|------------------------------------------------------------------------------------------------------------------|-----------|
| Foreword .....                                                                                                   | v         |
| Introduction .....                                                                                               | vii       |
| <b>1 Scope .....</b>                                                                                             | <b>1</b>  |
| <b>2 Normative references .....</b>                                                                              | <b>2</b>  |
| <b>3 Terms and definitions .....</b>                                                                             | <b>2</b>  |
| <b>4 Symbols .....</b>                                                                                           | <b>3</b>  |
| <b>5 Designation systems .....</b>                                                                               | <b>4</b>  |
| 5.1 Designation of nut styles .....                                                                              | 4         |
| 5.2 Designation system for stainless steel grades and property classes .....                                     | 4         |
| 5.2.1 General .....                                                                                              | 4         |
| 5.2.2 Designation of stainless steel grades (first block) .....                                                  | 5         |
| 5.2.3 Designation of property classes (second block) for regular nuts (style 1)<br>and high nuts (style 2) ..... | 6         |
| 5.2.4 Designation of property classes (second block) for thin nuts (style 0) .....                               | 6         |
| <b>6 Design of bolt and nut assemblies .....</b>                                                                 | <b>6</b>  |
| <b>7 Materials .....</b>                                                                                         | <b>7</b>  |
| 7.1 Chemical composition .....                                                                                   | 7         |
| 7.2 Heat treatment for martensitic stainless steel nuts .....                                                    | 8         |
| 7.3 Finish .....                                                                                                 | 9         |
| 7.4 Corrosion resistance .....                                                                                   | 9         |
| <b>8 Mechanical and physical properties .....</b>                                                                | <b>9</b>  |
| <b>9 Inspection .....</b>                                                                                        | <b>14</b> |
| 9.1 Manufacturer's inspection .....                                                                              | 14        |
| 9.2 Supplier's inspection .....                                                                                  | 14        |
| 9.3 Purchaser's inspection .....                                                                                 | 15        |
| 9.4 Delivery of test results .....                                                                               | 15        |
| <b>10 Test methods .....</b>                                                                                     | <b>15</b> |
| 10.1 Proof load test .....                                                                                       | 15        |
| 10.1.1 General .....                                                                                             | 15        |
| 10.1.2 Applicability .....                                                                                       | 15        |
| 10.1.3 Apparatus .....                                                                                           | 15        |
| 10.1.4 Testing device .....                                                                                      | 15        |
| 10.1.5 Test procedure .....                                                                                      | 17        |
| 10.1.6 Addition to test procedure for prevailing torque nuts .....                                               | 17        |
| 10.1.7 Test results and requirements .....                                                                       | 17        |
| 10.2 Hardness test .....                                                                                         | 18        |
| 10.2.1 General .....                                                                                             | 18        |
| 10.2.2 Test procedure .....                                                                                      | 18        |
| 10.2.3 Test results and requirements .....                                                                       | 19        |
| <b>11 Nut marking and labelling .....</b>                                                                        | <b>19</b> |
| 11.1 Nut marking .....                                                                                           | 19        |
| 11.1.1 General requirements for marking .....                                                                    | 19        |
| 11.1.2 Marking of property class for nuts with full loadability (regular and high nuts) .....                    | 19        |
| 11.1.3 Marking of property class for nuts with reduced loadability (thin nuts) .....                             | 20        |
| 11.1.4 Additional marking .....                                                                                  | 20        |
| 11.2 Manufacturer's identification mark .....                                                                    | 20        |
| 11.3 Marking on the nuts .....                                                                                   | 20        |
| 11.3.1 Hexagon nuts .....                                                                                        | 20        |
| 11.3.2 Other types of nuts .....                                                                                 | 22        |
| 11.3.3 Left-hand thread marking .....                                                                            | 22        |

11.4 Marking of the packages (labelling) ..... 22

**Annex A (informative) Design principles of stainless steel nuts.....23**

**Annex B (normative) Thread dimensions of the test mandrel for proof load.....25**

**Bibliography .....27**
