

TABLE OF CONTENTS

<i>Preface</i>	477
M. Veltman , <i>Second Threshold in Weak Interactions (reprint)</i>	481
A. Bialas , <i>My Encounters with Martinus Veltman</i>	499
M.K. Gaillard , <i>Some Memories of Tini Veltman</i>	503
R.-D. Heuer , <i>Homage to Martinus Veltman and the Standard Model</i>	505
E. Remiddi , <i>SCHOONSCHIP, the Largest Time Equation and the Continuous Dimensional Regularisation</i>	513
G. Passarino , <i>Veltman, Renormalizability, Calculability</i>	533
J. Ellis , <i>Following in Tini's Giant Footsteps</i>	561
F. Jegerlehner , <i>The Standard Model of Particle Physics as a Conspiracy Theory and the Possible Role of the Higgs Boson in the Evolution of the Early Universe</i>	575
Ch.P. Korthals Altes , <i>Minimalistic Musings about the Standard Model</i> ..	607
J.J. van der Bij , <i>The Principle of Global Relativity</i>	627
S. Pokorski , K. Sakurai , <i>Goldstone Boson Decays and Chiral Anomalies</i> ..	651
M. Mondragón , G. Patellis , G. Zoupanos , <i>From Veltman's Conditions to Finite Unification</i>	669
E. Megías , M. Quirós , <i>The Continuum Linear Dilaton</i>	711
E.G. Floratos , J. Iliopoulos , <i>On Some Geometrical Properties of Gauge Theories</i>	745
M. Consoli , <i>A Hidden, Heavier Resonance of the Higgs Field</i>	763
R. Barbieri , <i>A View of Flavour Physics in 2021</i>	789
V.A. Emelyanov , F.R. Klinkhamer , <i>Quantum Scattering Process and Information Transfer Out of a Black Hole</i>	805
I. Jack , D.R.T. Jones , <i>Anomalous Dimensions at Large Charge in $d = 4$ $O(N)$ Theory</i>	823
G. 't Hooft , <i>The Big Questions in Elementary Particle Physics</i>	841

Threshold ... by Veltman himself, you can find two personal memoirs by Andrzej Bialas, chairman of the International Editorial Council of *Acta Physica Polonica B* and by Mary K. Gaillard, an outstanding scientist and a long-time friend of Tini Veltman and his family.

Although Veltman was a flesh and blood theorist, his contributions to particle physics were closely related to experiment as they allowed for precise tests of theory predictions. Veltman commented on his achievements: *I could not have done that without the knowledge of experimental physics that I had*
