

Table of Contents

Preface.....	iii
Acknowledgments.....	v
Table of Contents.....	VII

Chapter 1

Safety, Ground Operations, and Servicing1-1

Shop Safety	1-2
Electrical Safety	1-2
Physiological Safety	1-2
Fire Safety.....	1-2
Safety Around Compressed Gases	1-2
Safety Around Hazardous Materials	1-3
Safety Around Machine Tools	1-3
Flight Line Safety	1-4
Hearing Protection.....	1-4
Foreign Object Damage (FOD).....	1-5
Safety Around Airplanes.....	1-5
Safety Around Helicopters	1-5
Fire Safety	1-5
Fire Protection.....	1-5
Requirements for Fire to Occur.....	1-5
Classification of Fires.....	1-6
Types and Operation of Shop and Flight Line Fire Extinguishers	1-6
Inspection of Fire Extinguishers.....	1-8
Identifying Fire Extinguishers.....	1-8
Using Fire Extinguishers.....	1-9
Tie-Down Procedures	1-9
Preparation of Aircraft.....	1-9
Tie-Down Procedures for Land Planes	1-10
Securing Light Aircraft.....	1-10
Securing Heavy Aircraft	1-11
Tie-Down Procedures for Seaplanes	1-11
Tie-Down Procedures for Ski Planes	1-11
Tie-Down Procedures for Helicopters.....	1-11
Procedures for Securing Weight-Shift-Control	1-12
Procedures for Securing Powered Parachutes	1-12
Ground Movement of Aircraft.....	1-13
Engine Starting and Operation	1-13
Reciprocating Engines.....	1-13
Hand Cranking Engines.....	1-14

Extinguishing Engine Fires	1-15
Turboprop Engines	1-15
Turboprop Starting Procedures	1-15
Turbofan Engines	1-16
Starting a Turbofan Engine	1-17
Auxiliary Power Units (APUs)	1-17
Unsatisfactory Turbine Engine Starts.....	1-17
Hot Start.....	1-17
False or Hung Start	1-17
Engine Fails to Start.....	1-19
Towing of Aircraft.....	1-19
Taxiing Aircraft.....	1-20
Taxi Signals	1-21
Servicing Aircraft.....	1-22
Servicing Aircraft Air/Nitrogen Oil and Fluids	1-22
Ground Support Equipment	1-24
Electric Ground Power Units.....	1-24
Hydraulic Ground Power Units	1-25
Ground Support Air Units	1-25
Ground Air Heating and Air Conditioning.....	1-25
Oxygen Servicing Equipment	1-25
Oxygen Hazards	1-26
Fuel Servicing of Aircraft	1-26
Types of Fuel and Identification	1-26
Contamination Control	1-26
Fueling Hazards.....	1-27
Fueling Procedures.....	1-27
Defueling	1-29

Chapter 2

Regulations, Maintenance Forms, Records, and Publications2-1

Overview — Title 14 of the Code of Federal Regulations (14 CFR).....	2-1
Title 14 CFR Part 3—General Requirements.....	2-4
Maintenance-Related Regulations.....	2-5
14 CFR Part 1—Definitions and Abbreviations.....	2-5
14 CFR Part 21—Certification Procedures for Products and Parts.....	2-5

14 CFR Part 23—Airworthiness Standards: Normal, Utility, Acrobatic, and Commuter Category Airplanes	2-8	Included in Annual and 100-Hour Inspections	2-21
14 CFR Part 25—Airworthiness Standards: Transport Category Airplanes	2-8	Appendix E—Altimeter System Test and Inspection	2-21
14 CFR Part 27—Airworthiness Standards: Normal Category Rotorcraft	2-8	Appendix F—ATC Transponder Tests and Inspections	2-21
14 CFR Part 29—Airworthiness Standards: Transport Category Rotorcraft	2-8	14 CFR Part 91—General Operating and Flight Rules	2-21
14 CFR Part 33—Airworthiness Standards: Aircraft Engines	2-8	Subpart A—General	2-21
14 CFR Part 35—Airworthiness Standards: Propellers	2-8	Subpart E—Maintenance, Preventive Maintenance, and Alterations	2-22
14 CFR Part 39—Airworthiness Directives	2-10	Civil Air Regulations (CAR)	2-24
14 CFR Part 43—Maintenance, Preventive Maintenance, Rebuilding, and Alteration	2-10	CAR 3—Airplane Airworthiness—Normal, Utility, Aerobatic, and Restricted Purpose Categories	2-24
14 CFR Part 45—Identification and Registration Marking	2-10	CAR 4a—Airplane Airworthiness	2-26
14 CFR Part 47—Aircraft Registration	2-10	Suspected Unapproved Parts (SUP)	2-26
14 CFR Part 65—Certification: Airmen Other Than Flight Crewmembers	2-10	Other FAA Documents	2-26
14 CFR Part 91—General Operating and Flight Rules	2-11	Advisory Circulars (AC)	2-26
14 CFR Part 119—Certification: Air Carriers and Commercial Operators	2-11	The AC Numbering System	2-26
14 CFR Part 121—Operating Requirements: Domestic, Flag, and Supplemental Operations	2-12	Types of Airworthiness Directives (AD)	2-27
14 CFR Part 125—Certification and Operations: Airplanes Having a Seating Capacity of 20 or More Passengers or a Maximum Payload Capacity of 6,000 Pounds or More; and Rules Governing Persons on Board Such Aircraft	2-13	AD Content	2-27
14 CFR Part 135—Operating Requirements: Commuter and On-Demand Operations and Rules Governing Persons on Board Such Aircraft	2-13	AD Number	2-27
14 CFR Part 145—Repair Stations	2-14	Applicability and Compliance	2-27
14 CFR Part 147—Aviation Maintenance Technician Schools	2-14	Alternative Method of Compliance	2-30
14 CFR Part 183—Representatives of the Administrator	2-14	Special Airworthiness Information Bulletin (SAIB)	2-30
Explanation of Primary Regulations (Parts 43 and 91)	2-15	Aircraft Specifications	2-30
14 CFR Part 43—Maintenance, Preventative Maintenance Rebuilding, and Alteration	2-15	Cessna; 182T; Locked Rudder Trim Wheel; A4A 2721	2-30
Appendix A—Major Alterations, Major Repairs, and Preventive Maintenance	2-20	Supplemental Type Certificates (STC)	2-30
Appendix B—Recording of Major Repairs and Major Alterations	2-21	Type Certificate Data Sheets (TCDS)	2-33
Appendix C—(Reserved)	2-21	FAA Handbooks and Manuals	2-33
Appendix D—Scope and Detail of Items To Be		Non-FAA Documents	2-33
		Air Transport Association A4A iSPec 2200	2-33
		Manufacturers' Published Data	2-33
		Airworthiness Limitations	2-37
		Service Bulletins (SB)	2-38
		Structural Repair Manual (SRM)	2-38
		Forms	2-39
		Airworthiness Certificates	2-39
		Aircraft Registration	2-39
		Radio Station License	2-39
		FAA Form 337—Major Repair and Alteration	2-40
		Records	2-41
		Making Maintenance Record Entries	2-41
		Electronic Records	2-44
		Light Sport Aircraft (LSA)	2-45
		Maintenance	2-45
		Aircraft Maintenance Manual (AMM)	2-46
		Line Maintenance, Repairs, and Alterations	2-46
		Major Repairs and Alterations	2-46

