Preface	7
1 BV-type spaces	13
1.1 Functions of bounded Jordan variation	14
1.2 Functions of bounded Wiener variation	29
1.3 Functions of bounded Riesz variation	32
1.4 Functions of bounded Waterman variation	36
2 Linear operators	49
2.1 Substitution operators	50
2.2 Multiplication operators	59
2.3 Integral operators	69
2.4 Singular operators	78
3 Nonlinear operators	85
3.1 Composition operators in BV	86
3.2 Superposition operators in BV	96
3.3 Continuity properties	102
3.4 Operators in generalized BV spaces	115
4 Applications to integral equations	121
4.1 Hammerstein integral equations	122
4.2 Hammerstein–Volterra integral equations	134
4.3 Solvability in generalized BV spaces	139
4.4 Structure of the solution set	150

5 Boundary value problems	153
Bibliography	165
List of tables	169
Index of symbols	171
Index of notions	173
