case study	119
Marcin K. Wojs, Paweł Mazuruk: Development potential of biogas in micro-installations for rural areas in Poland.....	129
Kinga Skobiej, Jacek Pielecha: Ecological analysis of Formula 1 engines	139
Fedor Abramchuk, Dmytro Samoylenko, Andriy Prokhorenko, Anatoly Kuzmenko: Adaptation of an automobile engine to work on LPG without preliminary gas evaporation.....	153