Chapter 3

Mathematics in Aviation Maintenance.....3-1

Introduction.....	3-1
Whole Numbers	3-2
Addition of Whole Numbers	3-2
Subtraction of Whole Numbers.....	3-2
Division of Whole Numbers.....	3-2
Fractions.....	3-2
Finding the Least Common Denominator	3-3
Addition of Fractions	3-3
Subtraction of Fractions	3-3
Multiplication of Fractions.....	3-3
Division of Fractions.....	3-4
Reducing Fractions.....	3-4
Mixed Numbers	3-4
Addition of Mixed Numbers	3-4
Subtraction of Mixed Numbers	3-4
The Decimal Number System.....	3-5
Origin and Definition	3-5
Addition of Decimal Numbers	3-5
Subtraction of Decimal Numbers.....	3-6
Multiplication of Decimal Numbers.....	3-6
Division of Decimal Numbers.....	3-6
Rounding Off Decimal Numbers	3-7
Converting Decimal Numbers to Fractions.....	3-7
Converting Fractions to Decimals.....	3-8
Decimal Equivalent Chart	3-8
Ratio.....	3-8
Aviation Applications.....	3-8
Proportion	3-10
Extremes and Means	3-10
Solving Proportions.....	3-10
Percentage.....	3-10
Expressing a Decimal Number as a Percentage	3-10
Expressing a Percentage as a Decimal Number	3-11
Expressing a Fraction as a Percentage	3-11
Finding a Percentage of a Given Number	3-11
Finding What Percentage One Number is of Another.....	3-11
Finding a Number When a Percentage of it is Known	3-11
Positive and Negative Numbers.....	3-12
(Signed Numbers)	3-12
Addition of Positive and Negative Numbers.....	3-12
Subtraction of Positive and Negative Numbers	3-12
Multiplication of Positive and Negative Numbers.....	3-12
Powers.....	3-12
Special Powers	3-12
Squared	3-12
Cubed.....	3-12
Power of Zero	3-12
Law of Exponents.....	3-13
Powers of Ten.....	3-13
Roots.....	3-13
Square Roots	3-13
Cube Roots	3-13
Fractional Powers.....	3-16
Functions of Numbers Chart.....	3-16
Scientific Notation	3-16
Converting Numbers from Standard Notation to Scientific Notation.....	3-16
Converting Numbers from Scientific Notation to Standard Notation.....	3-16
Addition, Subtraction, Multiplication, and Division of Scientific Numbers.....	3-17
Algebra.....	3-17
Equations	3-17
Algebraic Rules	3-17
Solving for a Variable	3-17
Use of Parentheses.....	3-18
Order of Operation	3-18
Order of Operation for Algebraic Equations.....	3-18
Computing Area of Two-Dimensional Solids	3-18
Rectangle.....	3-19
Square.....	3-19
Triangle	3-19
Parallelogram.....	3-20
Trapezoid.....	3-20
Circle	3-21
Ellipse.....	3-21
Units of Area	3-22
Computing Volume of Three-Dimensional Solids	3-22
Rectangular Solid	3-23
Cube	3-23
Cylinder	3-24
Sphere.....	3-24
Cone	3-25
Units of Volume	3-25
Computing Surface Area of Three-Dimensional Solids.....	3-25
Rectangular Solid	3-25
Cube	3-25
Cylinder	3-25
Sphere.....	3-25
Cone	3-25
Trigonometric Functions.....	3-26
Right Triangle, Sides, and Angles.....	3-26
Sine, Cosine, and Tangent.....	3-26
Calculator Method:	3-26
Trigonometry Table Method:	3-26
Pythagorean Theorem.....	3-26

Measurement Systems	3-27
Conventional (U.S. or English) System	3-27
Metric System	3-27
Measurement Systems and Conversions	3-28
The Binary Number System.....	3-28
Place Values	3-28
Converting Binary Numbers to Decimal Numbers	3-28
Converting Decimal Numbers to Binary Numbers	3-28

