Preface..... ix

Editors xi

Contributors xiii

Chapter 1 Building Smart Cities and Smarter Data Centers for the
21st-Century Global Citizen: A Brief Study 1

Luke Gerard Christie and Ralph Thangaraj

Chapter 2 Big Data for SMART Sensor and Intelligent Electronic
Devices – Building Application 11

*Mohammad Zand, Morteza Azimi Nasab,
Sanjeevikumar Padmanaban, and Mohammad Khoobani*

Chapter 3 IoT-Based Condition Monitoring and Automatic Control of
Rotating Machines 29

*Rubia Ramesh Kumar, Saloni Sharma, Priyank Mehra,
V. Berlin Hency, and O.V. Gnana Swathika*

Chapter 4 Design of CNTFET-Based Ternary Processor for IoT Devices 41

Vidhi Choudhary and Reena Monica P

Chapter 5 IoT-Based Smart Buildings 57

Swetha KK, Karthik G, V. Berlin Hency, and O.V. Gnana Swathika

Chapter 6 Benefits of Smart Buildings 77

Prasanna Venkatesh S, R. Ramesh, and C.T. Chidambaram

Chapter 7 An Approach to Realize Luxury Transit Residential Tower
Aided with State-of-the-Art Automation Technologies 85

*O.V. Gnana Swathika, K. Karthikeyan, Vaishnavi Chirravuri,
and K.T.M.U. Hemapala*

Chapter 8 ANN-Based Overcurrent Relay Using the Levenberg–
Marquardt Algorithm for Smart Cities..... 113

Aayush Sharma, O.V. Gnana Swathika, and V. Berlin Hency

Chapter 9	A Neural Network–Based Vector Control Scheme for Regenerative Converters to Use in Elevator Systems.....	129
	<i>K.T.M.U. Hemapala, Suren Senadheera Wewalage, and O.V. Gnana Swathika</i>	
Chapter 10	Protection in Smart Building: Mini Review	159
	<i>P. Tejaswi and O.V. Gnana Swathika</i>	
Chapter 11	A Review of Bio-Inspired Computational Intelligence Algorithms in Electricity Load Forecasting.....	169
	<i>Siva Sankari Subbiah and Jayakumar Chinnappan</i>	
Chapter 12	Arduino-Based Fault Detection Schemes for DC Microgrids	193
	<i>Faazila Fathima S and Premalatha L</i>	
Chapter 13	Characterizing Voltage-Dependent Loads and Frequency-Dependent Loads for Load Stability Analysis	207
	<i>G Naveen Kumar</i>	
Chapter 14	Enabling Technologies for Smart Buildings: High Power Density Power Electronic Converters	217
	<i>M Mahesh, K Vinoth Kumar, and M Prabhakar</i>	
Chapter 15	Benefits of Smart Meters in Institutional Building – A Case Study	229
	<i>A.C. Vishnu Dharssini, S. Charles Raja, and T. Karthick</i>	
Chapter 16	Placement of Distributed Generation (DG) and Reconfiguration in Radial Distribution Systems – A Review in View of the Smart Building Concept.....	237
	<i>S. Angalaeswari and K. Jamuna</i>	
Chapter 17	Photovoltaic System-Integrated Smart Buildings: A Mini Review...	255
	<i>Aadyasha Patel and O.V. Gnana Swathika</i>	
Chapter 18	Design of a Hybrid Photovoltaic and Battery Energy Storage System Using HOMER Software.....	275
	<i>J. Nishanthi, S. Charles Raja, and J. Jeslin Drusila Nesamalar</i>	

Chapter 19 AI Applications to Renewable Energy – An Analysis 283
G Naveen Kumar and O.V. Gnana Swathika

Chapter 20 Development of UAV-Based Aerial Observation Platform to
Monitor Medium-Voltage Networks in Urban Areas 293
*K.T.M.U. Hemapala, D.H. Ranasinghe, and
O.V. Gnana Swathika*

Appendix 1 343
