

Contents: volume 1

<i>Sir Alec Westley Skempton: a biographical memoir</i>	
<i>R.J. Chandler (reprinted with permission of the Royal Society of London)</i>	ix

Conference perspectives

The making of the Skempton Archive	
A. Barrett	3
Mangla revisited	
N. Ambraseys	9
Birth of theory	
R. B. Peck	12
Reflections on Skempton's contribution to the study of slopes	
N. R. Morgenstern	14
Alec W. Skempton and Laurits Bjerrum. A long-time friendship between Imperial College and NGI	
S. Lacasse and K. Høeg	18
Skempton's contribution to engineering geology, particularly of the quaternary	
J. N. Hutchinson and P. G. Fookes	25
Dirigés par des phares: some thoughts on the historical work of Professor Sir Alec Skempton	
M. Chrimes	36

Keynote papers

Geotechnical characterisation of soils and rocks: a geological perspective	
R.J. Chandler, M. H. de Freitas and P. Marinos	67
Developments in understanding soil behaviour	
R. J. Jardine, A. Gens, D. W. Hight and M. R. Coop	103
Load carrying capacity of foundations	
M. F. Randolph, M. B. Jamiolkowski and L. Zdravković	207
Then and now: some comments on the design and analysis of slopes and embankments	
P. R. Vaughan, N. Kovacevic and D. M. Potts	241
Ground performance and building response due to tunnelling	
J. B. Burland, R. J. Mair and J. R. Standing	291

1. Soil behaviour, characterisation and modelling

Long-term effect of secondary consolidation on consolidation settlement of marine clays	
H. Aboshi	345
The mechanical behaviour of normally consolidated tills with reference to their structure	
M. P. Barański	357
A hollow cylinder apparatus to study the cyclic loading behaviour of dry granular material	
S. F. Brown and I. R. Richardson	369
Design parameters for a cohesive soil from laboratory tests	
A. Cavallaro, M. Maugeri and A. Ragusa	381
The effect of particle shape on the behaviour of gold tailings	
C. R. I. Clayton, M. Theron and N. J. Vermeulen	393
Prediction of the mechanical behaviour of Mexico City clay: preconsolidated undrained case	
R. Rivera-Constantino, E. Juárez-Badillo and R. Villa-Escobar	405
A geological and geotechnical characterisation of the loess of northern France	
Y.-J. Cui, D. Marcial, J.-M. Terpereau, P. Delage, G. Marchadier, P. Antoine and W.-M. Ye	417
A comparative study between liquefaction and instability of sand	
A. Eliadorani	429
An investigation of the mechanisms which control soil behaviour at fast rates of displacement	
R. E. Fearon, R. J. Chandler and J. J. Bommer	441
Laboratory measurement of the permeability of Oxford Clay assisted by a self-boring device	
C. C. Hird and S. Srisakthivel	453
Influence of cement type on G_0 of a carbonate sand	
M. Ismail, C. Ferreira and M. Fahey	464
Anisotropy and destructuration of Murro clay	
M. Karstunen and M. Koskinen	476
Inherent anisotropic stiffness of decomposed tuff and alluvium	
E. H. Y. Leung and C. W. W. Ng	488
Evaluation of the Sydney Soil Model	
M. D. Liu and J. P. Carter	498
Shear behaviour of pre-existing shear zones under fast loading	
L. J. L. Lemos and P. Vaughan	510

Relationship between clay mineralogy and residual shear strength through the model based on shearing mechanism of soil H. Marui and B. Tiwari	522
Shear resistance of Biotite-Schist: Peak and post-peak behaviour F. S. de Mello, G. R. Sadowski and C. M. Nieble	535
Measurement of strain rate effects on dynamic soil properties J. Meng and G. J. Rix	545
The induced anisotropy of Leighton Buzzard sand P. J. Naughton and B. C. O'Kelly	556
Geotechnical properties of British estuarine clays: towards a geological framework M. A. Paul, B. F. Barras and J. E. Mein	568
Mechanical behaviour of highly fissured sheared clay shales L. Picarelli and L. Olivares	580
Electro-hydrodynamic transport in porous materials P. Pivonka and D. Smith	592
Soil behaviour: the role of particle shape J. C. Santamarina and G. C. Cho	604
Shear strength of undisturbed samples of weathered pumice soils M. Shimizu	618
The structure of soil G. Sills, G. Bartholomeeusen, M. Harbottle, G. Lear and D. G. Lintern	630
The influence of fines on the dynamic properties of sands T. Tika, P. Kallioglou, A. Papadopoulou and K. Pitilakis	642
Combined SEM and computerized image analysis of clay soils microstructure: technique & application J. Trzciński	654
Influence of Sodium Chloride on index properties and residual shear strength of natural soil and pure minerals G. R. Tuladhar, H. Marui and B. Tiwari	667
