Preface.....	xiii
About the Author	xvii
1. Introduction.....	1
1.1 Background.....	1
1.2 Transportation Systems Reliability and Safety Facts, Figures, and Examples	2
1.3 Terms and Definitions.....	3
1.4 Useful Sources for Obtaining Information on Transportation Systems Reliability and Safety.....	4
1.4.1 Organizations.....	5
1.4.2 Data Sources	5
1.4.3 Standards	6
1.4.4 Journals	7
1.4.5 Conference Proceedings	8
1.4.6 Books.....	8
1.5 Scope of the Book.....	9
References	10
2. Reliability and Safety Mathematics	13
2.1 Introduction.....	13
2.2 Arithmetic Mean, Mean Deviation, and Standard Deviation.....	13
2.2.1 Arithmetic Mean.....	14
2.2.2 Mean Deviation.....	14
2.2.3 Standard Deviation.....	15
2.3 Boolean Algebra Laws.....	16
2.4 Probability Definition and Properties.....	17
2.5 Useful Definitions.....	18
2.5.1 Cumulative Distribution Function.....	18
2.5.2 Probability Density Function.....	19
2.5.3 Expected Value.....	19
2.5.4 Variance.....	19
2.5.5 Laplace Transform	19
2.5.6 Laplace Transform: Final-Value Theorem	20
2.6 Probability Distributions	21
2.6.1 Binomial Distribution	22
2.6.2 Exponential Distribution	22
2.6.3 Rayleigh Distribution.....	23
2.6.4 Weibull Distribution.....	24

2.6.5	Normal Distribution.....	24
2.6.6	General Distribution.....	25
2.7	Solving First-Order Differential Equations Using Laplace Transforms	25
	References	28
3.	Reliability and Safety Basics	29
3.1	Introduction.....	29
3.2	Bathtub Hazard Rate Curve.....	29
3.3	General Reliability-Related Formulas.....	31
3.3.1	Failure (or Probability) Density Function.....	31
3.3.2	Hazard Rate Function	31
3.3.3	General Reliability Function	32
3.3.4	Mean Time to Failure	33
3.4	Reliability Networks.....	34
3.4.1	Series Network	34
3.4.2	Parallel Network	37
3.4.3	k -out-of- m Network.....	39
3.4.4	Standby System	41
3.4.5	Bridge Network.....	43
3.5	Occupational Stressors and Reasons for Occurrence of Human Error.....	44
3.6	Human Error Consequences and Classifications.....	45
3.7	Safety and Engineers.....	46
3.8	Product Hazard Categories, Common Mechanical Injuries, and Common Causes of Work Injuries	47
3.9	Accident Causation Theories.....	49
3.9.1	Domino Accident Causation Theory	49
3.9.2	Human Factors Accident Causation Theory	51
	References	52
4.	Methods for Performing Transportation System Reliability and Safety Analysis	55
4.1	Introduction.....	55
4.2	Failure Modes and Effect Analysis (FMEA)	55
4.2.1	Failure Mode Effects and Criticality Analysis (FMECA).....	56
4.3	Fault-Tree Analysis (FTA).....	58
4.3.1	Probability Evaluation of Fault Trees.....	60
4.3.2	Fault-Tree Analysis (FTA) Benefits and Drawbacks.....	62
4.4	Markov Method.....	63
4.5	Hazards and Operability Analysis (HAZOP)	66
4.6	Interface Safety Analysis	67
4.7	Preliminary Hazard Analysis (PHA).....	69
4.8	Job Safety Analysis	69

4.9	Technique of Operations Review (TOR).....	70
	References	71
5.	Transportation System Failures.....	73
5.1	Introduction	73
5.2	Mechanical Failure–Related Aviation Accidents.....	73
5.3	Vehicle Failure Classifications and Defects in Vehicle Parts	75
5.4	Rail Defects and Weld Failures.....	77
5.5	Mechanical Failure–Related Delays in Commuter Rail Service	78
5.6	Rail and Road Tanker Failure Modes and Failure Consequences	79
5.7	Ship Failures and Their Causes	80
5.8	Failures in Marine Environments and Microanalysis Techniques for Failure Investigation.....	81
5.8.1	Differential Scanning Calorimetry	82
5.8.2	Thermomechanical Analysis	82
5.8.3	Fourier Transform Infrared Spectroscopy	82
5.8.4	Thermogravimetric Analysis.....	82
5.9	Submarine Ship–Control System Performance Monitoring and Fault Localization Process and Benefits.....	83
	References	84
6.	Transportation System Reliability Modeling.....	87
6.1	Introduction	87
6.2	Model I.....	87
6.3	Model II	90
6.4	Model III	93
6.5	Model IV	96
6.6	Model V	98
6.7	Model VI.....	101
6.8	Model VII.....	103
6.9	Model VIII	106
6.10	Model IX	109
6.11	Model X	112
6.12	Model XI	114
	References	119
7.	Rail Safety.....	121
7.1	Introduction	121
7.2	Causes of Railway-Related Accidents and Incidents, and Examples of the Causes of Specific Rail Accidents	121
7.3	General Classifications of Rail Accidents by Effects and Causes	123
7.4	Rail Derailment Accidents and Incidents and Their Causes.....	124

