

Contents

1. Deformation, Mechanisms and Other Characteristics of Shape Memory Alloys	1
C. M. Wayman	
2. The Mechanical Properties of SME Alloys	29
C. Rodriguez and L. C. Brown	
3. Optical and Electron Microscope Observations of Transformation and Deformation Characteristics in Cu-Al-Ni Martensitic Alloys	59
K. Shimizu and K. Otsuka	
4. Crystallography and Thermodynamics of SME-Martensites	89
L. Delaey and H. Warlimont	
5. Martensitic Transformations in β -Phase Alloys	115
S. Vatanayon and R. F. Hehemann	
6. Lattice Softening and the Origin of SME	147
N. Nakanishi	
7. Premartensitic-Martensite Transitions Related to Shape Memory Effect	177
K. Mukherjee, M. Chandrasekaran, and F. Milillo	
8. Ferroelastic "Memory" and Mechanical Properties in Gold Cadmium	203
D. S. Lieberman, M. A. Schmerling, and R. W. Karz	
9. The Shape Memory Effect in TiNi: One Aspect of Stress-Assisted Martensitic Transformation	245
R. J. Wasilewski	

10.	Thermomechanical Characteristics of Alloys Exhibiting Martensitic Thermoelasticity	273
	J. Perkins, G. R. Edwards, C. R. Such, J. M. Johnson, and R. R. Allen	
11.	Shape Memory Effects and Applications: An Overview	305
	W. S. Owen	
12.	Direct Observation of Martensitic Transformation Between Martensites in a Cu-Al-Ni Alloy	327
	K. Otsuka, H. Sakamoto, and K. Shimizu	
13.	Microstructural Changes During SME Behavior	341
	L. Delaey and J. Thienel	
14.	Martensite Formation as a Deformation Process in Polycrystalline Copper-Zinc Based Alloys	351
	L. Delaey, F. Van de Voorde, and R. V. Krishnan	
15.	The Influence of Thermal History on the Pseudo- elasticity of Copper-Zinc Based Alloys and the Mechanical Behaviour of Martensite	365
	R. Rapacioli, M. Chandrasekaran, and L. Delaey	
16.	The Martensitic Transformation in β -Brass and the Shape Memory Effect	379
	M. Ahlers, R. Rapacioli, and W. Arneodo	
17.	The Rubberlike Behavior in Cu-Zn-Al Martensite Single Crystals	385
	R. Rapacioli, M. Chandrasekaran, M. Ahlers, and L. Delaey	
18.	Superelasticity and Shape Memory Effect in Cu-Sn Alloys	389
	S. Miura, Y. Morita, and N. Nakanishi	
19.	Shape Memory Effect and Anelasticity Associated with the Martensitic Transformation in the Stoichiometric Fe ₃ Pt Alloy	407
	M. Foos, C. Frantz, and M. Gantois	
20.	Compression of CuAlNi Crystals	419
	L. A. Shepard	
21.	Tensile Properties of Superconducting Composite Conductors and Nb-Ti Alloys at 4.2°K	431
	D. S. Easton and C. C. Koch	

CONTENTS

ix

22.	Suggestions for Applying a Phenomenological Approach to Investigations of Mechanical Behavior in SME Alloys	445
	G. Edwards and J. Perkins	
23.	Internal Friction Measurements on Copper-Zinc Based Martensite	451
	W. DeJonghe, R. DeBatist, L. Delaey, and M. DeBonte	
24.	A Quantitative Treatment of the Lattice Softening of Shape Memory Alloys	467
	N. Rusović and H. Warlimont	
25.	The Relationship Between Stacking Fault Energy and Shape Memory in Primary Solid Solutions . . .	477
	G. B. Brook, R. F. Iles, and P. L. Brooks	
26.	Mechanisms for Martensite Formation and the Shape Memory Effect	487
	S. Mendelson	
27.	On Zonal Dislocations and Their Origin for Twinning and Martensite Formation	503
	S. Mendelson	
28.	Use of TiNi in Mechanical and Electrical Connectors	517
	J. D. Harrison and D. E. Hodgson	
29.	Manufacture of an Integrated Circuit Package	525
	H. Pops	
30.	Nitinol Heat Engines	537
	R. Banks	
31.	Internal Vibration Absorption Potential in Structural Materials	547
	L. Kaufman, S. A. Kulin, and P. Neshe	
32.	A Proposed Medical Application of the Shape Memory Effect: A NiTi Harrington Rod for the Treatment of Scoliosis	563
	M. A. Schmerling, M. A. Wilkov, A. E. Sanders, and J. E. Woosley	
33.	Written Discussion	575
