

CONTENTS

Review Papers

Ways of Improving Stability of Thick-Film Resistors by S. Nowak, M. Cieź, B. Dziurdzia	5
Thick Film Sensors by A. Dziedzic, L. J. Golonka	13

New Materials and Technologies

Deposition Thick Film Patterns of the High-Tc Superconducting Bi-Sr-Ca-Cu-O on Ceramic Substrates by K. Przybylski, M. Wierzbicka, J. Koprowski	25
Synthesis of High-Tc Y-Ba-Cu-O and Bi-Sr-Ca-Cu-O Superconductors by Sol-Gel Techniques by T. Brylewski, J. Koprowski, J. Obłakowski, K. Przybylski	31
Some Properties of Carbon Black/Polyesterimide and Electrode Carbon/Polyesterimide Thick Films by H. Czarczyńska, A. Dziedzic, B. W. Licznarski	35
Spacial Distribution of Components in Polymer Resistive Layers by M. Łukaszewicz, H. Czarczyńska	39
Polymeric Pastes for Soft Switches by E. Zwierkowska, L. Darżynkiewicz, M. Jakubowska S. Achmatowicz	43
Application Tests of Copper Paste Fired in Nitrogen Atmosphere by M. Jakubowska, D. Szymański, E. Zwierkowska, S. Achmatowicz	47
3 μ m Thick Film Conductor by Z. Sita	51
X-Ray Diffraction Analysis of Ni-P Resistive Layer by H. Krztoń, Z. Pruszkowski, Z. Specjał	55
Use of Resistance Welding for Adherence of NiCr-Au Layers Evaluation by G. Beensh, A. Bochenek, L. Król-Stępniewska	59
Encapsulation Compounds Applied in Automotive Industry by T. Gruca, A. Kurzyna, A. Koszorek, Z. Pruszkowski, Z. Specjał	63
About the Possibilities of Using an Encapsulation Coating Z-1/90 for Hybrid Microcircuit Protection by A. Bochenek, B. Olszewska-Mateja, M. Kramkowska	67
Influence of Moisture on the Electrical Properties of Al ₂ O ₃ Microcapacitors by G. Beensh-Marchwicka, L. Król-Stępniewska	71
New Planetary Mount Improving Thickness Homogeneity of an Evaporated Thin Film by A. Synowiecki, G. Jarocho-Radomska	75

Diagnostic Methods and Quality

The High Resolution IR System by R.F. Szeloch, Z. Gumienny, R. Sołtysiak, R. Regeńczuk	79
Analysis of Thermally-Induced Failures of CMOS Chips in Hybrid Microcircuits by W. Janke, W.J. Stepowicz	83
Mutual Thermal Resistances Between Semiconductor Chips in Hybrid Microcircuits by W. Janke, A. Jurewicz	87
Medium Frequency Couplings Between Elements of Hybrid Microcircuits by W. Kalita, J. Potencki, D. Sperling	91
Investigations on Thick Film Capacitors by A. Szpytma, M. Drabicki	95
Miniature Thick Film Resistors for Microwave Purpose by J. Kalenik, M. Salamon	99
Long-Term Stability of Resistance and $1/f$ Noise of TFRs on Alumina and Glazed Metal Substrates by A. Szpytma, A. Marczak	103
Noise Response of RuO ₂ -based Thick Film Resistor to the Applied DC Power by K. Bobran	107
Computer Analysis of Glass Particle Size Influence on Electrical Properties of Thick Film Resistors by L.J. Golonka, B.W. Licznarski, A. Seweryn	111
Optical Characterization of Semiconductor Epitaxial Layers by S. Patela, E.B. Radojewska, J. Radojewski, A. Sankowska	115

Manufacturing

Thick Film Hybrid Productions: Improving Quality Through Automation by R. Coggins	119
Single Step Reflow Soldering and Cleaning for Surface Mount by M. Pethick	127
Chicago Laser System (the Company and it's Products) by R. Bancroft	137
Easily Trimmable Notch Filter with Exponentially Tapered Distributed RC Networks (DRC) by J. Potencki	141
S-Band Microstrip Isolator Based on Copper Paste P-801 by R. Frender, J. Gościński, H. Ostrowska	145

Sensors

Thick-Film Technique of Oxygen Sensors Manufacturing by J. Rzechuła, A. Jurewicz	149
Thick Film Dynamic Sensors - Theoretical Basis by S. Paszczyński, A. Wrona	155
Low Frequency Response of Thermal RMS Converters by T. Berlicki, S. Osadnik, E. Prociów	159
AUTHOR INDEX	163
