

Volume 33, No. 1, 2022

ISSN 0860-6897

VIBRATIONS IN PHYSICAL SYSTEMS

CONTENTS

1. Bartłomiej CHOJNACKI Numerical Directivity Simulations Of Speaker Arrays For Omnidirectional Sound Source Quality Assessment.....	2022101
2. Agata SZELAĞ, Katarzyna BARUCH-MAZUR, Krzysztof BRAWATA Systems Modifying the Acoustic Properties of Room Furnishings.....	2022102
3. Marcjanna CZAPLA, Tadeusz WSZOŁEK Analysis of Factors Influencing the Measurement Result of the Reverberant Sound Absorption Coefficient Under Laboratory Conditions.....	2022103
4. Dawid ROMIK Numerical Investigation of Noise Generated by an Axial Fan Installed in a Pipeline	2022104
5. Katarzyna SOBKOWICZ, Maciej OBST, Dariusz KURPISZ, Sebastian GLOWINSKI Experimental and Analytical Approaches to the Mechanical Resistance of Moped Tire Under Impact.....	2022105
6. Michael HAVERKAMP Role of the Iconicity of Sound Within the Multisensory Environment	2022106
7. Piotr SZYMAŃSKI, Tomasz POREMSKI, Bożena KOSTEK Pursuing Analytically the Influence of Hearing Aid Use on Auditory Perception in Various Acoustic Situations.....	2022107
8. Massimiliano MASULLO, Luigi MAFFEI The Multidisciplinary Integration of Knowledge, Approaches and Tools: Toward the Sensory Human Experience Centres.....	2022108
9. Nadja SCHINKEL-BIELEFELD, Zu Xuan LEE, Khine CHO CHO THEIN, Jennifer MARTIN, Sonia STASIAK On the Feasibility of Assessing Social Situations Using Ecological Momentary Assessment – A Comparison Between Singapore and German Test Participants	2022109
10. Jian LI, Luigi MAFFEI, Aniello PASCALE, Massimiliano MASULLO Effects of the Spatialisation of Water-Sounds Sequences on the Perception of Traffic Noise ...	2022110
11. Andrzej DOBRUCKI, Maurycy KIN, Maciej WALCZYŃSKI Quality Assessment of Speech Signals Under a Process of Echo Cancellation in Telecommunications Systems	2022111
12. Anne HEIMES, Ming YANG, Michael VORLÄNDER Virtual Reality Environments for Soundscape Research.....	2022112
13. Nitin SATPUTE, Marek IWANIEC, Ramesh NARINA, Sarika SATPUTE Investigation of Mechanical Motion Amplification for Vibration Energy Harvesting	2022113
14. Iwona KOCHAŃSKA Erratum: A New Direct-Sequence Spread Spectrum Signal Detection Method for Underwater Acoustic Communications in Shallow-Water Channel.....	2022114

