|--------------------------------------------------------------------------------|-----------|
| <b>Foreword</b>                                                                | <b>iv</b> |
| <b>Introduction</b>                                                            | <b>v</b>  |
| <b>1 Scope</b>                                                                 | <b>1</b>  |
| <b>2 Normative references</b>                                                  | <b>1</b>  |
| <b>3 Terms and definitions</b>                                                 | <b>1</b>  |
| 3.1 Terms relating to greenhouse gases                                         | 1         |
| 3.2 Terms relating to the GHG quantification process                           | 3         |
| 3.3 Terms relating to organizations and interested parties                     | 4         |
| 3.4 Terms relating to verification and validation                              | 5         |
| <b>4 Principles</b>                                                            | <b>5</b>  |
| 4.1 General                                                                    | 5         |
| 4.2 Relevance                                                                  | 5         |
| 4.3 Completeness                                                               | 6         |
| 4.4 Consistency                                                                | 6         |
| 4.5 Accuracy                                                                   | 6         |
| 4.6 Transparency                                                               | 6         |
| 4.7 Conservativeness                                                           | 6         |
| <b>5 Introduction to GHG projects</b>                                          | <b>6</b>  |
| <b>6 Requirements for GHG projects</b>                                         | <b>8</b>  |
| 6.1 General requirements                                                       | 8         |
| 6.2 Describing the project                                                     | 9         |
| 6.3 Identifying GHG SSRs relevant to the project                               | 10        |
| 6.4 Determining the GHG baseline                                               | 10        |
| 6.5 Identifying GHG SSRs relevant to the baseline scenario                     | 11        |
| 6.6 Selecting GHG SSRs for monitoring or estimating GHG emissions and removals | 11        |
| 6.7 Quantifying GHG emissions and/or removals                                  | 11        |
| 6.8 Quantifying GHG emission reductions and removal enhancements               | 12        |
| 6.9 Managing data quality                                                      | 12        |
| 6.10 Monitoring the GHG project                                                | 12        |
| 6.11 Documenting the GHG project                                               | 13        |
| 6.12 Verification and/or validation of the GHG project                         | 13        |
| 6.13 Reporting the GHG project                                                 | 13        |
| <b>Annex A (informative) Guidance on the use of this document</b>              | <b>15</b> |
| <b>Bibliography</b>                                                            | <b>26</b> |
