

CONTENTS

1. Introduction.....	1
1.1 Background.....	1
1.2 Fundamental Concepts.....	2
1.3 Stakeholders.....	3
1.4 Evaluation criteria	4
1.5 City logistics schemes.....	5
1.6 Modelling.....	8
1.7 Systems approach	9
2. Modelling City Logistics	17
2.1 A Modelling framework	17
2.2 The model development process.....	22
2.3 Mathematical programming.....	27
2.4 Optimisation.....	28
2.5 Simulation.....	29
2.6 Meta-Heuristic techniques	32
2.7 Modelling actors' perceptions	36
3. City Logistics with ITS	49
3.1 Fundamental concepts.....	49
3.2 Data acquisition	50
3.3 Data processing.....	54
3.4 Information Dissemination	56
3.5 Geographic information systems	60
3.6 Effects of e-commerce	61
3.7 Current ITS applications	62
3.8 Evaluation issues.....	64
4. Demand and supply models	67
4.1 Overviews	67
4.2 Generation.....	68
4.3 Distribution	71
4.4 Mode split	73
4.5 Assignment	74
4.6 Simulation models	77
4.7 Travel times.....	78

4.8 Generalised costs	82
5. Impact models	85
5.1 Overview.....	85
5.2 Social and economic models.....	85
5.3 Environmental models	86
5.4 Financial models	92
5.5 Energy consumption models.....	96
5.6 Case study (The new underground freight transport system for Tokyo).....	100
6. Vehicle routing and scheduling	111
6.1 Overview.....	111
6.2 Travelling salesman problems	111
6.3 Vehicle routing and scheduling with time windows	114
6.4 Vehicle routing and scheduling with time windows and traffic simulation	123
7. Vehicle routing and scheduling with ITS	137
7.1 Overview.....	137
7.2 Probabilistic vehicle routing and scheduling with time windows	137
7.3 Probabilistic vehicle routing and scheduling with time windows and traffic simulation	152
7.4 Dynamic vehicle routing and scheduling with real time information.....	169
8. Location of logistics terminals.....	175
8.1 Overview.....	175
8.2 Size.....	176
8.3 Location	182
8.4 Location with traffic assignment.....	184
8.5 Multi-objective optimisation.....	199
9. Future perspectives	203
9.1 Systems view and future developments	203
9.2 Intermodal transport systems	207
9.3 Underground freight transport systems.....	218
9.4 Virtual freight companies.....	226