Chapter 4

Aircraft Drawings.....	4-1
Computer Graphics	4-2
Purpose and Function of Aircraft Drawings	4-2
Care and Use of Drawings	4-2
Types of Drawings	4-3
Detail Drawing	4-3
Assembly Drawing	4-3
Installation Drawing	4-3
Sectional View Drawings.....	4-3
Full Section.....	4-3
Half Section	4-3
Revolved Section	4-3
Removed Section	4-3
Title Blocks.....	4-3
Drawing or Print Numbers	4-7
Reference and Dash Numbers	4-8
Universal Numbering System	4-8
Drawing Standards.....	4-8
Bill of Material.....	4-8
Other Drawing Data	4-9
Revision Block	4-9
Notes.....	4-9
Zone Numbers	4-9
Station Numbers and Location Identification on Aircraft	4-9
Allowances and Tolerances.....	4-9
Finish Marks.....	4-9
Scale	4-11
Application	4-11
Methods of Illustration.....	4-11
Applied Geometry	4-11
Orthographic Projection Drawings	4-11
Pictorial Drawings	4-11
Diagrams.....	4-15
Flowcharts.....	4-17
Lines and Their Meanings	4-17
Centerlines.....	4-18
Dimension Lines	4-18

Extension Lines	4-19
Sectioning Lines	4-19
Phantom Lines.....	4-19
Break Lines.....	4-19
Leader Lines	4-19
Hidden Lines	4-19
Outline or Visible Lines	4-19
Stitch Lines.....	4-19
Cutting Plane and Viewing Plane Lines.....	4-19
Drawing Symbols.....	4-20
Material Symbols	4-20
Shape Symbols	4-21
Electrical Symbols.....	4-21
Reading and Interpreting Drawings	4-21
Drawing Sketches	4-23
Sketching Techniques.....	4-23
Basic Shapes.....	4-23
Repair Sketches	4-23
Care of Drafting Instruments	4-23
Graphs and Charts.....	4-25
Reading and Interpreting Graphs and Charts	4-25
Nomograms	4-25
Microfilm and Microfiche.....	4-25
Digital Images	4-26

Chapter 5

Physics for Aviation	5-1
Matter.....	5-2
Characteristics of Matter	5-2
Mass and Weight	5-2
Attraction	5-2
Porosity	5-2
Impenetrability.....	5-2
Density	5-2
Specific Gravity	5-2
Energy	5-4
Potential Energy	5-4
Kinetic Energy.....	5-4
Force, Work, Power, and Torque.....	5-4
Force.....	5-4
Work.....	5-5
Friction and Work	5-5
Static Friction.....	5-6
Sliding Friction	5-6
Rolling Friction.....	5-6
Power.....	5-7
Torque	5-7
Simple Machines.....	5-8
Mechanical Advantage of Machines	5-8

The Lever	5-9	Sound	5-31
First Class Lever	5-9	Wave Motion	5-31
Second Class Lever	5-9	Speed of Sound	5-32
Third Class Lever	5-10	Mach Number	5-32
The Pulley	5-10	Frequency of Sound	5-32
Single Fixed Pulley	5-10	Loudness	5-32
Single Movable Pulley	5-10	Measurement of Sound Intensity	5-33
Block and Tackle	5-11	Doppler Effect	5-33
The Gear	5-11	Resonance	5-33
Inclined Plane	5-13	The Atmosphere	5-33
Stress	5-13	Composition of the Atmosphere	5-34
Tension	5-14	Atmospheric Pressure	5-34
Compression	5-14	Atmospheric Density	5-35
Torsion	5-14	Water Content of the Atmosphere	5-35
Bending	5-15	Absolute Humidity	5-36
Shear	5-15	Relative Humidity	5-36
Strain	5-15	Dew Point	5-36
Motion	5-15	Vapor Pressure	5-37
Uniform Motion	5-16	Standard Atmosphere	5-37
Speed and Velocity	5-16	Aircraft Theory of Flight	5-37
Acceleration	5-16	Four Forces of Flight	5-37
Newton's Law of Motion	5-17	Bernoulli's Principle and Subsonic Flow	5-37
First Law	5-17	Lift and Newton's Third Law	5-38
Second Law	5-17	Airfoils	5-39
Third Law	5-18	Camber	5-39
Circular Motion	5-18	Chord Line	5-39
Heat	5-19	Relative Wind	5-39
Heat Energy Units	5-19	Angle of Attack	5-39
Heat Energy and Thermal Efficiency	5-19	Boundary Layer Airflow	5-40
Heat Transfer	5-20	Boundary Layer Control	5-40
Conduction	5-20	Wingtip Vortices	5-40
Convection	5-21	Axes of an Aircraft	5-41
Radiation	5-21	Aircraft Stability	5-41
Specific Heat	5-22	Static Stability	5-41
Temperature	5-22	Dynamic Stability	5-42
Thermal Expansion/Contraction	5-23	Longitudinal Stability	5-42
Pressure	5-23	Lateral Stability	5-43
Gauge Pressure	5-24	Directional Stability	5-43
Absolute Pressure	5-24	Dutch Roll	5-43
Differential Pressure	5-24	Flight Control Surfaces	5-43
Gas Laws	5-25	Flight Controls and the Lateral Axis	5-43
Boyle's Law	5-25	Flight Controls and the Longitudinal Axis	5-44
Charles' Law	5-26	Flight Controls and the Vertical Axis	5-44
General Gas Law	5-26	Tabs	5-45
Dalton's Law	5-26	Supplemental Lift-Modifying Devices	5-46
Fluid Mechanics	5-26	High-Speed Aerodynamics	5-47
Buoyancy	5-26	Compressibility Effects	5-47
Fluid Pressure	5-28	The Speed of Sound	5-48
Pascal's Law	5-28	Subsonic, Transonic, and Supersonic Flight	5-48
Bernoulli's Principle	5-30		