Volume 33, No. 2, 2022

ISSN 0860-6897

VIBRATIONS IN PHYSICAL SYSTEMS

CONTENTS

1. Bartłomiej CHOJNACKI Miniature Omnidirectional Sound Sources Used in Acoustic Scale Modeling – Measurements and Validation.....	2022201
2. Jan FELCYN, Michał RASZEWSKI Enhancing Speech Signals Based on an MEMS Microphone Array and Temporal Differences in the Incoming Signal.....	2022202
3. Piotr STARONIEWICZ Recognition of Speaker's Age Group and Gender for a Large Database of Telephone-Recorded Voices.....	2022203
4. Łukasz GORAZD Application of the Scattering Matrix Method to Evaluate Acoustic Mufflers Properties	2022204
5. Mirosław MEISSNER, Tomasz G. ZIELIŃSKI Analysis of Sound Absorption Performance of Acoustic Absorbers Made of Fibrous Materials	2022205
6. Marek PLUTA Simulation of Infeasible Instruments in a Sound Synthesizer – Implementation and Control	2022206
7. Julia IDCZAK, Jarosław RUBACHA, Tadeusz KAMISIŃSKI Vibration Transmission Analysis Through Mounting Elements of Wall Cladding Panels	2022207
8. Michał BUKAŁA, Artur NOWOŚWIAT, Andrzej CHYLA Initial Assumptions for the System of Automatic Detection and Classification of Aircraft Noise Events	2022208
9. Adam BRAŃSKI, Lucjan JANAS, Edyta PRĘDKA, Rafał KLICH, Daniel SZYNAL Project of Acoustic Adaptation of the Church with a Long Reverberation Time	2022209
10. Jarosław RUBACHA Analysis of the Possibility of Shaping the Sound Diffusion Coefficient of Diffusers Based on Acoustic Metamaterials	2022210
11. Aleksandra CHOJAK Experimental Verification of Similarity Criteria for Sound Absorption of Simple Metamaterials	2022211
12. Kamil WÓJCIAK, Joanna Maria KOPANIA Correlation Between the Shape of Substitution Ducts and Insertion Loss of Silencers.....	2022212
13. Michał BUJACZ, Piotr SKULIMOWSKI, Aleksandra KRÓLAK, Bartłomiej SZTYLER, Paweł STRUMIŁŁO Comparison of Echolocation Abilities of Blind and Normally Sighted Humans using Different Source Sounds	2022213
14. Amaia SAGASTI, Agnieszka Paula PIETRZAK, Ricardo SAN MARTIN, Rubén EGUINO Localization of Sound Sources in Binaural Reproduction of First and Third Order Ambisonics.....	2022214
15. Marcin LEWANDOWSKI, Salomea GRODZICKA EMD-Based Time-Frequency Analysis Methods of Non-Stationary Audio Signals.....	2022215

Volume 33, No. 3, 2022

ISSN 0860-6897

VIBRATIONS IN PHYSICAL SYSTEMS

CONTENTS

1. Paweł ŁOJEK, Ireneusz CZAJKA Impact of Cavity Edges Shape on Aerodynamic Noise.....	2022301
2. Mateusz KUCHARSKI Lossy Coding Impact on Speech Recognition with Convolutional Neural Networks.....	2022302
3. Roman TROJANOWSKI, Jerzy WICIAK Piezoelectric Square Based Sensor-actuator Hybrid in Vibration Reduction	2022303
4. Dariusz BISMOR Leaky Partial Updates to Control a Real Device Casing.....	2022304
5. Romuald KURAS Influence of the PZT Actuator Asymmetry on the LQR Control Parameters in the Active Reduction Vibrations of Beams.....	2022305
6. Paweł DZIECHCIŃSKI Effect of Highpass Filtering on the Speech Transmission Index	2022306
7. Katarzyna KOTARBA GFCC-based x-vectors for Reinke's Edema Detection.....	2022307
8. Lech KILIAN, Aleksander SCHMIDT, Mariusz RUDNICKI Conditions for Multiple Acquisition of Echoes from Stationary Tar-gets in Successive Transmissions of Active Sonars	2022308
9. Romuald BOLEJKO, Przemysław PLASKOTA, Andrzej B. DOBRUCKI, Krzysztof PRUC Design of the Test Facility for the Measurement of Sound Silencers.....	2022309
10. Jan FELCYN, Anna PREIS, Robert GOGOL Evaluation of Annoyance Due to Wind Turbine Noise Based on Pre-learned Patterns	2022310
11. Artur FLACH Research on the Influence of Airflow Resistance of Layered Porous Structures on the Sound Absorption Coefficient	2022311
12. Maciej JASIŃSKI, Jan ŻERA Application of an Ambisonic Microphone for the Measurements of Room Acoustic Parameters	2022312
13. Joanna Maria KOPANIA, Grzegorz BOGUSŁAWSKI, Kamil WÓJCIAK, Patryk GAJ Aeroacoustical Study of the Serrated Ventilation Dampers	2022313
14. Klara CHOJNACKA, Aleksander KRAS, Tadeusz KAMISIŃSKI Sound Transmission Loss Calculation for Metamaterial Plate Using Combined Analytical and Numerical Approach.....	2022314
15. Tadeusz WSZOLEK, Dominik MLECZKO, Paweł PAWLIK, Maciej KŁACZYŃSKI, Paweł MAŁECKI, Bartłomiej STĘPIEŃ Experimental Verification of the Usefulness of Selected Infrasound and Low-frequency Noise (ILFN) Indicators in Assessing the Noise Annoyance of Wind Turbines	2022315
