Contributors xiii

SECTION I Industrial Engineering

Chapter 1 IoT-Based Embedded Sensor System for Real-Time Health Monitoring of Composite Structures for Large-Scale Industrial Operations 3
Yashwanth Padarathi, Raghu Raja Pandiyan Kuppusamy

Chapter 2 Computer-Aided Ergonomic Design and Assembly of a Domestic String Hopper Machine..... 33
C. Vigneswaran, G. Madhan Mohan, M. Vignesh Raja, E. Selva Vignesh

SECTION II Automation and Optimization

Chapter 3 Application of Grey Wolf Optimizer Algorithm in Electrochemical Machining Process Optimization 45
S. Ghosh, B. Acherjee, A.S. Kuar

Chapter 4 Simulation for Decision-Making in the Orthogonal Turning Operation of Three Different Aluminum Alloys Using John-Cook Plasticity Model and Damage Laws 61
Padmanabhan K, Saraschandra M, Prudvi Krishna M, Bhargav Avinash G

SECTION III Robotics

Chapter 5 Development of Forward Kinematics of a Two-DOF Manipulator in MATLAB® Environment 87
Ranjan Kumar, Kaushik Kumar

Chapter 6	Machine Learning Algorithms in Intellectual Robotics	111
	<i>Nithya Jayakumar, Ramya Jayakumar</i>	
Chapter 7	Application of 3D Printing and Robotics in the Healthcare Industry	121
	<i>Prachi Khamkar, Debarshi Kar Mahapatra, Atul Mansing Kadam</i>	
Chapter 8	Self-Repeating Robotic Arm: An Experimental Learning	135
	<i>B. Nagamani, N. Subadra, Sathvik Parasa, Hari Sarada, Ashrith Gadeela</i>	
Chapter 9	Robotics Applications and Its Impact in the Global Agricultural Sectors for Advancing Automation	151
	<i>A. Kishore Kumar, P.K. Poonguzhali, T. Nivethitha</i>