Shock Waves	5-48	Standard Weights Used for Aircraft	
High-Speed Airfoils	5-49	Weight and Balance.....	6-17
Aerodynamic Heating	5-50	Example Weighing of an Airplane.....	6-17
Helicopter Aerodynamics.....	5-51	EWCG Formulas	6-18
Helicopter Structures and Airfoils	5-51	Datum Forward of the Airplane—Nosewheel	
Helicopter Axes of Flight	5-54	Landing Gear	6-19
Helicopters in Flight	5-56	Datum Aft of the Main Wheels—Nosewheel	
Weight-Shift Control, Flexible Wing Aircraft		Landing Gear	6-19
Aerodynamics.....	5-58	Location of Datum.....	6-19
Powered Parachute Aerodynamics	5-60	Datum Forward of the Main Wheels—Tail	
		Wheel Landing Gear	6-20
Chapter 6		Loading an Aircraft for Flight.....	6-20
Aircraft Weight and Balance.....	6-1	Example Loading of an Airplane.....	6-20
Introduction.....	6-1	Adverse-Loaded CG Checks	6-21
Requirements for Aircraft Weighing	6-2	Example Forward and Aft Adverse-Loaded	
Weight and Balance Terminology	6-2	CG Checks.....	6-22
Datum	6-2	Equipment Change and Aircraft Alteration	6-23
Arm.....	6-3	Example Calculation After an Equipment	
Moment	6-3	Change	6-23
Center of Gravity (CG).....	6-4	Use of Ballast	6-23
Maximum Weight.....	6-4	Temporary Ballast	6-23
Empty Weight.....	6-4	Permanent Ballast	6-25
Empty Weight Center of Gravity (EWCG).....	6-5	Loading Graphs and CG Envelopes.....	6-25
Useful Load	6-5	Helicopter Weight and Balance	6-27
Minimum Fuel.....	6-5	General Concepts	6-27
Tare Weight.....	6-6	Helicopter Weighing	6-28
Procedures for Weighing an Aircraft.....	6-6	Weight and Balance—Weight-Shift Control	
General Concepts	6-6	Aircraft and Powered Parachutes.....	6-28
Weight and Balance Data	6-7	Weight-Shift Control Aircraft	6-28
Manufacturer-Furnished Information.....	6-8	Powered Parachutes.....	6-30
Weight and Balance Equipment.....	6-8	Built-In Electronic Weighing	6-30
Scales.....	6-8	Mean Aerodynamic Chord.....	6-30
Spirit Level	6-12	Weight and Balance Records.....	6-32
Plumb Bob	6-13		
Hydrometer.....	6-13	Chapter 7	
Preparing an Aircraft for Weighing.....	6-13	Aircraft Materials, Hardware, and Processes ..7-1	
Fuel System	6-14	Properties of Metals.....	7-2
Oil System	6-14	Hardness	7-2
Miscellaneous Fluids	6-14	Strength.....	7-2
Flight Controls.....	6-14	Density	7-2
Other Considerations	6-14	Malleability	7-2
Weighing Points.....	6-15	Ductility	7-2
Jacking the Aircraft	6-15	Elasticity	7-2
Leveling the Aircraft	6-15	Toughness	7-2
Safety Considerations.....	6-16	Brittleness	7-2
CG Range	6-16	Fusibility.....	7-2
Empty Weight Center of Gravity (EWCG)		Conductivity	7-2
Range	6-16	Thermal Expansion	7-2
Operating CG Range.....	6-16		

Ferrous Aircraft Metals	7-3	Heat Treatment of Titanium	7-26
Iron	7-3	Stress Relieving	7-26
Steel and Steel Alloys	7-3	Full Annealing	7-26
Electrochemical Test	7-5	Thermal Hardening	7-26
Nonferrous Aircraft Metals	7-6	Casehardening	7-26
Aluminum and Aluminum Alloys	7-6	Hardness Testing	7-26
Wrought Aluminum	7-7	Brinell Tester	7-26
Effect of Alloying Element	7-8	Rockwell Tester	7-27
Hardness Identification	7-9	Barcol Tester	7-28
Magnesium and Magnesium Alloys	7-9	Forging	7-29
Titanium and Titanium Alloys	7-10	Casting	7-29
Copper and Copper Alloys	7-11	Extruding	7-29
Nickel and Nickel Alloys	7-12	Cold Working/Hardening	7-29
Substitution of Aircraft Metals	7-12	Nonmetallic Aircraft Materials	7-30
Metalworking Processes	7-12	Wood	7-30
Hot Working	7-12	Plastics	7-30
Internal Structure of Metals	7-14	Transparent Plastics	7-30
Heat-Treating Equipment	7-15	Composite Materials	7-31
Heating	7-16	Advantages/Disadvantages of Composites	7-31
Soaking	7-16	Composite Safety	7-32
Cooling	7-16	Fiber Reinforced Materials	7-32
Quenching Media	7-17	Laminated Structures	7-32
Quenching Equipment	7-19	Reinforced Plastic	7-32
Heat Treatment of Ferrous Metals	7-19	Rubber	7-33
Behavior of Steel During Heating and Cooling	7-19	Natural Rubber	7-33
Hardening	7-19	Synthetic Rubber	7-33
Hardening Precautions	7-19	Shock Absorber Cord	7-34
Tempering	7-20	Seals	7-34
Annealing	7-20	Packings	7-35
Normalizing	7-20	O-Ring Packings	7-35
Casehardening	7-20	V-Ring Packings	7-36
Heat Treatment of Nonferrous Metals	7-21	U-Ring Packings	7-36
Aluminum Alloys	7-21	Gaskets	7-36
Alclad Aluminum	7-22	Wipers	7-36
Solution Heat Treatment	7-22	Sealing Compounds	7-37
Quenching	7-22	One Part Sealants	7-37
Lag Between Soaking and Quenching	7-23	Two Part Sealants	7-37
Reheat Treatment	7-23	Aircraft Hardware	7-37
Straightening After Solution Heat Treatment	7-23	Identification	7-37
Precipitation Heat Treating	7-23	Threaded Fasteners	7-38
Precipitation Practices	7-24	Classification of Threads	7-38
Annealing of Aluminum Alloys	7-24	Aircraft Bolts	7-39
Heat Treatment of Aluminum Alloy Rivets	7-24	General Purpose Bolts	7-39
Heat Treatment of Magnesium Alloys	7-25	Close Tolerance Bolts	7-39
Solution Heat Treatment	7-25	Internal Wrenching Bolts	7-39
Precipitation Heat Treatment	7-26	Identification and Coding	7-39
		Special-Purpose Bolts	7-41

