|---|-----|
| ICAO Annex 6 | 1 |
| Definitions | 1 |
| Applicability | 3 |
| General | 3 |
| OPS Regulations | 6 |
| OPS Subpart A - Applicability | 6 |
| OPS Subpart B - General | 6 |
| OPS Subpart C - Certification and monitoring of operators | 15 |
| OPS Subpart D - Operating procedures (except long-distance flights) | 18 |
| OPS Subpart E - All weather operations | 46 |
| OPS subpart K - Instruments and equipment | 57 |
| OPS Subpart L - Communication and navigation equipment | 76 |
| OPS Subpart M - Aeroplane maintenance | 79 |
| OPS Subpart N - Flight crew | 79 |
| OPS Subpart O - Cabin crew and other crew members | 89 |
| OPS subpart P - Manuals, logbooks and documentation | 91 |
| OPS Subpart Q - Flight duty and rest requirements | 97 |
| OPS Subpart R - Transport of dangerous goods | 101 |
| Long-Distance Flights | 110 |
| Flight management | 110 |
| Transoceanic and polar route flights | 115 |
| MNPS airspace | 121 |
| ETOPS | 131 |
| Operations Manual | 133 |
| Operational procedures | 133 |
| Type-related instructions and procedures | 136 |
| Icing Conditions | 138 |
| Ground de-icing and anti-icing | 138 |
| Procedure in the event of the deterioration of flight performance | 148 |
| Risk and Prevention of Bird Strikes | 152 |
| Noise Abatement | 155 |
| Noise abatement procedures | 155 |
| Influence of flight procedure (departure, cruise flight, approach) | 156 |
| Influence of the pilot (power settings and drag) | 158 |
| Fire and Smoke | 160 |
| Carburettor fire | 160 |
| Engine fire | 161 |
| Fire in the cabin, cockpit or cargo compartment | 161 |
| Smoke in the cockpit and cabin | 164 |
| Actions to be taken in the event of overheated brakes | 167 |
| Decompression of Pressurised Cabins | 169 |
| Gradual decompression | 169 |
| Rapid and explosive decompression | 171 |
| Hazards and required actions | 172 |
| Wind Shear and Microbursts | 174 |
| Influence and recognition during take-off and landing | 174 |
| Actions required to avoid flying into wind shear | 177 |

| | |
|--|-----|
| Wake Turbulence | 180 |
| Cause | 180 |
| Relevant parameters | 182 |
| Actions to be taken at intersections and during take-off and landing | 183 |
| Security (Unlawful Events) | 186 |
| ICAO Annex 17 | 186 |
| Use of SSR | 187 |
| OPS Subpart S - Security | 188 |
| Emergency and Precautionary Landings | 189 |
| Definition | 189 |
| Cause | 191 |
| Passenger information | 191 |
| Actions to be taken after ditching | 192 |
| Evacuation | 192 |
| Rapid Fuel Dumping | 194 |
| Safety aspects | 194 |
| Requirements | 195 |
| Carriage of Dangerous Goods | 196 |
| ICAO Annex 18 | 196 |
| Technical instructions (ICAO Doc 9284) | 198 |
| OPS Subpart R - Transport of dangerous goods by air | 202 |
| Contaminated Runways | 205 |
| Types of contamination | 205 |
| Estimated surface friction or friction coefficient | 206 |
| Hydroplaning | 208 |
| Procedure | 210 |
| SNOWTAM | 212 |
| Operations Affected by Meteorological Conditions | 215 |
| Whiteout, sand and dust | 215 |
| Mountain environments | 216 |
