Introduction to Techno-Economic Assessment of Renewable Energy Sources

1	Introduction to Techno-Economic Assessment of Renewable Energy Sources	1
2	Introducing Basic Tools in DIgSILENT PoweFactory.....	21
3	Modeling and Optimal Operation of Renewable Energy Sources in DIgSILENT PoweFactory	51
4	Power Quality and Harmonics Analysis in the Presence of Renewable Energy Sources	83
5	Electrical Challenges Associated with Integrating Renewable Energy Sources into Power Grids	105
6	Reliability Assessment in the Presence of Renewable Energy Sources	131
7	Evaluation of the Real Grid-Connected Photovoltaic Systems in Iran	157
	Index.....	169

and reliability of power systems. To evaluate the performance of power systems under various conditions, especially in the presence of RESs, many of the most important reliability indices have been studied and the results for grid-connected PV systems are studied using DIgSILENT PoweFactory in this book.