Aircraft Nuts.....	7-43	Riveted and Rivetless Nut Plates.....	7-68
Non-Self-Locking Nuts	7-44	Nut Plates.....	7-68
Self-Locking Nuts.....	7-44	Rivnuts.....	7-69
Sheet Spring Nuts	7-46	Dill Lok-Skrus and Dill Lok-Rivets	7-70
Internal and External Wrenching Nuts	7-46	Deutsch Rivets.....	7-71
Identification and Coding	7-47	Sealing Nut Plates.....	7-71
Aircraft Washers.....	7-48	Hole Repair and Hole Repair Hardware.....	7-71
Plain Washers	7-48	Repair of Damaged Holes with Acres Fastener	
Lock Washers	7-48	Sleeves.....	7-71
Special Washers.....	7-48	Control Cables and Terminals	7-72
Installation of Nuts, Washers, and Bolts	7-48	Push-Pull Tube Linkage	7-75
Bolt and Hole Sizes	7-48	Safetying Methods.....	7-75
Installation Practices.....	7-49	Pins	7-76
Safetying of Bolts and Nuts	7-49	Safety Wiring	7-76
Repair of Damaged Internal Threads.....	7-49	Nuts, Bolts, and Screws.....	7-76
Fastener Torque.....	7-51	Oil Caps, Drain Cocks, and Valves	7-77
Torque.....	7-51	Electrical Connectors.....	7-77
Torque Wrenches.....	7-51	Turnbuckles	7-77
Torque Tables	7-52	General Safety Wiring Rules.....	7-80
Cotter Pin Hole Line Up.....	7-52	Cotter Pin Safetying.....	7-80
Aircraft Rivets	7-52	Snap Rings	7-81
Standards and Specifications	7-52		
Solid Shank Rivets.....	7-54	Chapter 8	
Identification.....	7-56	Cleaning and Corrosion Control	8-1
Blind Rivets	7-57	Corrosion.....	8-1
Mechanically-Expanded Rivets.....	7-58	Factors Affecting Corrosion.....	8-2
Self-Plugging Rivets (Friction Lock)	7-58	Pure Metals	8-2
Pull-Thru Rivets.....	7-59	Climate.....	8-2
Self-Plugging Rivets (Mechanical Lock)	7-60	Geographical Location.....	8-3
Material.....	7-61	Foreign Material	8-3
Head Styles	7-61	Micro-organisms.....	8-3
Diameters.....	7-61	Manufacturing Processes	8-3
Grip Length.....	7-62	Types of Corrosion.....	8-4
Rivet Identification	7-63	Direct Chemical Attack	8-4
Special Shear and Bearing Load Fasteners	7-63	Electrochemical Attack.....	8-5
Pin Rivets.....	7-64	Forms of Corrosion	8-6
Taper-Lok	7-64	Surface Corrosion	8-7
Hi-Tigue.....	7-65	Filiform Corrosion.....	8-7
Captive Fasteners.....	7-65	Pitting Corrosion.....	8-7
Turn Lock Fasteners	7-65	Dissimilar Metal Corrosion	8-7
Dzus Fasteners	7-65	Concentration Cell Corrosion.....	8-7
Camloc Fasteners.....	7-66	Intergranular Corrosion	8-9
Airloc Fasteners	7-66	Exfoliation Corrosion	8-9
Screws	7-67	Stress-Corrosion/Cracking.....	8-9
Structural Screws	7-67	Fretting Corrosion.....	8-10
Machine Screws.....	7-67	Fatigue Corrosion	8-10
Self-Tapping Screws.....	7-68	Galvanic Corrosion.....	8-11
Identification and Coding for Screws	7-68	Common Corrosive Agents.....	8-11

Fluid Line Identification.....	9-8	Progressive Inspections	10-12
Fluid Line End Fittings	9-9	Continuous Inspections	10-14
Universal Bulkhead Fittings	9-9	Altimeter and Transponder Inspections	10-14
AN Flared Fittings	9-9	Airlines for America iSpec 2200	10-14
MS Flareless Fittings.....	9-12	Special Inspections.....	10-15
Swaged Fittings	9-12	Hard or Overweight Landing Inspection.....	10-16
Cryofit Fittings.....	9-14	Severe Turbulence Inspection/Over "G".....	10-16
Rigid Tubing Installation and Inspection	9-14	Lightning Strike.....	10-16
Connection and Torque.....	9-15	Bird Strike	10-16
Flareless Tube Installation.....	9-16	Fire Damage	10-17
Rigid Tubing Inspection and Repair.....	9-16	Flood Damage	10-17
Flexible Hose Fluid Lines.....	9-17	Seaplanes.....	10-17
Hose Materials and Construction	9-17	Aerial Application Aircraft	10-17
Buna-N.....	9-18	Special Flight Permits	10-17
Neoprene.....	9-18	Nondestructive Inspection/Testing	10-18
Butyl	9-18	Training, Qualification, and Certification	10-18
Hose Identification.....	9-18	Advantages and Disadvantages of NDI	
Flexible Hose Inspection	9-19	Methods	10-18
Fabrication and Replacement of Flexible Hose	9-19	Visual Inspection.....	10-18
Flexible Hose Testing	9-20	Surface Cracks	10-18
Size Designations	9-20	Borescope	10-18
Hose Fittings	9-20	Interpretation of Results	10-20
Installation of Flexible Hose Assemblies.....	9-20	False Indications	10-21
Slack	9-20	Eddy Current Inspection.....	10-21

Micrometer Parts.....	11-23
Reading a Micrometer.....	11-24
Vernier Scale.....	11-24
Using a Micrometer.....	11-25
Slide Calipers.....	11-25

