Jan Dzierżek and Robert Janiszewski

Professor Leszek Lindner – scientific profile and achievements 263

Jan Dzierżek and Bogusz Kulus

Evolution of Professor Leszek Lindner's ideas on the Quaternary
stratigraphy of Poland 289

Leszek Marks

Quaternary stratigraphy of Poland – current status 307

Krzysztof Bińka, Marcin Szymanek and Jerzy Nitychoruk

Climate and vegetation changes recorded in the post Holsteinian
lake deposits at Ossówka (eastern Poland) 341

*Kamil Kultys, Joanna Mirosław-Grabowska, Abdelfattah Zalat, Anna Hrynowiecka,
Karolina Łabęcka, Sławomir Terpilowski, Marcin Żarski and Irena Agnieszka Pidek*

A palaeohydrological record of a complete Eemian series from Żabieniec Ża-19
(Garwolin Plain, Central Poland) with reference to palaeoclimate data 355

*Krzysztof Stefaniak, Oleksandr Kovalchuk, Adrian Marciszak, Artur Sobczyk
and Paweł Socha*

Environmental conditions across Poland during the Eemian Interglacial
reconstructed from vertebrate remains 379

Mirosława Kupryjanowicz, Magdalena Filoc, Edyta Żuk-Kempa and Marcin Żarski

Are several profiles better than one? Multi-profile palynological study
of the Eemian lacustrine sediments at the Wola Starogrodzka site
(Garwolin Plain, Central Poland) 411

Maciej T. Krajcarz

Pre-LGM loess deposits in caves of Polish Jura – occurrence and
stratigraphic importance. 433

Andrij Yatcyshyn and Piotr Gębica

Development of the alluvial fan of the Stryi River and its Late Glacial
incision in the foreland of the Eastern Carpathians (Western Ukraine) 453

*Joanna Mirosław-Grabowska, Edyta Zawisza, Milena Obremska,
Joanna Kowalczyk, Łukasz Zbucki and Kazimierz Tobolski*

Human impact recorded in lake environment (Charzykowskie Lake, N Poland)
during the last 6,200 years 467
