

Contents

<i>A review on commonly used adsorbents using to remove metal ions from wastewater</i> D. Bożejewicz.....	7
<i>Statistical investigations of methods for calculation of hydraulic friction factor in water distribution pipelines</i> M. Hirol, D. Kowalski, A. Girol, A. Hirol	25
<i>Problems of advanced nitrogen removal from municipal wastewaters in Kharkov (Ukraine)</i> V. Iurchenko, O. Brygada, O. Melnikova	44
<i>Selected methods of arsenic and mercury removal from wastewater – their advantages and limitations</i> M. A. Kaczorowska.....	58
<i>Study of the process of removing organic substances by systems of various ion exchangers with simultaneous production of deeply demineralized water</i> T. Kharebava, I. Bejanidze, N. Didmanidze, N. Davitadze, N. Nakashidze	77
<i>Environmental management and marketing tools for minimization of high carbon motor fuels pressure on water bodies caused by mining enterprises transport activity</i> O. Kofanov, O. Kofanova, V. Pohrebennyk	88
<i>Food Processing Wastewater Biological Treatment</i> V. Kovalchuk	123
<i>Obtaining compost for reclamation technologies of degraded areas with use of sewage sludge as a raw material</i> M. Malovanyy, I. Tymchuk, V. Zhuk, U. Storoshchuk, R. Grechanik, V. Sliusar, Ch. Soloviy, L. Onyshkevych	135
<i>Methods of hydrological and hydraulic modelling of the first flush of stormwater runoff from urban catchments: the analysis of Ukraine experience</i> M. Malovanyy, V. Zhuk, I. Tymchuk, I. Mysak, M. Pichler, D. Muschalla	150
<i>On the issue of sanitary and hygienic condition of the river network of the Pokutsko-Bukovynian Carpathians</i> Yu. Masikevych, A. Masikevych, M. Malovanyy	168
<i>Radon its occurrence and effects on various aspects of human life</i> M. Metryka-Telka, A. Dołhańczuk-Śródka, J. Gawdzik	182

<i>Prognosis models of surface water status</i>	
O. Mitryasova, V. Pohrebennyk, A. Shybanova, A. Nosyk	194
<i>Influence of green architecture and permeable pavements application on water balance of public utility facility catchment – modeling study</i>	
A. Musz-Pomorska, M. K. Widomski	208
<i>Study of enzymatic processing of organic waste from fat and oil production</i>	
O. Sagdeeva, G. Krusir, M. Malovanyy, V. Zakharchuk	224
<i>Development of reagents for removal of sediments from pipelines and equipment of water circulation systems and drainage systems</i>	
T. Shabliy, M. Gomelya, V. Pohrebennyk, O. Ivanenko, Yu. Nosachova	236
<i>Efficient treatment of industrial wastewater using immobilized microorganisms</i>	
L.A. Sabliy, V.S. Zhukova	248
<i>The impact of electrolytic pretreatment of aqueous media from an anthropogenic polluted resource on anaerobic activated sludge from wastewater treatment systems – a case study</i>	
V. Shtepa, Y. Chernysh, V. Chubur	263
<i>Synergy of ultrasound and advanced oxidation process "Peroxate" in decolorization of aqueous solution of thiazine dye methylene blue</i>	
Y. Sukhatskiy, O. Zin, Z. Znak	275
<i>Use of the glycerin fraction from biodiesel production in the process of sewage sludge fermentation</i>	
M. Sulewski	289
<i>Technological aspects of landfill reclamation using industrial waste</i>	
A. Titova, V. Shmandiy, O. Kharlamova, T. Rygas, M. Malovanyy	305
<i>Effect of stabilization treatment of water on the quality of its reverse osmotic desalination</i>	
I. Trus, M. Gomelya, V. Halysh, M. Skiba	324
<i>Review of the latest methods of reducing heavy metals from water and soil</i>	
K. Witt	338
<i>Monitoring and assessment of migration of toxic and radioactive wastewater pollution in ecosystems</i>	
I. Yeremeyev, A. Dychko	354
<i>Diversification of water intakes as an element of risk management in the water supply system</i>	
I. Zimoch, M. Grabuńczyk	376