Chapter 12

Fundamentals of Electricity and Electronics.....12-1

Introduction.....	12-1
General Composition of Matter.....	12-2
Matter.....	12-2
Element.....	12-2
Compound.....	12-2
Molecule.....	12-2
Atom.....	12-2
Electrons, Protons, and Neutrons.....	12-2
Electron Shells and Energy Levels.....	12-3
Valence Electrons.....	12-4
Ions.....	12-4
Free Electrons.....	12-4
Electron Movement.....	12-4
Conductors, Insulators, and Semiconductors.....	12-4
Conductors.....	12-4
Insulators.....	12-4
Semiconductors.....	12-4
Metric Based Prefixes Used for Electrical Calculations.....	12-4
Static Electricity.....	12-5
Attractive and Repulsive Forces.....	12-5
Electrostatic Field.....	12-5
Electrostatic Discharge (ESD) Considerations.....	12-7
Magnetism.....	12-8
Types of Magnets.....	12-12
Electromagnetism.....	12-12
Conventional Flow and Electron Flow.....	12-16
Conventional Flow.....	12-16
Electron Flow.....	12-16
Electromotive Force (Voltage).....	12-16
Current.....	12-17
Ohm's Law (Resistance).....	12-18
Resistance of a Conductor.....	12-19
Factors Affecting Resistance.....	12-19
Resistance and Relation to Wire Sizing.....	12-20
Circular Conductors (Wires/Cables).....	12-20
Rectangular Conductors (Bus Bars).....	12-21
Power and Energy.....	12-21
Power in an Electrical Circuit.....	12-21
Power Formulas Used in the Study of Electricity.....	12-22
Power in a Series and Parallel Circuit.....	12-23
Energy in an Electrical Circuit.....	12-23
Sources of Electricity.....	12-23
Pressure Source.....	12-23
Chemical Source.....	12-23
Thermal Sources.....	12-23
Light Sources.....	12-24

Schematic Representation of Electrical Components.....	12-24	Alternating Current (AC) and Voltage	12-44
Conductors.....	12-24	AC and DC Compared	12-44
Types of Resistors.....	12-25	Generator Principles.....	12-44
Fixed Resistor.....	12-25	Generators of Alternating Current.....	12-46
Carbon Composition	12-25	Position 1	12-47
Resistor Ratings.....	12-25	Position 2	12-47
Color Code.....	12-25	Position 3	12-47
Color Band Decoding.....	12-25	Position 4	12-47
Wire-Wound.....	12-27	Position 5	12-47
Variable Resistors.....	12-27	Cycle and Frequency.....	12-47
Rheostat	12-27	Cycle Defined	12-47
Potentiometer.....	12-27	Frequency Defined.....	12-47
Thermistors.....	12-29	Period Defined	12-49
Photoconductive Cells.....	12-29	Wavelength Defined	12-49
Circuit Protection Devices	12-29	Phase Relationships.....	12-49
Fuse	12-29	In Phase Condition.....	12-49
Current Limiter.....	12-30	Out of Phase Condition.....	12-49
Circuit Breaker	12-30	Values of Alternating Current	12-50
Arc Fault Circuit Breaker	12-30	Instantaneous Value.....	12-50
Thermal Protectors	12-30	Peak Value.....	12-50
Control Devices.....	12-30	Effective Value	12-50
Switches.....	12-31	Opposition to Current Flow of AC.....	12-51
Toggle Switch.....	12-31	Capacitance	12-51
Microswitches.....	12-32	Capacitors in Direct Current.....	12-51
Rotary Selector Switches.....	12-33	The Resistor/Capacitor (RC) Time Constant	12-51
Pushbutton Switches	12-33	Units of Capacitance	12-52
Lighted Pushbutton Switches	12-33	Voltage Rating of a Capacitor.....	12-52
Dual In-Line Parallel (DIP) Switches.....	12-34	Factors Affecting Capacitance	12-52
Switch Guards.....	12-34	Types of Capacitors.....	12-53
Relays	12-34	Fixed Capacitors	12-53
Series DC Circuits.....	12-34	Ceramic	12-53
Voltage Drops and Further Application of		Electrolytic	12-53
Ohm's Law	12-36	Tantalum.....	12-54
Voltage Sources in Series.....	12-36	Polyester Film	12-54
Kirchhoff's Voltage Law.....	12-37	Oil Capacitors.....	12-54
Voltage Dividers.....	12-38	Variable Capacitors	12-54
Determining the Voltage Divider Formula	12-40	Trimmers	12-54
Parallel DC Circuits	12-40	Varactors	12-54
Voltage Drops.....	12-41	Capacitors in Series.....	12-55
Total Parallel Resistance	12-41	Capacitors in Parallel.....	12-55
Resistors in Parallel.....	12-41	Capacitors in Alternating Current	12-56
Two Resistors in Parallel.....	12-41	Capacitive Reactance X_c	12-56
Current Source.....	12-41	Sample Problem:	12-56
Kirchhoff's Current Law	12-42	Solution:	12-56
Current Dividers	12-42	Capacitive Reactances in Series and in Parallel.....	12-57
Series-Parallel DC Circuits	12-43	Phase of Current and Voltage in Reactive	
Determining the Total Resistance	12-43	Circuits	12-57

