Contributors	xiii
About the editors	xv
Preface	xvii
Acknowledgments	xix
1 Introduction to recycled plastic biocomposites	1
<i>Anthonette Anak James, Md Rezaur Rahman, Muhammad Khusairy Bin Bakri, and Md Mahbubul Matin</i>	
1.1 Introduction	1
1.2 Principal processes of plastics and polymers	5
1.3 Advantages and disadvantages of recycled plastic biocomposites	16
1.4 Potential and application of recycled plastic biocomposites	21
1.5 Summary	24
Acknowledgment	24
References	24
2 Food residue to reinforce recycled plastic biocomposites	29
<i>Muhammad Khusairy Bin Bakri, Md Rezaur Rahman, Yuriy Yurkin, Andrey Burkov, Md Mahbubul Matin, Kuok King Kuok, Chin Mei Yun, Armstrong Ighodalo Omoregie, and Perry Law Nyuk Khui</i>	
2.1 Introduction	29
2.2 Biofillers and biofibers	31
2.3 Biodegradable, renewable, and biobased polymers	35
2.4 Organic additives	37
2.5 Food waste biocomposites and biofilms	38
2.6 Environmental impact	41
2.7 Life cycle assessment	41
2.8 Summary	42
Acknowledgment	42
References	43

3	Development of pulp and paper waste-recycled plastic biocomposites	51
	<i>Samiya Fariha, Faisal I. Chowdhury, Md Rezaur Rahman, and Muhammad Khusairy Bin Bakri</i>	
3.1	Introduction	51
3.2	Types of pulp and paper	52
3.3	Extraction and preparation methods	54
3.4	Preparation methods	60
3.5	Potential and commercialization	66
3.6	Applications	74
3.7	Summary	76
	References	77
4	Recycled polymer and plastic waste and its biocomposites	81
	<i>Elammaran Jayamani, Cindy Ong Siaw Ki, Md Rezaur Rahman, and Muhammad Khusairy Bin Bakri</i>	
4.1	Introduction	81
4.2	Selection of an appropriate thermosetting resin	82
4.3	Material properties	86
4.4	Advantages of particulate sizing in polymer composite	87
4.5	Results and discussion	91
4.6	Conclusion	94
	Acknowledgment	94
	References	94
5	Recycled plastic and textile waste biocomposites	97
	<i>Muhammad Khusairy Bin Bakri, Md Rezaur Rahman, Yuriy Yurkin, Andrey Burkov, Kuok King Kuok, Chin Mei Yun, Armstrong Ighodalo Omoregie, and Perry Law Nyuk Khui</i>	
5.1	Introduction	97
5.2	Textiles	98
5.3	Recycled textiles	99
5.4	Recent recycled textile applications	102
5.5	Discussion and analysis	108
5.6	Summary	111
	Acknowledgment	111
	References	112
6	Recycled wood plastic biocomposites and development of new materials	119
	<i>Faisal I. Chowdhury, Jahidul Islam, Sr Subroto Halder, and Hossain M. Zayed</i>	
6.1	Introduction	119
6.2	Types of wood and polymer	120
6.3	Cross-laminated timber	123
6.4	Wood scrimber	124

