

Contents

1	Introduction	1
1.1	Book Subject Matter	1
1.2	Underwater Vehicles	2
1.3	Vehicles Moving in Horizontal Plane	3
1.4	Airships	3
1.5	Inertial Quasi-Velocities	4
1.6	Outline of the Book	4
	References	6
2	Models of Underwater Vehicles	9
2.1	Six Degrees of Freedom Equations of Motion	9
2.1.1	Kinematics	11
2.1.2	Dynamics	11
2.1.3	Body-Fixed Representation	16
2.1.4	Earth-Fixed Representation	19
2.2	Equations of Motion in Terms of IQV	21
2.2.1	Equations of Motion Using GVC	21
2.2.2	Equations of Motion Using NGVC	25
2.3	Closing Remarks	28
	References	28
3	Models of Hovercrafts and Vehicles in Horizontal Motion	35
3.1	Three Degrees of Freedom Model	35
3.1.1	Body-Fixed Representation	37
3.1.2	Earth-Fixed Representation	40
3.2	Equations of Motion in Terms of IQV	40
3.2.1	Equations of Motion Using GVC and NGVC in Body-Fixed Representation	41
3.2.2	Equations of Motion Using GVC and NGVC in Earth-Fixed Representation	44

3.2.3	Observation About Application of IQV Equations of Motion for Underactuated Vehicles in Horizontal Motion	47
3.3	Closing Remarks	50
	References	51
4	Models of Airships	57
4.1	Equations of Motion in Body-Fixed Representation	57
4.1.1	Equations in Terms of Body Velocity—Short Review	59
4.1.2	Models of LTAR in Body-Fixed Representation	65
4.1.3	Application of Models for Indoor and Outdoor Airships	65
4.1.4	Equations of Motion for Model Based Control	67
4.2	Equations of Motion in Earth-Fixed Representation	67
4.2.1	LTAR Models in Earth-Fixed Representation	67
4.3	Equations of Motion in Terms of IQV	68
4.3.1	Equations of Motion Using GVC	69
4.3.2	Equations of Motion Using NGVC	69
4.4	Closing Remarks	70
	References	70
5	Various Control Strategies	75
5.1	Model Free Approach	75
5.1.1	Some Model Free Control Strategies	75
5.1.2	Model Free Control for Underwater Vehicles	77
5.1.3	Model Free Control for Vehicles Moving Horizontally	77
5.1.4	Model Free Control for Airships	78
5.2	Control Strategies for Underwater Vehicles	80
5.2.1	Non-Model Based Approaches: Intelligent Control	80
5.2.2	Model Based Control Schemes in Body-Fixed Frame	81
5.2.3	Model Based Control Algorithms in Earth-Fixed Frame	84
5.3	Control Strategies for Vehicles Moving Horizontally	84
5.3.1	Various Non-Model Based Strategies: Intelligent Control	84
5.3.2	Model Based Control Schemes in Body-Fixed Frame	85
5.3.3	Model Based Control Schemes in Earth-Fixed Frame	89
5.4	Control Strategies for Airships	90
5.4.1	Various Non-Model Based Strategies: Intelligent Control	91
5.4.2	Model Based Control Schemes	91

5.5	Closing Remarks	93
	References	93
6	IQV Based PD Control in Body-Fixed Frame	111
6.1	Control Algorithms Expressed in IQV	111
6.1.1	PD-Type Controller Expressed in GVC	111
6.1.2	PD-Type Controller Expressed in NGVC	116
6.1.3	Simplified Forms of Controllers	119
6.2	Simulation Results	120
6.2.1	PD Control Using GVC	120
6.2.2	PD Control Using NGVC	126
6.3	Closing Remarks	129
	References	130
7	IQV Position and Velocity Tracking Control in Body-Fixed Frame	133
7.1	Control Algorithms Expressed in IQV	133
7.1.1	Position and Velocity Tracking Controller Expressed in GVC	133
7.1.2	Position and Velocity Tracking Controller Expressed in NGVC	137
7.1.3	Simplified Forms of Controllers	141
7.2	Simulation Results	142
7.2.1	Trajectory Tracking Control Using GVC	142
7.2.2	Trajectory Tracking Control Using NGVC	149
7.3	Closing Remarks	152
	References	153
8	IQV Velocity Tracking Control in Body-Fixed Frame	155
8.1	Control Algorithms Expressed in IQV	155
8.1.1	Velocity Tracking Controller Expressed in GVC	156
8.1.2	Velocity Tracking Controller Expressed in NGVC	159
8.1.3	Simplified Forms of Controllers	162
8.2	Simulation Results	163
8.2.1	Velocity Tracking Control Using GVC	163
8.2.2	Velocity Tracking Control Using NGVC	166
8.3	Closing Remarks	169
	References	169
9	IQV Position and Velocity Tracking Control in Earth-Fixed Frame	171
9.1	Control Algorithms Expressed in IQV	171
9.1.1	Position and Velocity Tracking Controller Expressed in GVC	171
9.1.2	Position and Velocity Tracking Controller Expressed in NGVC	177
9.1.3	Simplified Forms of Controllers	182

