

Proceedings of "Applications of Physics in Mechanical
and Material Engineering" (APMME 2023),
Częstochowa, Poland, June 29, 2023

B. Jeż <i>Influence of Chemical Composition on the Curie Temperature Change in Amorphous Alloys</i>	281	K. Kutynia, A. Przybył, M. Gębara, M. Rychta, I. Wnuk, P. Gębara <i>Critical Behavior Studies in the Vicinity of the Curie Temperature in the MnCoGe Alloy</i>	329
S. Garus, W. Sochacki, J. Rzącki <i>The Influence of Medium Movement on the Occurrence of Band Gaps in Quasi Two Dimensional Phononic Crystals</i>	284	A. Przybył, I. Wnuk, J. Wysłocki, K. Kutynia, M. Kaźmierczak, M. Rychta, P. Gębara <i>Magnetic Interactions and Coercivity Mechanism in Nanocrystalline Nd-Fe-B Ribbons with Nb Addition</i>	333
J.K. Kalaga <i>Squeezed States Generation in a Three-Mode System of Nonlinear Quantum Oscillators</i>	289	M.W. Jarosik <i>Strong-Coupling Character of Superconducting Phase in Heavily-Doped $cg-C_4H_4$</i>	337
T.A. Walasek <i>Comparative Study on Primary Recrystallization of Metallic Materials Using Experimental and Numerical Simulations</i>	292	T. Skrzypczak, E. Węgrzyn-Skrzypczak, L. Sowa <i>Numerical Investigations of the Influence of Cooling Rate During Solidification on Shrinkage Cavities and Grain Formation Process</i>	342
L. Sowa, T. Skrzypczak <i>Numerical Evaluation of the Impact of Selected Physical Phenomena and Riser Shape on the Formation of Shrinkage Defects in the Casting-Riser System</i>	296	M. Dośpiał, K.M. Gruszka <i>Numerical Investigation of the Optical Properties Related to Combined Periodic and Porous Surface Structures</i>	346
T. Domański, W. Piekarska, M. Sága, M. Kubiak, Z. Saternus, Z. Ságová <i>Influence of Thermal Loads on the Microstructure and Mechanical Properties of Structural Steel</i>	300	K.M. Gruszka, M. Dośpiał <i>UV-Filtration Properties of a Quasi-One-Dimensional Photonic Crystal</i>	351
M. Nabiałek, D.S. Che Halin, J. Gondro, M.M.A.B. Abdullah, A.V. Sandu, B. Jeż <i>Influence of Hf and Y Content on the Local Occurrence of Antiferromagnetic Interactions in Amorphous Fe-Based Alloys</i>	304	K.M. Gruszka <i>Influence of Extinction Coefficient on Electromagnetic Wave Transmission in Thin Superlattices</i>	356
S. Garus, W. Sochacki, J. Garus, M. Šofer, P. Šofer, K.M. Gruszka <i>Influence of Meta-Atom Geometry on the Occurrence of Local Resonance Regions in Two-Dimensional Finite Phononic Structures</i>	308	P. Gębara <i>Theoretical and Experimental Studies of Thermomagnetic Properties of the $LaFe_{11.0}Co_{0.8}Si_{1.2}$ Alloy</i>	360
S. Garus <i>The Influence of the Shape of Acoustic Impedance Change on the Propagation of a Mechanical Wave in Multilayer Phononic Structures</i>	313	E. Szymanek, P. Szymanek <i>Influence of Arrangement for Elements of Bed to Flow and Heat Transfer</i>	363
S. Garus, W. Sochacki, J. Garus, J. Rzącki, P. Vizureanu, A.V. Sandu <i>Transmission of a Phononic Superlattice Made of Dynamic Materials</i>	317	P. Szymanek <i>Numerical Modeling of the Influence of Flat Solar Collector Design on Its Thermal Efficiency with the Use of Fractional Calculus</i>	367
M. Nabiałek, P. Pietrusiewicz, P. Palutkiewicz, K. Błoch, M.M.A.B. Abdullah, A.V. Sandu, B. Jeż <i>Changes in the Initial Magnetic Susceptibility in Amorphous Alloys Exhibiting Soft Magnetic Properties</i>	322	M. Król <i>Calorimetric Analysis of Grain Modified Mg-Li Alloy</i>	371
B. Jeż, P. Postawa, A. Kalwik, M. Nabiałek, J. Gondro, M.M. Nabiałek <i>Influence of a Small Addition of Cu on the Magnetization Process of Rapid Quenched Alloys in Strong Magnetic Fields</i>	325	B. Jeż, M. Nabiałek, P. Postawa, J. Godnro, M.M.A.B. Abdullah, S. Walters, B. Koczurkiewicz, N.I. Muhammad Nadzri <i>Influence of the Spin Wave Stiffness Parameter in Amorphous Materials on Saturation Magnetisation Value</i>	375
		S. Johari, F.A. Hasbullah, A.S. Rosman, M.M. Ramli, M.F. Ahmad, N.A. Karim, N.H. Osman, D. Darminto, A.H. Reshak, S. Garus <i>Characterization of Doped ZnO Thin Film for Ammonia Gas Sensing Application</i>	379

P. Pietrusiewicz	S. Zhufeng, M.A.A. Mohd Salleh, B. Jež, N. Yusoff
<i>Changes in the Surroundings of the Central Iron Atom in Amorphous Alloys</i>	<i>Multiscale Analysis of the Mechanical Properties of the Crack Tip Region</i>
383	399
B. Jež, M. Nabiałek, P. Pietrusiewicz, M.M. Nabiałek, A.V. Sandu, T. Stachowiak	G.T. Kasprzak
<i>Study of the Real Structure of Soft Magnetic Amorphous Alloys Using Mössbauer Spectroscopy</i>	<i>Comparing C₃N and C₃B Anode Materials with Graphene Using DFT Calculations</i>
387	402
M. Nabiałek	R. Gnatowska, K. Gajewska, T. Blejchar
<i>Free Volumes and Their Influence on Disaccommodation of Magnetic Susceptibility</i>	<i>Study of Airfoil Flow Control with Microcylinders Using Optical Method</i>
391	406
P. Trihutomo, P. Puspitasari, M. Nabiałek	M. Nabiałek, J.J. Wysocki, T. Jaruga, K. Błoch, A.V. Sandu, V.V. Savinkin, M.A.A. Mohd Salleh, B. Jež
<i>Effect of Nitrogen Doping on the Electrochemical Properties of Lithium Battery Anode of Activated Carbon</i>	<i>The Phenomenon of Magnetic Anisotropy in Amorphous Materials Produced Using the Injection-Casting Method</i>
395	410
