CONTENTS

Application of the Impulse Response Method in the Test of Acoustic

Properties of Acoustic Materials

1. Janusz PIECHOWICZ Application of the Impulse Response Method in the Test of Acoustic Properties of Building Materials.....	2021201
2. Joanna Maria KOPANIA, Grzegorz BOGUSŁAWSKI Noise Emission From Various Shape Rods at Low-moderate Reynolds Number.....	2021202
3. Wojciech BINEK, Aleksandra CHOJAK, Tadeusz KAMISIŃSKI The Impact of the Sound Reflection Model on the Ray Tracing Simulation Variability	2021203
4. Agnieszka WIELGUS, Bogusław SZLACHETKO A Simulation of Thinning of Microphone Array in Near-field Broadband Beamformers.....	2021204
5. Dominik MLECZKO Using MLS Methods in Laboratory Measurement of Airborne Sound Insulation	2021205
6. Katarzyna SUDER-DĘBSKA, Ireneusz CZAJKA, Paweł ŁOJEK Determining of the Sound Power of the Fan in In Situ Conditions Using the Virtual Reference Source Method	2021206
7. Jarosław RUBACHA Sound Diffuser Made of Acoustic Metamaterial: Numerical and Experimental Investigation...	2021207
8. Agnieszka LENARTOWICZ, Michał GUMINIAK, Maciej PRZYCHODZKI Free Vibrations of Kirchhoff Plates Considering Plate Variable Thickness and Interaction with Water Including Water Boundaries.....	2021208
9. Filip SARBINOWSKI, Roman STAROSTA Assessment of the Role of Structural Nonlinearity in Galloping Energy Harvesters	2021209
10. Tomasz WALCZAK, Martyna SOPA, Adam M. POGORZAŁA Application of Artificial Neural Networks in Fall Prediction	2021210
11. Paweł MIKOŁAJCZAK, Jan MIKOŁAJCZAK, Sławomir WERZBICKI Detection of Structural Damage of Technical Objects with the Use of Multidimensional Analysis.....	2021211
12. Marek S. KOZIEN Influence of the Variability of the Shape of Short Axisymmetric Rods on the Value of Basic Natural Frequency of Longitudinal Vibrations	2021212
13. Anna SYGULSKA Educating of Architectural Students in Acoustics as an Answer to the Reverberant Noise Standard	2021213
14. Piotr STARONIEWICZ Effect of Sleepiness in the Voice on Speaker Recognition Performance	2021214
15. Stefan BRACHMAŃSKI, Andrzej DOBRUCKI Impact of the Level of Noise and Echo on the Reaction Time of Listeners in the Perception of Logatoms.....	2021215
16. Magda KAŻMIERCZAK-SOBIŃSKA, Jarosław JĘDRYSIAK Free Vibrations of Microstructured Functionally Graded Plate Band with Clamped Edges.....	2021216