6.5	Size and dimension effects on the properties of recycled composites	125
6.6	Advantages and disadvantages	129
6.7	Potential and commercialization	135
6.8	Applications	137
6.9	Conclusion	140
	References	140
7	Recycled rubber waste plastic and its composites	147
	<i>Perry Law Nyuk Khui, Md Rezaur Rahman, Md Mahbubul Matin, and Muhammad Khusairy Bin Bakri</i>	
7.1	Introduction	147
7.2	Recycled rubber waste and its composites	148
7.3	Recycled plastic waste and its composites	153
7.4	Conclusion	158
	Acknowledgment	158
	References	158
8	Role of agricultural waste in recycled plastic biocomposites	165
	<i>Ahsan Ali, Ali Bahadar, Afrasyab Khan, and Khairuddin Sanaullah</i>	
8.1	Introduction	165
8.2	Plastic materials	167
8.3	Environmental impact of plastic materials	167
8.4	Agricultural waste as a green biomass source	169
8.5	Classification of agricultural biomass and waste	170
8.6	Fiber structure, morphology, and chemical composition of agricultural waste	172
8.7	Natural and biodegradable matrix materials	173
8.8	Agricultural waste fiber-reinforced biocomposites	178
8.9	Processing techniques for biocomposites	183
8.10	Summary, applications, and future trends	185
	References	186
9	Micro and nano effects of recycled plastic waste to reinforce and enhance in biocomposites	195
	<i>Md Rezaur Rahman, Muhammad Khusairy Bin Bakri, Md Mahbubul Matin, and Perry Law Nyuk Khui</i>	
9.1	Introduction	195
9.2	Micro and nano recycled biocomposites	197
9.3	Applications	199
9.4	Advantages and disadvantages of micro, nano, and biocomposites	202
9.5	Summary	203
	Acknowledgment	204
	References	204

10	Recycled industrial plastics' fine waste incorporated into biocomposites	213
	<i>Nur-Azzah Afifah Binti Taib, Md Rezaur Rahman, Muhammad Khusairy Bin Bakri, Md Mahbulul Matin, and Khairuddin Sanaullah</i>	
10.1	Introduction	213
10.2	The impact of plastic waste on the environment and health	215
10.3	Recycled industrial plastic waste	217
10.4	A brief history of the composite industry	222
10.5	Incorporation of plastic waste in composites and biocomposites	222
10.6	Conclusion	225
	Acknowledgment	226
	References	226
11	Marine-based reinforcing materials for biocomposites	229
	<i>Muhammad Khusairy Bin Bakri, Md Rezaur Rahman, Md Mahbulul Matin, Yuriy Yurkin, Andrey Burkov, Elammaran Jayamani, Kuok King Kuok, Chin Mei Yun, and Armstrong Ighodalo Omoregie</i>	
11.1	Introduction	229
11.2	Types of marine-reinforced polymer composites	230
11.3	Potential and application of marine-based materials for biocomposites	239
11.4	Summary	241
	Acknowledgment	241
	References	242
12	Impact of recycled plastic biocomposites on the economy and socioenvironment	247
	<i>Md Rezaur Rahman, Muhammad Khusairy Bin Bakri, Elammaran Jayamani, and Faisal I. Chowdhury</i>	
12.1	Introduction	247
12.2	Recycling plastic biocomposites: Management, potential mitigation, and challenges	248
12.3	Analysis of recycled plastic biocomposites	252
12.4	Benefits of fossil-based plastic and effects of their ban on socioeconomics and the environment	253
12.5	Key lessons of recycled plastic biocomposites and the bioplastics manufacturing project	254
12.6	Summary	255
	Acknowledgment	255
	References	255
13	Resources and energy recovery with recycled plastic biocomposites	261
	<i>Muhammad Khusairy Bin Bakri, Md Rezaur Rahman, Yuriy Yurkin, Andrey Burkov, Kuok King Kuok, Elammaran Jayamani, Chin Mei Yun, and Armstrong Ighodalo Omoregie</i>	
13.1	Introduction	261
13.2	Types of plastic	263

13.3 Biocomposites and composites resources and regeneration	264
13.4 Recovery paths	265
13.5 Recent developments in plastic regeneration and recovery	267
13.6 Sustainability and its economic value	274
13.7 Summary	274
Acknowledgment	275
References	275
14 Education and awareness of waste and recycled plastic biocomposites	281
<i>Elammaran Jayamani, Sim Rui Li, Wong Yeng Chiang, Md Rezaur Rahman, and Muhammad Khusairy Bin Bakri</i>	
14.1 Introduction	281
14.2 Education regarding biocomposites	283
14.3 Ways to improve awareness of waste and recycled biocomposites	291
14.4 Recommendations	292
14.5 Conclusion	293
Acknowledgment	294
References	294
Index	299
