

Proceedings of the 20th National Conference
on Superconductivity “New Phases, Concepts and Advances”,
Lublin, Poland, May 22–26, 2022

I. Abaloszewa, M.Z. Cieplak, A. Abaloszew <i>Thermomagnetic Instabilities in Nb Films Deposited on Glass Substrates</i>	123
S.M. Altanany, I. Zajcewa, R. Minikayev, M.Z. Cieplak <i>Berezinskii–Kosterlitz–Thouless Transition in Ultrathin Niobium Films</i>	129
A. Malinowski, V.L. Bezusyy, P. Nowicki <i>Ni-Driven Evolution of Pseudogap and Superconducting Gap in Underdoped Cuprate</i>	134
J. Barański, K.J. Kapcia <i>Dynamics of Fano-Like Resonances in Double-Quantum-Dot Systems</i>	143
E.A. Drzazga-Szczeńiak, A.Z. Kaczmarek <i>Critical Field and Specific Heat in Electron- and Hole-Doped Graphene Superconductors</i>	148
A.Z. Kaczmarek, E.A. Drzazga-Szczeńiak <i>Superconducting Energy Gap in Hole-Doped Graphene Beyond the Migdal’s Theory</i>	153
A. Krzywicka, T.P. Polak <i>Pairing Mechanism at Finite Temperatures in Bosonic Systems</i>	157
K. Wrześniewski <i>Dynamics of Superconducting Correlations Induced by Hopping in Serial Double Quantum Dot System</i>	160
S. Basak, A. Ptok <i>Majorana Bound States in the Presence of Half-Smeared Potential</i>	164
J. Spałek <i>Brief Perspective of High-Temperature Superconductivity in the Cuprates: Strong Correlations Combined with Supereexchange Match Experiment</i>	169
M. Fidrysiak <i>Electron–Hole Asymmetry of Quantum Collective Excitations in High-T_c Copper Oxides</i>	180
M. Hendzel, J. Spałek <i>Degree of Atomicity in the Chemical Bonding: Why Return to the H_2 Molecule?</i>	189
S. Basak, A. Ptok <i>Termination Dependence of the Surface States in Pb_2Pd</i>	195
T. Plienbumrung, M. Daghofer, M.T. Schmid, A.M. Oleś <i>Hubbard Subbands and Superconductivity in the Infinite-Layer Nickelate</i>	200
K.P. Wójcik, P. Majek <i>Majorana Coupling and Kondo Screening of Localized Spins</i>	207
R.J. Radwański <i>Quantum Atomistic Solid-State Theory: $CeRh_2Si_2$, K_2CoF_4, $LaCoO_3$, Sr_2VO_4, Ba_2IrO_4 and Sr_2RuO_4</i>	211
