Introduction 5

Clean Energy Studies at Bialystok University of Technology 7

I. Basic Concepts of Energy and Power 11

 Unit 1. Energy, Power, Work..... 11

 Unit 2. Various Forms of Energy..... 12

 Unit 3. The Electromagnetic Spectrum 14

 Unit 4. Measuring Energy 16

 Unit 5. Energy Resources – Production and Consumption 18

II. Current Energy Issues in Poland 21

 Unit 6. Volcanoes or Humans? 21

 Unit 7. Air Quality 24

 Unit 8. Conflict among Poland’s Neighbours over Decarbonisation 26

 Unit 9. Insulation of Houses and Energy Poverty..... 29

 Unit 10. Transport..... 31

 Unit 11. Electric Vehicles and Batteries..... 35

III. Electrification 39

 Unit 12. Poland’s Energy Mix 39

 Unit 13. Coal..... 42

 Unit 14. Hydropower in Poland 45

 Unit 15. Nuclear Energy in Poland 48

 Unit 16. Innovation in Nuclear Technology 51

IV. Future Opportunities 55

 Unit 17. Poland’s Energy Strategy for 2040..... 55

 Unit 18. Energy Efficiency 58

 Unit 19. Geothermal Energy and Heat Pumps 60

 Unit 20. Cleaning up Poland’s Air 64

 Unit 21. Business opportunities 66