Inductance	12-57	Wattmeter	12-77
Characteristics of Inductance	12-57	Frequency Measurement/Oscilloscope.....	12-78
The RL Time Constant	12-58	Horizontal Deflection	12-78
Physical Parameters.....	12-58	Vertical Deflection	12-79
Self-Inductance.....	12-59	Tracing a Sine Wave	12-79
Types of Inductors.....	12-59	Control Features on an Oscilloscope.....	12-79
Units of Inductance	12-59	Flat Panel Color Displays for Oscilloscopes.....	12-81
Inductors in Series.....	12-59	Digital Multimeter.....	12-81
Inductors in Parallel.....	12-59	Basic Circuit Analysis and Troubleshooting	12-81
Inductive Reactance	12-60	Voltage Measurement.....	12-82
AC Circuits	12-61	Current Measurement.....	12-82
Ohm's Law for AC Circuits.....	12-61	Checking Resistance in a Circuit.....	12-82
Series AC Circuits	12-61	Continuity Checks	12-83
Solution:.....	12-62	Capacitance Measurement.....	12-83
Solution:.....	12-62	Inductance Measurement.....	12-84
Solution:.....	12-63	Troubleshooting Open Faults in a Series	
Parallel AC Circuits.....	12-63	Circuit.....	12-84
Solution:.....	12-64	Tracing Opens with the Voltmeter	12-84
Solution:.....	12-64	Tracing Opens with the Ohmmeter	12-85
Resonance.....	12-64	Troubleshooting Shorting Faults in a Series	
Power in AC Circuits	12-65	Circuit.....	12-85
True Power Defined	12-65	Tracing Shorts with the Ohmmeter	12-86
Apparent Power Defined	12-66	Tracing Shorts with the Voltmeter.....	12-86
Solution:.....	12-66	Troubleshooting Open Faults in a Parallel	
Transformers	12-66	Circuit.....	12-86
Current Transformers	12-69	Tracing an Open with an Ammeter	12-87
Transformer Losses	12-69	Tracing an Open with an Ohmmeter	12-87
Power in Transformers	12-69	Troubleshooting Shorting Faults in Parallel	
DC Measuring Instruments.....	12-69	Circuits	12-87
D'Arsonval Meter Movement	12-69	Troubleshooting Shorting Faults in	
Current Sensitivity and Resistance.....	12-70	Series-Parallel Circuits	12-88
Damping	12-70	Logic in Tracing an Open.....	12-88
Electrical Damping.....	12-70	Tracing Opens with the Voltmeter	12-89
Mechanical Damping	12-70	Batteries	12-89
A Basic Multirange Ammeter	12-71	Primary Cell	12-89
Precautions.....	12-71	Secondary Cell	12-89
The Voltmeter	12-72	Battery Ratings.....	12-91
Voltmeter Sensitivity.....	12-72	Life Cycle of a Battery	12-91
Multiple Range Voltmeters	12-72	Lead-Acid Battery Testing Methods	12-91
Voltmeter Circuit Connections.....	12-72	Lead-Acid Battery Charging Methods	12-92
Influence of the Voltmeter in the Circuit	12-72	Nickel-Cadmium Batteries.....	12-93
The Ohmmeter	12-72	Chemistry and Construction.....	12-93
Zero Adjustment.....	12-73	Operation of Nickel-Cadmium Cells.....	12-93
Ohmmeter Scale	12-73	General Maintenance and Safety Precautions ...	12-94
The Multirange Ohmmeter.....	12-74	Sealed Lead Acid (SLA) Batteries	12-94
Megger (Megohmmeter)	12-74	Lithium Ion Batteries	12-94
AC Measuring Instruments.....	12-75	Inverters	12-95
Electrodynamometer Meter Movement.....	12-76	Rotary Inverters.....	12-95
Moving Iron Vane Meter.....	12-76	Permanent Magnet Rotary Inverter	12-95
Inclined Coil Iron Vane Meter	12-77	Inductor-Type Rotary Inverter	12-96
Varmeters	12-77	Static Inverters.....	12-97

Semiconductors.....	12-98	Impedance Coupling.....	12-118
Doping.....	12-99	Transformer Coupling	12-119
PN Junctions and the Basic Diode	12-100	Feedback.....	12-119
Forward Biased Diode.....	12-102	Operational Amplifiers (OP AMP)	12-119
Reverse Biased Diode	12-103	Applications	12-120
Rectifiers.....	12-103	Magnetic Amplifiers	12-120
Half-Wave Rectifier	12-104	Saturable-Core Reactor	12-121
Full-Wave Rectifier.....	12-105	Logic Circuits.....	12-122
Dry Disk	12-105	Logic Polarity	12-122
Types of Diodes.....	12-106	Positive	12-122
Power Rectifier Diodes.....	12-106	Negative.....	12-122
Zener Diodes.....	12-106	Pulse Structure.....	12-122
Special Purpose Diodes	12-107	Basic Logic Circuits	12-123
Light-Emitting Diode (LED)	12-107	The Inverter Logic	12-123
Liquid Crystal Displays (LCD)	12-107	The AND Gate.....	12-123
Photodiode	12-107	The OR Gate	12-124
Varactors.....	12-107	The NAND Gate.....	12-125
Schottky Diodes.....	12-107	The NOR Gate	12-125
Diode Identification.....	12-107	Exclusive OR Gate	12-125
Introduction to Transistors.....	12-107	Exclusive NOR Gate.....	12-126
Classification	12-108	The Integrated Circuit	12-126
Transistor Theory	12-108	Microprocessors	12-127
PNP Transistor Operation	12-109	DC Generators	12-127
Identification of Transistors	12-109	Theory of Operation.....	12-127
Field Effect Transistors	12-110	Generation of a DC Voltage.....	12-129
Metal-Oxide-Semiconductor FET (MOSFET)	12-110	Position A	12-129
Common Transistor Configurations	12-111	Position B.....	12-130
Common-Emitter (CE) Configuration	12-111	Position C.....	12-130
Common-Collector (CC) Configuration.....	12-112	Position D	12-130
Common-Base (CB) Configuration.....	12-112	The Neutral Plane	12-130
Vacuum Tubes	12-112	Construction Features of DC Generators	12-131
Filtering.....	12-112	Field Frame.....	12-131
Filtering Characteristics of Capacitors.....	12-112	Armature.....	12-132
Filtering Characteristics of Inductors.....	12-113	Gramme-Ring Armature.....	12-132
Common Filter Configurations	12-113	Drum-Type Armature	12-132
Basic LC Filters.....	12-114	Commutators	12-133
Low-Pass Filter.....	12-114	Armature Reaction	12-134
High-Pass Filter (HPF)	12-114	Compensating Windings	12-134
Band-Pass Filter.....	12-115	Interpoles.....	12-134
Band-Stop Filter.....	12-115	Types of DC Generators.....	12-135
Amplifier Circuits	12-116	Series Wound DC Generators.....	12-135
Classification	12-116	Shunt Wound DC Generators	12-135
Class A.....	12-116	Compound Wound DC Generators.....	12-136
Class AB	12-117	Generator Ratings.....	12-137
Class B.....	12-117	Generator Terminals.....	12-137
Class C.....	12-118	DC Generator Maintenance	12-137
Methods of Coupling.....	12-118	Inspection	12-137
Direct Coupling	12-118	Condition of Generator Brushes.....	12-138
RC Coupling	12-118		

