XXIV Sympozjum
Bezpieczeństwo w Pojazdach Samochodowych
XXIVth Symposium
Safety in Motor Vehicles

Jacek Kamiński, Janusz Pokorski:
In memoriam Professor Eugeniusz Kamiński..... 5

Zbigniew Lozia: Examples of authorial models for the simulation of motor vehicle
motion and dynamics 9

Jerzy Osiński: Decoupling equations - application of specific cases of damping
in the crash simulation 29

Przemysław Zagrodzki: Modal analysis of thermoelastic behavior of friction clutches
and brakes 39

Filip Dąbrowski, Mirosław Gidlewski: Right-angle collision of motor vehicles
participating in road traffic– comparative analysis of results of experimental
and model tests 49

* * *

Tomasz Aleksander Miś: The construction of the Ares II Martian rover’s running gear
(suspension) 63

Bronisław Kolator, Andrzej Olszewski: Influence of the pressure control of implement
linkage on the performance of a machine unit 77

Michał Mariusz Abramowski: Analysis of the possibility of using video recorder
for speed assessment of vehicle before the accident 87

Marcin K. Wojs, Piotr Orliński, Hubert Sar: Combustion process in bi-fuel engine
powered by propane and diesel fuel 99
