

Contents

Foreword, by J. Harry DuBois	iii
Preface	v
Section I	1
1. Introduction, John V. Milewski and Harry S. Katz	3
Section II Guide to the Selection and Usage of Fillers and Reinforcements	9
2. Principles of Filler Selection and Use, Thomas H. Ferrigno	11
3. Concise Fundamentals of Fiber Reinforced Composites, Harry S. Katz	59
4. Packing Concepts in the Utilization of Filler and Reinforcement Combinations, John V. Milewski	66
Section III Mineral Fillers	79
5. Calcium Carbonate, Paul Kummer and George Crowe	81
6. Kaolin, Hydrous and Anhydrous, Thomas H. Ferrigno and Michael Taranto	119
7. Feldspar and Nepheline Fillers, Thomas H. Ferrigno	127
8. Silica Fillers, Extenders, and Reinforcements, James E. Moreland	136
9. Talc, Joseph A. Radosta and Nikhil C. Trivedi	160
10. Miscellaneous Mineral Fillers, Benjamin M. Walker	172
Section IV Metallic, Conductive, and Magnetic Fillers	183
11. Metal Fillers, John Delmonte	185
12. Magnetic Fillers, Zoltan E. Kerekes	205
Section V Fire Retardants	217
13. Antimony Oxide, H. H. Waddell and Irving Touval	219
14. Alumina Trihydrate, E. A. Woycheshin and I. Sobolev	237
15. Miscellaneous Flame Retardants, John V. Milewski and Harry S. Katz	250
Section VI Organic and Special Purpose Fillers	275
16. Carbon Black, Errol J. Queen	277
17. Organic Fillers, Benjamin M. Walker	292

Section VII Spherical Fillers	299
18. Solid Spherical Fillers, Bob Ryan and Barbara Tardy	301
19. Hollow Spherical Fillers, Bob Ryan and Barbara Tardy	317
Section VIII Flake Reinforcements	331
20. High Aspect Ratio Mica and Other Flake Reinforcements, R. T. Woodhams and M. Xanthos	333
Section IX Ribbon Reinforcements	371
21. Ribbon Reinforcements, S. T. Gulati	373
Section X Short Fiber Reinforcements	403
22. Wollastonite, L. W. Choate	405
23. Asbestos, J. W. Axelson	415
24. Micro and Short Fibers, John V. Milewski	428
25. Whiskers, John V. Milewski and Harry S. Katz	446
Section XI Continuous Filament Reinforcements	465
26. Fiber Glass, J. Gilbert Mohr	467
26A. Basalt Fibers, R. V. Subramanian and H. F. Austin	504
27. High Modulus Organic Fibers, D. L. G. Sturgeon and R. I. Lacy	511
28. Boron Filaments, Val Krukoni	545
29. Carbon-Graphite Filaments, Harry S. Katz	562
30. Aluminum Oxide and Other Ceramic Filaments, John V. Milewski	583
31. Metal Filaments, John A. Roberts	597
Section XII	617
32. Procedures, Equipment and Utilization Technology, Benjamin M. Walker	619
Section XIII	
Appendix: Metric Conversion Tables, Harry S. Katz and Harold E. Brandmaier	635
Index	643
