Acknowledgments.....	ix
Preface	xi
Contributors	xiii

SECTION 1 *Introductory Perspective* 1

Chapter 1 General Radiography in the Contemporary Setting 3
Christopher M. Hayre

SECTION 2 Image Acquisition and Dose Optimization 7

Chapter 2 Digital Receptors 9
Kevin McHugh

Chapter 3 Image Enhancement..... 33
Kevin McHugh

Chapter 4 Dose Creep in Digital Radiography 59
Rob Davidson

Chapter 5 Exposure Indicators: Black, White, or Shades of Grey 71
Shantel Lewis

SECTION 3 Patient Care and Considerations 95

Chapter 6 Patient-Centered Care and Considerations 97
Emma Hyde and Maryann Hardy

Chapter 7	The Frequently Forgotten Pediatrics: Their Safety in the Clinical Setting	113
	<i>Chandra Makanjee</i>	
Chapter 8	Patient Care: 'It's Just not for Me, It is for Everybody'	137
	<i>Chandra Makanjee, Deon Xu and Drishti Sarswat</i>	
Chapter 9	General Radiography in the Critical Care and Trauma Environment	157
	<i>Tom Campbell-Adams</i>	
Chapter 10	Pediatric Imaging in General Radiography: Reflections of Practice	171
	<i>Allen Corral and Joanna Fairhurst</i>	
SECTION 4	<i>Learning, Teaching, and Education</i>	193
Chapter 11	Simulated Practice: An Alternative Reality	195
	<i>Naomi Shiner</i>	
Chapter 12	Education Matters in Radiography	219
	<i>Iain MacDonald</i>	
Chapter 13	Educational Perspectives in Radiography	233
	<i>Julie A. Hendry</i>
