Foreword.....		3
Introduction		4
1	Scope	5
2	Normative references	5
3	Terms and definitions	5
4	Symbols and designations	5
5	Principle of the test.....	6
6	Sampling procedures	7
7	Dimensions of test specimens	7
8	Cutting and preparation of test specimens	9
9	Mechanical testing.....	10
10	Test equipment	10
11	Determination of the long-term welding factor.....	11
12	Test report	13
Annex A (informative) Resistance to slow crack growth		15
Annex B (informative) Whole pipe tensile creep rupture test.....		18
Annex C (informative) Minimum creep rupture time of the parent material (t_{tm}) for applicability of the long-term welding factor		21
Annex D (informative) Testing of socket joints.....		22
Bibliography		25
