

Proceedings of the International Conference
on Development and Applications of Nuclear Technologies
NUTECH-2020
Warsaw, Poland, 4–7 October 2020

Guest Editors:
Dagmara Chmielewska-Śmietanko, Urszula Gryczka

EDITORIAL	The International Conference on Development and Applications of Nuclear Technologies NUTECH-2020	113
ORIGINAL PAPERS	K. Kiegiel, O. Roubinek, D. Gajda, P. Kalbarczyk, G. Zakrzewska-Koltuniewicz, A. G. Chmielewski Studies on uranium recovery from a U-bearing Radoniów Dump	115
	E. Chajduk, P. Kalbarczyk Critical comparison of INAA and ICP-MS applied in the characterization of purity of TRISO fuel and substrates to its production	121
	A. Talarowska, M. Lipka, G. Wojtania Preliminary computational and experimental design studies of the ISHTAR thermostatic rig for the high-temperature reactors materials irradiation	127
	M. Oettingen, J. Cetnar Numerical modelling of modular high-temperature gas-cooled reactors with thorium fuel	133
	W. Żurkowski, P. Sawicki, W. Kubiński, P. Darnowski Application of genetic algorithms in optimization of SFR nuclear reactor design	139
	W. Kubiński, P. Darnowski, K. Chęć Optimization of the loading pattern of the PWR core using genetic algorithms and multi-purpose fitness function	147
	L. Fuks, A. Oszczak-Nowińska Sorption of selected radionuclides from liquid radioactive waste by sorbents of biological origin: The alkaline earth alginates	153
	P. Śliż-Szpytna, M. Lankosz, J. Dudała, D. Adamek, E. Radwanska, B. Kwinta, M. Jakšić, I. Božičević Mihalić, G. Provatas Sub-cellular elemental imaging of human muscle tissues affected by neuromuscular diseases	159
	K. Dziarabina, U. Pinaeva, S. Kadłubowski, P. Ulański, X. Coqueret Radiolytic synthesis of gold nanoparticles in HEMA-based hydrogels: Potentialities for imaging nanocomposites	165
	B. P. Rurarz, N. Gibka, M. Bukowczyk, S. Kadłubowski, P. Ulański Radiation synthesis of poly(acrylic acid) nanogels for drug delivery applications – post-synthesis product colloidal stability	179

	W. Głuszewski GC investigation of post-irradiation oxidation phenomena on polypropylene	187
	Y. Sun, A. G. Chmielewski, A. Pawelec, G. Mattausch, T. Torims Organic pollutant removal from marine diesel engine off-gases under electron beam and hybrid electron beam and wet scrubbing process	193
	A. Bojanowska-Czajka Decomposition of diclofenac in sewage from municipal wastewater treatment plant using ionizing radiation	201
	M. Fülöp, A. Šagátová, I. Benkovský, K. Prokes, L. Foltinova Combination of methods of thermal and radiation treatment of sediments associated with PCBs – the Delor type	207
	A. G. Chmielewski, M. Sudlitz, B. Han, S. D. Pillai Electron beam technology for biogas and biofertilizer generation at municipal resource recovery facilities	213
	S. Mašić, I. Vujčić Effect of gamma irradiation on microbiological and nutritional properties of the freeze-dried berries	221
TECHNICAL NOTE	A. Pawelec, A. G. Chmielewski, Y. Sun, S. Bulka, T. Torims, G. Pikurs, G. Mattausch Plasma technology to remove NO _x from off-gases	227
