

Table of Contents

Chapter 1 Drawing Beam Shear Force and Bending Moment Diagram

1-1 Introduction	1-1
1-2 Preprocessing of model	1-1
1-3 Processing	1-14
1-4 Post Processing	1-15
1-5 Comparing Different Beams with Different Boundary Condition and Load	1-19

Chapter 2 Finite Element Analysis of Support Settlements for Beams

2-1 Introduction	2-1
2-2 Preprocessing of model	2-1
2-3 Processing	2-15
2-4 Post Processing	2-15

Chapter 3 Finite Element Analysis of Linear Buckling for Columns

3-1 Introduction	3-1
3-2 Preprocessing of model	3-4
3-3 Processing	3-13
3-4 Post Processing	3-14
3-5 Preprocessing for second model	3-16
3-6 Processing the Model	3-17
3-7 Post Processing	3-18

Chapter 4 Investigating Stress Concentration in Shells using Finite Element Method

4-1 Introduction	4-1
4-2 Preprocessing of model	4-1
4-3 Processing	4-9
4-4 Post Processing	4-10

Chapter 5 Finite Element Analysis of Reinforced Concrete Columns

5-1 Introduction	5-1
5-2 Principal of Concrete Cracking	5-1
5-3 Abaqus® Damaged Plasticity Model	5-4
5-4 Preprocessing of model	5-5

5-5 Processing	5-28
5-6 Post Processing	5-29

Chapter 6 Finite Element Analysis of Reduced Beam Section (RBS) Connections under Cyclic Loading

6-1 Introduction	6-1
6-2 Reduced Beam Section (RBS) Connection	6-1
6-3 Hardening in Steel	6-2
6-4 Hardening in Abaqus®	6-7
6-5- Preprocessing of model	6-14
6-6 Processing	6-33
6-7 Post Processing	6-34
6-8 Hysteresis Diagram	6-37

Chapter 7 Finite Element Analysis of Retaining Walls

7-1 Introduction	7-1
7-2 Preprocessing of the Model	7-1
7-3 Processing	7-31
7-4 Post Processing	7-32

Chapter 8 Finite Element Modeling of Pre-stressed Reinforced Concrete Cantilever Beams

8-1 Introduction	8-1
8-2- Preprocessing of the Ordinary Reinforced Concrete Model	8-6
8-3 Processing	8-34
8-4 Post Processing	8-35
8-5 Preprocessing of the Pretensioned Concrete Model	8-43
8-6 Processing	8-52
8-7 Post Processing	8-53
8-8 Preprocessing of the Post-tensioned Concrete Model	8-60
8-9 Processing	8-70
8-10 Post Processing	8-71

Chapter 9 Finite Element Analysis of a Masonry Wall Frame

9-1 Introduction	9-1
9-2 Preprocessing of the Model	9-1
9-3 Processing	9-30

9-4 Post Processing	9-31
---------------------------	------

Chapter 10 Finite Element Analysis of Corrugated Steel Plate Shear Walls (SPSW)

10-1 Introduction	10-1
10-2 Preprocessing of the Model.....	10-2
10-3 Processing	10-25
10-4 Post Processing	10-26

Chapter 11 Finite Element Analysis of Concrete Beams Strengthened with the FRP

11-1 Introduction.....	11-1
11-2 Preprocessing of the Model.....	11-1
11-3 Preprocessing of the FRP Reinforced Concrete Model	11-3
11-4 Processing	11-19
11-5 Post Processing	11-20