7.5	Telescoping-Related Railway Accidents	125
7.6	Railway Accidents in Selected Countries	126
7.6.1	United Kingdom	126
7.6.2	Ireland	126
7.6.3	New Zealand	127
7.6.4	Australia.....	127
7.7	Railroad Tank Car Safety.....	128
7.8	Light-Rail Transit-System Safety-Related Issues	129
7.9	Methods for Performing Rail Safety Analysis.....	130
7.9.1	Fault-Tree Analysis	130
	References	133
8.	Truck and Bus Safety	135
8.1	Introduction	135
8.2	Top Truck and Bus Safety Issues	135
8.3	Truck Safety-Related Facts and Figures	136
8.4	Commonly Cited Truck Safety-Related Problems, Factors Associated with Heavy-Vehicle Accidents, and Safety Culture in the Trucking Industry	137
8.5	Safety-Related Truck Inspection Tips, Safety-Related Tips for Truck Drivers, and Recommendations for Improving Truck Safety	138
8.6	Bus and Coach Occupant Fatalities and Serious Injuries.....	140
8.7	Transit Bus Safety and Key Design-Related Safety Feature Areas	141
8.8	Vehicle Safety Data Sources	141
8.8.1	National Highway Traffic Safety Administration.....	142
8.8.2	National Transportation Safety Board (NTSB).....	142
8.8.3	Federal Highway Administration	143
8.8.4	University of Michigan Transportation Research Institute (UMTRI)	143
8.8.5	Insurance Industry	144
8.9	Motor Vehicle Traffic-Related Accidents in Selected Countries.....	144
	References	145
9.	Airline and Ship Safety	147
9.1	Introduction	147
9.2	United States Airline-Related Fatalities and Accident Rate.....	147
9.3	Aircraft Accidents during Flight Phases and Causes of Airplane Crashes.....	148
9.4	Worldwide Airline Accident Analysis	149
9.5	Air Safety-Related Regulatory Bodies and Their Responsibilities.....	150
9.5.1	Federal Aviation Administration Responsibilities	150

- 9.5.2 National Transportation Safety Board Responsibilities 150
 - 9.6 Aviation Recording and Reporting Systems..... 151
 - 9.6.1 Accident Incident Data System (AIDS) 152
 - 9.6.2 Aviation Safety Analysis System..... 152
 - 9.6.3 Air Transportation Oversight System (ATOS)..... 153
 - 9.6.4 Accident/Incident Reporting System..... 153
 - 9.6.5 Aviation Safety Reporting System 154
 - 9.6.6 ICAO ADREP System 154
 - 9.7 Noteworthy Marine Accidents..... 154
 - 9.7.1 *Estonia* Accident..... 155
 - 9.7.2 *Derbyshire* Accident..... 155
 - 9.7.3 *Prestige* Accident..... 155
 - 9.7.4 *Herald of Free Enterprise* Accident 155
 - 9.8 Ship Safety Assessment 156
 - 9.9 Ship Port-Related Hazards 157
 - 9.10 Global Maritime Distress Safety System (GMDSS)..... 158
 - References 159
- 10. Human Error in Rail and Road Transportation Systems 161
 - 10.1 Introduction 161
 - 10.2 Railway System Human Error–Related Facts, Figures, and Examples 161
 - 10.3 Railway Operation–Related Typical Human Error Occurrence Areas..... 162
 - 10.3.1 Train Speed 162
 - 10.3.2 Signal Passing..... 163
 - 10.3.3 Dispatching or Signaling..... 164
 - 10.4 Railway Personnel Error-Prone Tasks and Error-Contributing Factors in Railway Operations..... 164
 - 10.5 Checklist of Statements to Reduce Human Error in Railway Operations..... 165
 - 10.6 Road Transportation Systems Human Error–Related Facts and Figures 166
 - 10.7 Driver Error Classifications, Common Driver Errors, and Driver Error Ranking 167
 - 10.8 Operational Influences on the Performance of Commercial Drivers 168
 - 10.9 Bus Accidents and Bus Accident–Related Driver Errors in Selected Developing Countries..... 169
 - References 171
- 11. Human Error in Aviation and Sea Transportation Systems 173
 - 11.1 Introduction 173
 - 11.2 Aviation Transportation Systems..... 173

11.2.1	Human Error in Aviation: Facts, Figures, and Examples	173
11.2.2	Organizational Factors Related to Pilot Error in Commercial Aviation Accidents	174
11.2.3	Flight-Crew Decision Error Contributory Factors	176
11.2.4	Types of Pilot–Controller Communication Errors and Recommendations for Reducing Pilot–Controller Communication Errors	177
11.3	Sea Transportation Systems.....	178
11.3.1	Human Error in Marine Shipping: Facts, Figures, and Examples	178
11.3.2	Human Factors–Related Issues Facing the Marine Industrial Sector	179
11.3.3	Impact of Reduced Manning on Shipping System Reliability and Approaches for Increasing Reliability ...	180
11.3.4	Methods for Performing Risk Analysis in Marine Systems	181
	References	182
	Bibliography: Literature on the Reliability and Safety of Transportation Systems	187
	Index	211