9.2	Simulation Results	183
9.2.1	Trajectory Tracking Control Using GVC	183
9.2.2	Trajectory Tracking Control Using NGVC	187
9.3	Closing Remarks	189
	References	189
10	IQV Position and Velocity Tracking Control with Adaptive Term in Body-Fixed Frame	191
10.1	Control Algorithms Expressed in IQV	191
10.1.1	Position and Velocity Tracking Controller with Adaptive Term Expressed in GVC	191
10.1.2	Position and Velocity Tracking Controller with Adaptive Term Expressed in NGVC	196
10.1.3	Simplified Forms of Controllers	200
10.2	Simulation Results	201
10.2.1	Trajectory Tracking Control Using GVC	201
10.2.2	Trajectory Tracking Control Using NGVC	204
10.3	Closing Remarks	207
	References	208
11	IQV Velocity Tracking Control with Adaptive Term in Body-Fixed Frame	209
11.1	Control Algorithms Expressed in IQV	209
11.1.1	Velocity Tracking Controller with Adaptive Term Expressed in GVC	209
11.1.2	Velocity Tracking Controller with Adaptive Term Expressed in NGVC	214
11.1.3	Simplified Forms of Controllers	218
11.2	Simulation Results	218
11.2.1	Velocity Tracking Control Using GVC	218
11.2.2	Velocity Tracking Control Using NGVC	219
11.3	Closing Remarks	224
	References	224
12	IQV Position and Velocity Tracking Control with Adaptive Term in Earth-Fixed Frame	227
12.1	Control Algorithms Expressed in IQV	227
12.1.1	Position and Velocity Tracking Controller Expressed in GVC	227
12.1.2	Position and Velocity Tracking Controller Expressed in NGVC	232
12.1.3	Simplified Forms of Controllers	237
12.2	Simulation Results	237
12.2.1	Trajectory Tracking Control Using GVC	237
12.2.2	Trajectory Tracking Control Using NGVC	246

12.3	Closing Remarks	249
	References	250
13	Vehicle Dynamics Study Based on Nonlinear Controllers	
	Conclusions and Perspectives	253
13.1	General Scheme	253
13.2	Controllers and Gain Matrices Selection	255
13.3	Vehicle Dynamics Study Using Procedure	256
13.3.1	Analysis Based on GVC Controllers	256
13.3.2	Analysis Based on NGVC Controllers	259
13.4	Comparison of Vehicle Dynamics Using Indexes	263
13.4.1	Model Test Based on GVC Controller	263
13.4.2	Model Test Based on NGVC Controller	266
13.5	Application of GVC Control Algorithms	269
13.5.1	Position and Velocity Trajectory Tracking Controller in Earth-Fixed Frame	269
13.5.2	Position and Velocity Trajectory Tracking Controller with Adaptive Term in Body-Fixed Frame	274
13.5.3	Velocity Tracking Controller with Adaptive Term in Body-Fixed Frame	289
13.5.4	Position and Velocity Trajectory Tracking Controller with Adaptive Term in Earth-Fixed Frame	298
13.6	Application of NGVC Control Algorithms	305
13.6.1	Position and Velocity Trajectory Tracking Controller in Body-Fixed Frame	307
13.6.2	Velocity Tracking Controller in Body-Fixed Frame	317
13.6.3	Position and Velocity Trajectory Tracking Controller in Earth-Fixed Frame	321
13.6.4	Position and Velocity Trajectory Tracking Controller with Adaptive Term in Body-Fixed Frame	326
13.6.5	Position and Velocity Trajectory Tracking Controller with Adaptive Term in Earth-Fixed Frame	353
13.7	Closing Remarks	358
13.8	Conclusions and Perspectives	359
13.8.1	Summary of the Book	359
13.8.2	Perspectives and Open Problems	360
	References	360
	Appendix: IQV Equations, Formulas, Vehicle Models	363
