

Contents

Preface	vii
8 Radiative Heat Exchange	1
8.1 Stationary Radiation of Convex Bodies	1
8.2 Nonstationary Problems in Radiation	7
8.3 Radiative Heat Exchange at Given Temperatures.....	12
8.4 Radiative and Conductive Heat Transfer	19
8.5 Bibliography and Comments.....	24
9 Convective Heat Exchange	27
9.1 Difference Schemes for Stationary Heat Problems with Convection	28
9.2 Iterative Methods for Solving Heat Problems with Convection .	44
9.3 Nonstationary Problems of Convective Heat Transfer	60
9.4 Nonstationary Problems of Natural Convection	72
9.5 Problems of Convection in Variables 'a Stream Function, Vorticity, and Temperature'	86
9.6 Problems of Heat and Mass Transfer with Phase Transitions...	103
9.7 Approximation of the Boundary Layer	113
9.8 Bibliography and Comments.....	121
10 Problems of Thermoelasticity	125
10.1 Equilibrium of a Heated Elastic Body.....	126
10.2 Dynamical Problem of Thermoelasticity.....	134
10.3 Thermoelastic Tensions in Plates.....	140
10.4 Oscillations of Plates	151
10.5 Bibliography and Comments.....	157
11 Problems of Control over Heat Processes	159
11.1 Numerical Methods for Solving Variational Problems	160
11.2 Control over Sources in Stationary Problems of Heat Transfer..	171
11.3 Control over Sources in Nonstationary Problems	187
11.4 Control over Boundary Modes	195

11.5	Problem of Optimal Heating.....	203
11.6	Bibliography and Comments.....	213
12	Inverse Problems of Heat Exchange.....	215
12.1	Approximate Solution of Inverse Problems of Mathematical Physics	216
12.2	Retrospective Inverse Problem of Heat Exchange.....	225
12.3	Stationary Inverse Problem.....	239
12.4	Nonstationary Boundary Inverse Problem	253
12.5	Coefficient Inverse Problems of Heat Exchange.....	262
12.6	Bibliography and Comments.....	273
13	Examples of Numerical Modelling for Thermophysical Processes	277
13.1	Stationary Heat Conduction in a Piece-Wise Uniform Body....	278
13.2	Solidification of a Melt in a Rectangular Cavity	296
13.3	Reradiation in a Solid with Nonconvex Cross-section.....	308
13.4	Convection in a Cavity Having Square Cross-section and Laterally Heated.....	329
13.5	Thermoelastic Tensions in a Body Having Rectangular Cross-section	358
13.6	Calculation of Thermostat.....	378
13.7	Recovery of External Heat Loads.....	394
13.8	Bibliography and Comments.....	410
	Appendix: Mathematical Apparatus of Theory of Difference Schemes.....	413
	Hilbert Spaces	413
	Linear Operators in a Finite-dimensional Linear Space.....	415
	Operators in a Finite-dimensional Hilbert Space.....	416
	Index	419