DC Motors.....	12-139	Starter Generator.....	12-161
Force Between Parallel Conductors.....	12-140	Alternator Rating.....	12-161
Developing Torque.....	12-140	Alternator Maintenance.....	12-161
Basic DC Motor.....	12-141	Regulation of Generator Voltage.....	12-162
Position A.....	12-142	Voltage Regulation with a Vibrating-Type	
Position B.....	12-142	Regulator.....	12-162
Position C.....	12-142	Three Unit Regulators.....	12-163
Position D.....	12-142	Differential Relay Switch.....	12-164
DC Motor Construction.....	12-142	Overvoltage and Field Control Relays.....	12-165
Armature Assembly.....	12-142	Generator Control Units (GCU).....	12-165
Field Assembly.....	12-142	Basic Functions of a Generator Control	
Brush Assembly.....	12-142	Unit (GCU).....	12-165
End Frame.....	12-143	Voltage Regulation.....	12-165
Types of DC Motors.....	12-144	Overvoltage Protection.....	12-166
Series DC Motor.....	12-144	Parallel Generator Operations.....	12-166
Shunt DC Motor.....	12-144	Over-Excitation Protection.....	12-166
Compound DC Motor.....	12-145	Differential Voltage.....	12-166
Counter Electromotive Force (emf).....	12-145	Reverse Current Sensing.....	12-166
Types of Duty.....	12-146	Alternator Constant Speed Drive System.....	12-166
Reversing Motor Direction.....	12-146	Hydraulic Transmission.....	12-167
Motor Speed.....	12-147	Voltage Regulation of Alternators.....	12-174
Energy Losses in DC Motors.....	12-147	Alternator Transistorized Regulators.....	12-174
Inspection and Maintenance of DC Motors.....	12-148		
AC Motors.....	12-149	Chapter 13	
Types of AC Motors.....	12-149	Mechanic Privileges and Limitations.....13-1	
Three-Phase Induction Motor.....	12-149	Introduction.....	13-1
Rotating Magnetic Field.....	12-149	Mechanic Certification: Subpart A—General	
Construction of Induction Motor.....	12-150	(by 14 CFR Section).....	13-2
Induction Motor Slip.....	12-150	Mechanic Certification: Subpart D—Mechanics	
Single-Phase Induction Motor.....	12-151	(by 14 CFR Section).....	13-4
Shaded Pole Induction Motor.....	12-151	Inspection Authorization (IA).....	13-5
Split-Phase Motor.....	12-152	(by 14 CFR Section).....	13-5
Capacitor Start Motor.....	12-152	Ethics.....	13-7
Direction of Rotation of Induction Motors.....	12-152	A Scenario.....	13-7
Synchronous Motor.....	12-152	Final Observation.....	13-8
AC Series Motor.....	12-154		
Maintenance of AC Motors.....	12-156	Chapter 14	
Alternators.....	12-156	Human Factors.....14-1	
Basic Alternators and Classifications.....	12-156	Introduction.....	14-1
Method of Excitation.....	12-156	FAA Involvement.....	14-1
Number of Phases.....	12-156	Importance of Human Factors.....	14-2
Armature or Field Rotation.....	12-156	Definitions of Human Factors.....	14-2
Single-Phase Alternator.....	12-157	What are Human Factors?.....	14-4
Two-Phase Alternator.....	12-158	Elements of Human Factors.....	14-4
Three-Phase Alternator.....	12-158	Clinical Psychology.....	14-4
Wye Connection (Three-Phase).....	12-158	Experimental Psychology.....	14-4
Delta Connection (Three Phase).....	12-158	Anthropometry.....	14-5
Alternator Rectifier Unit.....	12-158	Computer Science.....	14-5
Brushless Alternator.....	12-159	Cognitive Science.....	14-6
Alternator Frequency.....	12-159	Safety Engineering.....	14-6

Medical Science.....	14-6
Organizational Psychology.....	14-6
Educational Psychology.....	14-7
Industrial Engineering	14-7
History of Human Factors.....	14-7
Evolution of Maintenance Human Factors.....	14-9
The Pear Model.....	14-10
People.....	14-10
Environment	14-11
Physical.....	14-11
Organizational.....	14-11
Actions	14-11
Resources.....	14-11
Human Error	14-14
Types of Errors.....	14-14
Unintentional	14-14
Intentional	14-14
Active and Latent.....	14-14
The “Dirty Dozen”	14-14
Lack of Communication.....	14-15
Complacency	14-16
Lack of Knowledge	14-16
Distraction	14-16
Lack of Teamwork	14-18
Fatigue	14-19
Lack of Resources	14-22
Lack of Assertiveness.....	14-25
Stress	14-27
Physical Stressors	14-28
Psychological Stressors	14-28
Physiological Stressors	14-28
Lack of Awareness	14-28
Norms	14-28
Example of Common Maintenance Errors.....	14-30
Where to Get Information.....	14-32
Federal Aviation Administration (FAA)	14-32
FAA’s Maintenance Fatigue Section.....	14-32
FAA Safety Team	14-32
Other Resources	14-32
Decoding Human Factors	14-32
System Safety Services.....	14-33
Human Factors and Ergonomics Society (HFES).....	14-34
International Ergonomics Association (IEA)	14-34
